VARIEGATED VIEWS OF A HALSEY THINKER

Thoughts are the only companions that never desert us. Are you making them a friend or an enemy?

The world is drawing to a straight hand in the greatest game since creation. Will Germany fill in?

The uncomplaining mother-love sacrificed on the altar of freedom is the most tender and Christlike spirit that has ever swept the world. War records show that sixty of our boys should return to share in the praise that will be theirs to one whose life is given in the most honorable death he could die.

Perfection in man, in the persons of world leaders, will never be attained, but those whose wisdom has obtained the sanction of universal faith need not feel uneasy because of the quibbling aspirants to fame and of unproven ability in handling a nation's affairs. "Leave 'em alone and they'll come home, bringing their tails behind 'em."

Don't draw the curtain; let the smiling act be continuous.

The kaiser probably can't help it. In the evolution period he craved the blood-lust kingdom of sea and land and consequently developed a half wolf, half man-eating shark, personality.

The Kerensky of recent event-skies is a kind of sluggish Trotsky, but the threat of the kaiser to move on Petrograd may serve to unite the Russian classes. Threatening a wounded animal's last endearing hope sometimes renews a power of desperation that must be cautiously reckoned with.

To Breed Dorsets

The Enterprise man chanced to see T. F. Hillman drive up the street Tuesday with a crated sheep in his wagon and by making a quick move and asking some questions he learned that the sheep was a registered thoroughbred Dorset ewe just received by express from a breeder at Gresham.

Mr. Hillman is enthusiastic on the subject of Dorset sheep, of which there are comparatively few in this section. He believes they possess many points of superiority over the varieties more common here, and his experiment will doubtless be watched with interest by many of our sheep raisers.

The animal cost somewhat over \$60.

The Council of National Defense, Linn county unit, is calling urgently for men to register as "United States Shipyard Volunteers." Any man who can use a tool is entitled to register. Call on D. Taylor at the Halsey State Bank or D. S. McWilliams at the post office.

Ben F. West, County Assessor for Marion county, Saturday formally announced his candidacy for the republican nomination for State Treasurer. His advent makes six candidates so far in the running.

EUROPE NEEDS FOOD

Food Administration Declares It Is an Absolute Sin to Waste Food—Food Has Become Sacred.

Europe is still sending an insistent call for more food. We must send it if the war is to go on efficiently. If we eat it all we cannot ship it, and the food administration has already tried to picture how much that wheat is needed by people who will starve if they do not get it, the food administration states.

"For the least bit of heedlessness on your part in food conservation some one somewhere in the world must suffer privation," an official statement declares. "The food administration has mastered the problem of America's food in such a way that every ounce of food conserved and kept in the currents of trade goes to an empty stomach in Europe."

"It is an absolute sin to waste food. Food has become sacred."

"Food means life; it means somebody's life, and you cannot escape responsibility."

"There is no waste of food among the allied nations."

WAR BREAD COSTLY TO BRITISH GOVERNMENT

Every year the British government pays \$200,000,000 toward the cost of that nation's war bread. That is the principal reason why English bread prices are lower today to the consumer than in America. Incidentally the British bread is much poorer than the American.

Great Britain has taken over all home grown grain, bought at an arbitrary price, and all imported wheat bought in markets of the world at prevailing prices. This is turned over to the mills by the government at a price that allows the adulterated war bread loaf of four pounds to sell at 18 cents. The two pound loaf costs 9 cents, and the one pound loaf sells for 5 cents.

In milling, however, 14 per cent. more flour is extracted from the wheat than in America. And there is a compulsory adulteration of 20 per cent. and an allowable adulteration of 50 per cent.

Compared with American bread, the British product is only about 65 per cent. pure at its best.

In France, under conditions somewhat similar, but with a larger extraction, the four pound loaf sells for 16 cents.

Mrs. John Clark, who has been spending the winter with her husband who is in the service at San Pedro, Cal., arrived in Halsey Friday evening and was met by her sister, Mrs. Geo. Hayes. Saturday they drove out to their mother's, Mrs. Southern, where Mrs. Clark will remain for some time.

We have been having a touch of winter this week—snow in the hills and a few scattering flakes in the valley—a chill wind and rain.

We hear of a Halsey woman who, with no thought of making a record, has knit two sweaters in three days.

SPRING IS COMING

And now is the time to get your tools in shape and, if needed, repair them, for time is money and hours spent in fixing tools when spring work begins is a loss of money, as labor is scarce and, like tools, has gone up in price. Therefore one man must do all he can, for we have a hard battle to fight to win this war. So come in and see your dealer in implements and harness and get things in shape.

Our Halsey people have thus far invested \$1841.38 in thrift stamps and war savings certificates. \$1219.61 has been taken in the last two weeks. People are taking much interest and showing a loyal spirit in this patriotic work.

This is one of the essential means by which we are going to win the war. The original idea in starting this movement was not to detract from others, but to invest the savings from Hooverizing and short cuts in every day living. Let the boys and girls get out at spare times and earn a few dollars and invest them along with their spare change in thrift stamps and thus form the habit of saving something.

If you have \$1000 not in use buy war saving certificates. If you get hard up give your local office ten days notice and draw out to meet your needs. Call at the postoffice.

E. D. Cusick of Albany is quoted in the Sunday papers as saying in regard to the third Liberty Loan drive, scheduled for April: "Task looks large but our committees are taking hold enthusiastically and we will go over the top." It is a big undertaking for Oregon—the raising of \$50,000,000.

Thrift stamp and war savings certificate sales in Oregon aggregate \$814,960.02. Linn county's total sale is \$19,028.77, leaving \$512,520 yet to sell.

No Time for Worms

It Pays to keep the Shoats thriving these days

NOW is when all your stock needs special attention, because the change from pasture to dry feed is one of the most critical periods of the year. YOU can lose more pounds of summer gain through neglect at feed-changing time than you can get back all winter. KEEP up the good condition—keep up the summer thrift—keep out the worms.
