Piano Tuning

This is the season of the year when you should watch your piano. To keep it in tune preserves its life and value. Mrs. Talmadge carries a diploma from the largest school of piano tuning in the world, and earnestly endeavors to give satisfaction. First tuning \$3, two tunings a year \$5. Call this office.

Fires are becoming more numerous every day. Many fine barns and their contents have been destroyed in the last ten days. Prices are so high on all farm products that the average farmer is not carrying enough insurance on what he has. Are you one of these, or are you on the not insured list? You owe it to yourself and family to carry enough for protection. The cost is a small item compared with the benefits. Don't delay. Write or phone our office and we will come. We write the best insurance in the state for the money. Miller & Walter, Agents Oregon Fire Relief Association of Mc Minnville, Corvallis, Oregon.

EXPORT BUSINESS GROWING

Our Great Ally Possesses Recuperative Powers Which Justify Belief That She Will Meet and Solve Triumphant the Problems Which Confront Her After the War.

With Paris Boulevard echoing with "vive" for American troops our interest in the welfare of our ally vastly increases, and the facts are not lacking to encourage the belief that she is already on the road to recovery from the blow of invasion by a ruthless enemy. One of the most important de-

Marchal Joffre and the French Mission in America.

rements in the announcement that one of the largest banking institutions in America concerned with foreign trade, the Guaranty Trust Company of New York, has opened a Paris branch to handle the rapidly increasing volume of French business.

This action may surprise many persons who had thought of France as bowed under a calamitous invasion. The bank, however, gives figures indicating that France is not only meeting her military and civilian problems with a stout heart and never failing courage, but is re-establishing her export business with this country.

In 1914, the year of the outbreak of the War, imports from France to this country totaled \$141,462,232. This total was reduced to \$77,154,719 in 1915, but last year the value of French imports to the United States rose to \$102,674,000.

"A nation that can achieve such a commercial recovery while her territory is being ravished by the invader," says the Trust company's statement, "possesses recuperative powers which

General Pershing Arrives in France.

Justify the belief that she will emerge from the present conflict prepared to meet and solve triumphantly the problems which confront her."

The commercial and industrial record of France, following past wars, indicates that she should recover quickly from the actual physical destruction inflicted in the present conflict. The reconstruction of railroads, the erection of factories to replace those destroyed, and the replacement of the mechanism of industrial activity that will be required and that is in part already planned, offer a peculiarly inviting field to American capital and enterprise. Tentative steps have already been taken by representatives of American engineers and business men in this work.

Are You Eating To Win the War?

This Newspaper recommends
Today's Housewife to every patriotic woman
who wishes to help win the great war

Today's Housewife is especially needed by every homemaker in the present war-crisis, because the seven Courses in Domestic Science now running in the magazine help housewives to better select, prepare and conserve food supplies, to cut down waste, and at the same time to add to the health and welfare of the entire family.

Today's Housewife is the only magazine that maintains a model home where cookery recipes, new household devices, cleaning methods, etc., are put to practical tests before their appearance in the pages of the magazine.

The monthly lesson on "Cookery, Foods and Nutrition" under the direction of Caroline Hunt of the Department of Agriculture, is alone worth the price of a ten-year subscription not only to the woman who follows each lesson but to the government of the United States in helping to win the terrific war with the Central Empires of Europe.

Favorite Magazine of Home-loving Women

REMEMBER, better home-making is the ideal back of TODAY'S HOUSEWIFE. Its reason for existence, its earnestly planned-for goal, better homeliving in its largest sense, with the spiritual and mental no less than the material needs of the family in view; homeliving as the biggest of woman's opportunities rather than house-keeping as the most dreary of woman's drudgeries.

While Today's Housewife stands in a class by itself in its practical value to homemakers, it is also noteworthy for its wonderfully inspiring editorials and special articles, for its clean, delightful stories, and its beautiful illustrations and covers by leading artists. Over one million women agree that TODAY'S HOUSEWIFE is worth several times the price of 10 cents per copy.
