

The Halsey Enterprise

An Independent Newspaper.

PUBLISHED EVERY THURSDAY

W. A. PRIAULX, Publisher
D. H. TALMADGE, Editor

Entered as second-class matter October 3, 1912, at the post office at Halsey, Oregon, under the Act of March 3, 1879.

Devoted to the material upbuilding of Halsey and surrounding country and Halsey county generally. Subscription rate \$1.50 per year in advance.

Political Notes

J. A. Churchill, who has served in the office since 1914, has announced his candidacy for reelection as state superintendent of public instruction. He is a model of efficiency.

Five candidates are now out for state treasurer—Senator Cusick of Albany, Deputy Treasurer Ryan, William Adams and O. M. Plummer of Portland and the present state commissioner of labor, O. P. Hoff, whose candidacy was announced Saturday. And it is hinted that more will follow.

It looks as if Editor Hornbrook would accomplish without great difficulty his ambition to be democratic national committeeman from Oregon.

J. E. Anderson, republican candidate for governor, is said to be quietly touring the state in the interest of his candidacy. Mr. Anderson lives at The Dalles, and was a member of the house of representatives at the last two sessions of the legislature.

Cigarettes and Boys

A suspicion exists in the minds of some parents of boys in Halsey that the cigarette law is being violated here, probably through thoughtlessness. The law is very plain and easy to understand. It makes it unlawful for any minor to smoke, use or be in possession of any cigarette in this state. In the meaning of the law the term "cigarette" refers to any paper or form prepared to be filled with smoking tobacco for cigarette use. The law provides a penalty for giving cigarettes or papers or tobacco for cigarette use to any minor.

Chamberlain's Tablets

These Tablets are intended especially for disorders of the stomach, liver and bowels. If you are troubled with heartburn, indigestion or constipation they will do you good.

Bits of Wisdom

Patience—the heaven of peace is working, but time is the essence of perfecting an understanding of world scope.

The dividing line of right and wrong is as imperceptible as the line separating light and shadow, but a world of difference lies between.

One of these days the constant rays of the Sun God of Peace will force from the ashes of the war fused world the full blown flower of fellowship and good will among men.

If you are not a genuine American, hide your face; for the love of country and humanity fills the minutest cranny of the real American heart and beams in their countenance.

Our tongue sometimes deceives our heart, in proportion to the command retained of it.

Action is a magical word. Our boys say there is no time to feel homesick or brood.

Smiles have earned more money than all else in the repertoire of public entertainers.

Senatorial Candidate

Stanfield, Ore., Feb. 5—That he is his own campaign manager and has departed from the old

R. N. Stanfield.

political campaign manager system is the announcement of R. N. Stanfield, who for the past month has been vigorously working throughout the state in behalf of his candidacy for United States senator.

A Hint to the Aged

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

Out for State Treasurer

That he is seeking the republican nomination for state treasurer was the announcement issued Saturday by O. P. Hoff, for fifteen years labor commissioner of the state of Oregon.

O. P. Hoff

Mr. Hoff says in his announcement: "My knowledge of state business and long training and experience in handling public and private funds certainly qualifies me for the other duties of the state treasurer."

This statement follows a reference to his knowledge of the risks, difficulties and requirements of the business man, and his comprehension of the troubles, hardships and struggles of the working people, which will enable him to act with understanding in the solutions of their problems as they come before the various boards of which the state treasurer is a member.

"Eyes" Wanted

The United States navy is in need of binoculars, telescopes and spy-glasses. Send by parcel post or express to Franklin D. Roosevelt, assistant secretary of the navy, care of naval observatory, Washington, D. C. A test will be made promptly and those not suitable will be returned to the sender. For those accepted a check for \$1 will be sent, which sum will constitute the rental price, or in the event of loss, the purchase price of the article.

