SUMMER RECREATION

The cracking of baseball bats and the cries of youthful male voices are being heard three times a week in Cave Junction announcing the beginning of many hours of enjoyable summer recreation for dozens of baseball-loving boys.

Valley parents are fortunate this summer in being able to send 8-16-year old sons with extra vacation time on their hands to Cave Junction for supervised baseball practices and games.

With his own preparation for attending summer school breathing down his neck, IVHS Coach Wes Peters found time for organizing the

Pee-Wee and Cub leagues, arranging games and finding sponsors before leaving for University of Oregon.

Support this worthwhile program designed to give boys constructive, supervised summer activity by seeing your boy gets to each practice session and game.

NOTHING BUT TIME

The Valley's request for improved post office facilities in Cave Junction would appear to have fallen on deaf ears in the postal department.

We're surprised the postal authorities aren't jumping at the opportunity of awarding a new building, which wouldn't cost Uncle a dime, in an election year.

Valley citizens have done everything possible to arouse Postal Inspector Worthington, of Portland, into realizing their dissatisfaction with Cave Junction's postal building, lack of boxes, and other elements of postal activity. Letters were written, petitions signed, and bids submitted.

Still businesses and institutions like the high school, with large volumes of mail, remain without boxes and long lines of customers wait at the one window of the local cracker box model of a postoffice building.

If you haven't written V. F. Worthington, Postal Inspector, Portland, Ore., it appears you still have plenty of time to voice your opinion of the present facilities.

Spencers Build New Home

The Earl Spencer family is building a new home on Caves Highway, just east of the Raymond Proctor home. They hope to occupy it by July 15.

Travel to Calif.

Rev. and Mrs. Orrin Ogier and children of O'Brien left last week end for California to see Mr. Ogier's brother who is in the armed forces.

Preaches in Sunny Valley

Rev. and Mrs. George Gray spent Sunday in Sunny Valley where Rev. Gray preached for Rev. F. W. Hopkins who is at present a patient in a Medford hospital.

BUDGET COMMITTEE: Art Drews, chairman; Clem Arnold, Kenneth Deaton, Ford Kellar.
COUNCIL: Fred Salvage, mayor; Larry Goff, Nellie Farlien, Jerry Tillery, Luther Sherier.
Passed and approved June 12, 1952.

CHAS. A. HUBBARD, Recorder

The Valley of Yesteryear

10 YEARS AGO

June 11, 1942—Mr. and Mrs. Blake Miller returned home Sunday after spending two weeks vacation on their ranch near Glendale.

Mr. and Mrs. C. R. Stout of the Esterly mine left Friday for Illinois to visit relatives and attend to some business matters connected with the mine.

Mrs. H. L. Allen of Myrtle Creek Oregon, spent the weekend visiting her daughter, Mrs. Dolly Tucker of Cave Junction.

Mrs. Fred Seyferth and her granddaughter of Alturas California accompanied Mrs. Sam Bunch and Mrs. Mattie Seyferth to Crescent City the first of the week.

14 YEARS AGO

June 9, 1938—Blanche Cousineau and Laddie Freitas left the first of the week for Archie Anderson's logging camp over near Lakeview. Mrs. Cousineau will have charge of the boarding house and Laddie will be second cook.

Mrs. Edgar Barnes and two children of Selma returned Tuesday from two weeks visiting relatives in Klamath Falls.

Improvements noticed in Kerby was the fresh coat of paint given to the John Wittrock store and Sachse's garage.

Mr. and Mrs. Lew Hammer and Mr. and Mrs. Henry Hanewood made a trip to St. Helens Portland, Booneville Dam and Washington points last week.

Guests at Willadora
Rev. J. O. McDonald and family of Wilmington, Del., stopped last Saturday to visit Mrs. Wm. A. Brown of "Willadora". The Browns and McDonalds were friends while in a pastorate in Albany. They had been attending the General Assembly of the United Presbyterian church held recently in Albany.

Attend Family Reunion

Milton Dunham and family of Caves Highway, accompanied by his brother and wife, Mr. and Mrs. Kenneth Dunham of Nebraska who have been visiting here, left over the weekend for a family reunion in Chehalis, Wash.

Cave Junction Visitor

Mr. B. B. Twyman, formerly of the Town and Country Motel, was in town last week on his way home from Corvallis where he attended the graduation of his son, Bill. Mr. Twyman is a member of the Los Angeles Police department and Mrs. Twyman is an English teacher in the Los Angeles Fairfax high school.

If it's Wood—
a McCulloch will cut it!

McCulloch chain saws are in the news. You can't beat them for high-speed logging, cutting cordwood, land clearing, and other timber work. The reason for the McCulloch's great popularity is simply this: the power's there... but the weight isn't! You don't need to take our word for it. Come in and see for yourself.

Try One Yourself

Within the next few days, stop by our store for a real demonstration of wood cutting. Or give us a call and we'll try to arrange a show for you at your place. There's no obligation. We want you to see what a McCulloch can do.

Optometrist Here

Dr. T. W. Smith, optometrist moved his new equipment into the Medical Center last Wednesday. Either he or his assistant, Dr. Robert Klever will be there on two days of each week. Dr. Klever is a graduate of the Pacific University School of Optometry and has been doing graduate work at the University Clinic this past year.

Guests of the Diamonds

Visitors at the home of Mr. and Mrs. C. T. Diamond last week were Mr. and Mrs. W. W. Hostetler, Mrs. Carl Hartzel and grand daughter, all of McMinnville, the former home of the Diamonds. They were enroute south for their vacation.

A NEW BALING PRINCIPLE

LONG "50"

That Means Tightly Tied, Compact, Square Bales

The Automatic Bale Tension Bar, found only on the LONG "50" one-man automatic pick-up hay baler, is truly a new principle in hay baling. A principle that you will like, too, because it eliminates the need for constant readjustment of bale tension for minor changes in hay condition.

The automatic bale tension bar places the most tension on the bale that is being tied. This is where the most tension is needed. Adjustment for wet or green spots in the windrow is immediate and automatic as soon as the charge enters the baling chamber. This principle makes the kind of bales that you want... square, compact, tightly tied bales.

Let us show you this and the many other outstanding features of the LONG "50" before you buy.
