Fewer Eggs are required with ROYAL BAKING POWDER

In many recipes the number of eggs may be reduced with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following recipe is a practical example:

Chocolate Sponge Roll

1/4 cup flour
1/2 teaspoon salt
1 cup sugar
2 eggs
2 squares melted chocolate

2 tablespoons melted shortening
1/2 cup hot water
1 teaspoon vanilla
2 teaspoons Royal Baking Powder

The old method called for 4 eggs and no baking powder

DIRECTIONS—Sift flour, baking powder and salt together three times. Beat whole eggs. Add slowly sugar, then boiling water slowly; add next vanilla, melted chocolate and melted shortening, without beating. Sift in dry ingredients, and fold in as lightly as possible. Pour into large baking pan lined with oiled paper, and bake in slow oven twenty minutes. When done, turn out on a damp, hot cloth, spread with white icing and roll.

Booklet of recipes which economize in eggs and other expensive ingredients mailed free.

YOUR soldier is all business, from reveille to taps—no room for excess baggage with him. He has no use for a big plug of coarse leaf, all loaded up with heavy syrup—what he wants is **tobacco satisfaction**. The little sappy chew of W-B CUT checks up with his idea of what's good. Out on a lonely outpost, it's mighty sociable and satisfying; and my, how it does last!