HASTENED RUSSIAN COLLAPSE

"We must not overlook the fact that Russia collapsed, not because of the Germans on her borders, but because she failed to organize and feed her own citizenship," the food administration announced. "We must be warned that if we are to emerge victorious from this war we cannot risk the collapse of another of our associates in this war from this cause. "Anybody that is looking for the collapse of the German people on the food question had better turn around and look at the moon, because the results will be the same. Germany is in no more danger of collapsing on that score than we are, if as much."

Food Will Win the War

A LARGE part of the world is coming to the position that Belgium is in; coming to the stage where the primary and important thing in life is enough food to keep alive. Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary.

The cold facts are: France, Italy and England have just enough food to keep them going ten or twelve weeks. When America's food shipments stop—the allied nations begin consuming into this slender store and begin a swift march into actual famine conditions—which would mean defeat in short order.

Europe then must live on America's surplus. Your saving increases our available stocks just that much and actually feeds some person in the countries with which we are associated in our war against the Central Powers.

Our surplus wheat has already been shipped to the allies.

U. S. FOOD ADMINISTRATION

SPRING IS COMING

And now is the time to get your tools in shape and, if needed, repair them, for time is money and hours spent in fixing tools when spring work begins is a loss of money, as labor is scarce and, like tools, has gone up in price. Therefore one man must do all he can, for we have a hard battle to fight to win this war. So come in and see your dealer in implements and harness and get things in shape.

BIG CORN CROP IS NOW MOVING

More Than 3,000 Million Bushels Raised in 1917—Gives Big Surplus.

SAVES WORLD FOOD SITUATION

America Beginning Greatest Corn Consumption in History, Using Cereal in Many Delicious Dishes.

Corn, America's greatest cereal crop, is now moving rapidly to market.

More than 3,000 million bushels—30 bushels for every man, woman and child in America—were raised in 1917. It was a mighty crop. The actual increase is about 500 million bushels. And this extra store of grain is coming on to the market in the nick of time, since the American wheat surplus has been sent to help feed famine threatened Europe.

Just as it happened in the Colonial days, the War of the Revolution, and the Civil War, corn has actually become the nation's mainstay.

In the entire list of America's food commodities there is no item that is better than corn. In puddings, bread, corn pone, and as hominy combined with meat or eggs, corn is without a peer. Housewives are fast learning the large number of delicious dishes that may be made with corn and their families are benefiting by an increased use of the cereal. Corn, more than any other cereal, contains all of the elements essential to maintaining life and health.

In order that the fighting men abroad and in the army camps at home may be fed, and in order that actual famine may be kept from the nations associated with America in the war, the citizens of America are finding corn products delicious and palatable on "wheatless days" and glory in the fact that "wheatless days" here mean more wheat for the war worn allied nations in Europe.

England, France and Italy must be fed from America's great storehouse. They will get some corn—especially Italy—but most of their grain shipments must be wheat. Their ability to use corn is small compared to the facilities they have for using wheat. And it is the opinion of officials in Washington that the present is no time to try and change the eating habits of Europe.

America's greatest use of corn will be in the form of corn bread and corn meal, mixed with wheat in the making of leavened bread.

Mixed with 80 per cent. wheat flour, corn meal can be used in bread making, producing a loaf more nutritious than bread baked with wheat alone. It is a fact corn millers will verify that dozens of the large American bakers have been successfully using a corn flour in bread making for several years.

Hominy grits, served at breakfast with a poached egg, or eaten at any other meal with meats or gravy, is another use of corn that will become unusually popular during the war.

Corn syrup to sweeten corn cakes, and corn oil for use in all kinds of cooking, are two more products that are already welcomed in thousands of American homes.

No Time for Worms

It Pays to keep the Shoats thriving these days

NOW is when all your stock needs special attention, because the change from pasture to dry feed is one of the most critical periods of the year. YOU can lose more pounds of summer gain through neglect at feed-changing time than you can get back all winter. KEEP up the good condition—keep up the summer thrift—keep out the worms.
