Bad Habits

Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to have indigestion. They do not allow time for a meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.
