

Royal Baking Powder saves eggs in baking

In many recipes only half as many eggs are required, in some none at all, if an additional quantity of Royal Baking Powder is used, about a teaspoon, in place of each egg omitted.

Try the following recipes which also conserve white flour as urged by the government.

Corn Meal Griddle Cakes

1 1/2 cups corn meal
1 1/2 cups boiling water
1/2 cup milk
1 tablespoon shortening
1 tablespoon molasses
1/2 cup flour
1 teaspoon salt
4 teaspoons Royal Baking Powder
NO EGGS

Scald corn meal in bowl with boiling water; add milk, melted shortening and molasses; add flour, salt and baking powder which have been sifted together; mix well. Bake on hot greased griddle until brown.
(The Old Method called for 2 eggs)

Eggless, Milkless, Butterless Cake

1 cup brown sugar
1 1/2 cups water
1 cup seeded raisins
2 ounces citron, cut fine
1/2 cup shortening
4 teaspoons Royal Baking Powder

1/2 teaspoon salt
1 teaspoon nutmeg
1 teaspoon cinnamon
1 cup flour
1 cup rye flour

Bell sugar, water, fruit, shortening, salt and spices together in saucepan 3 minutes. When cool, add flour and baking powder which have been sifted together. Mix well; bake in loaf pan in moderate oven about 45 minutes.
(The Old Method [Fruit Cake] called for 2 eggs)

Send for our new booklet "55 Ways to Save Eggs." Mailed free on request.

O. W. Frum of the McMahan & Frum firm took a carload of cattle and hogs to Portland yesterday.

May A. Hale, who succeeds Miss Warmoth as teacher in the city schools, will begin work Monday.

Albany is claiming the champion knitter now, Mrs. C. B. Davis of that city having knit a sock in 3 hours and 5 minutes.

T. J. Dannen, who is reported on another page of this issue of the Enterprise as having retired to his ranch near Shedd, made but a short stay there. He succeeded Fred Taylor as S.P. agent at Marcola Tuesday.

Fred Taylor, who has been agent for the Southern Pacific at Marcola, has been transferred to a place as operator at the Medford station. He and Mrs. Taylor arrived here yesterday for a short visit in the Standish home. Fred went to Albany this morning and will go to Medford tonight.

Over forty ladies showed their interest in Red Cross work by coming Tuesday afternoon to sew on hospital garments. The following shipment was made last week: 18 handkerchiefs, 5 napkins, 152 unhemmed squares, 15 hospital shirts, 1 helmet, 5 pairs wristlets, 17 sweaters, 5 pairs socks, 14 gun wipers.

High School Notes

The juniors entertained the high school and faculty at the home of Mr. and Mrs. F. M. Maxwell last Friday evening in honor of the seniors. The evening was spent in playing numerous games, after which a delicious luncheon was served. After a delightful evening the students returned to their various homes.

Final examinations are over—papers graded—everyone satisfied, with few exceptions.

The engagement of Gussie and Sandy was formally announced to the students of Halsey high last Wednesday. Heartiest congratulations from all.

H. S. Reporter.

About Constipation

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits, especially apples and bananas, also graham bread and whole wheat bread, promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.

BIG HERDS GONE

World War Wastes Europe's Meat Supply.

American Stock Raisers Co-operate With Food Administration in Conservation Measures.

It is probable that Europe for many years after the war will look to a great extent to America for its meat supply.

Europe's herds are dwindling under war's demands faster than they can be replenished.

When the German armies retired from occupied portions of France and Belgium approximately 1,800,000 head of cattle were appropriated. This addition virtually safeguarded Germany from cattle shortage other nations now suffer.

In England some 2,400,000 acres of grass lands have by compulsory measures been forced into grain production, thus reducing pasture and hay lands. A declining scale of maximum meat prices for live cattle was ordained in England, as follows: For September, \$17.76 per hundred pounds; October, \$17.28; November and December, \$16.08; and for January, \$14.40. The evident intent of this measure was to drive the beef animals into market as soon as possible.

According to official French figures, the cattle of France have decreased to a total of 12,341,900 as compared with 14,807,000 in 1913. Today, due to lack of forage principally, France is producing only one gallon of milk where before the war two and one-half gallons were produced.

Meantime the United States food administration has taken steps to conserve our flocks and herds and to increase their numbers. The stock breeders of this country show a disposition to co-operate with the government in this.

For many years it has been a practice among many of the dairy people of this country to kill male calves at birth and in many instances the females if not needed to replenish their herds rather than go to the expense of maturing them into veal. The high prices of meat caused the virtual discontinuance of this killing. Another encouraging fact is 75 per cent. of calves killed for veal this year were males.

Somebody has very aptly said that the wars of the world have been won with grease, meaning that bacon and lard have been as essential to success in war as powder, which is true.

The hogs of Europe have been very greatly sacrificed to present day needs. This makes the American burden all the more heavy and makes doubly essential an increased pork production in this nation. In Italy grain is now forbidden to be fed to hogs. In Denmark under a recent order one-fourth of the hogs were ordered to be killed. It is estimated that one-half have now been killed.

M. E. Church Notes

Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.—Isaiah 55:7

Wanted—Men and women who live in the Highlands of God to work for him in the Lowlands of sin.

The lesson subject in the Sunday school next Sunday is, "Jesus chooses the twelve." The purpose of the lesson is to show that Jesus attracted great multitudes. The saving power of Jesus is just as great today as it was in the days of the apostles.

The primary class will show us how they do things as well as big folks in the opening exercises next Sunday.

The revival meetings are in progress each evening. The attendance on Sunday evening and again Tuesday evening showed a good improvement. If we would take as much interest in religious matters as we do in every day affairs what a different world this would be! We are going on a long journey; the church is a recruiting station where we start from earth to heaven. Come out, brother and sister, it will be lonely without you.

The W. F. M. S. met with Mrs. James Rector last Friday. Mrs. Frank Hadley gave the lesson and a profitable time was enjoyed. The society is planning to give some stereopticon views of the missionary work some Sunday evening soon.
