The GOLDEN RULE

From where I sit ... by Joe Marsh

It Isn't the Heat—
It's the Hide!

Big discussion after the Grange meeting Friday night. Tik Anderson was arguing that hogs were lots more affected by the hot weather than cattle. Skeeter Morgan declared that it wasn't so—that he never saw any hogs bothered by the hot sun like his cows were.

I was glad when Rusty Robinson stepped in.

"Boys," he says, "don't get so riled up. It all depends on what color the livestock are. Hogs or cattle, the ones with light-colored coats absorb less heat from the

sun's rays than animals with dark coats. So you're both right!"

From where I sit, so many useless arguments could be avoided if a person would remember he doesn't have all the right on his side. Reminds me of folks who insist that coffee, for instance, is the only drink, forgetting that other people have a right to a glass of beer now and then. If we wouldn't get so "het up" about our prejudices—we'd all be better off!
