A Hint to the Aged

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

Catarrh Cannot Be Cured
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Cure is what produces such wonderful results in catarrrhal conditions. Send for testimonials, free.

Food Will Win the War

A LARGE part of the world is coming to the position that Belgium is in; coming to the stage where the primary and important thing in life is enough food to keep alive. Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary.

The cold facts are: France, Italy and England have just enough food to keep them going ten or twelve weeks. When America's food shipments stop—the allied nations begin consuming into this slender store and begin a swift march into actual famine conditions—which would mean defeat in short order.

Europe then must live on America's surplus. Your saving increases our available stocks just that much and actually feeds some person in the countries with which we are associated in our war against the Central Powers.

Our surplus wheat has already been shipped to the allies.

U. S. FOOD ADMINISTRATION

AMERICAN SAVINGS WILL MEASURE WHEAT EXPORTS

"We have already exported the whole of the surplus of the 1917 wheat harvest, over and above the normal demands of our own population. It is necessary, therefore, for the food administration to restrict export of wheat so as to retain in the United States sufficient supplies to carry our own people until the next harvest."

"Therefore all exports of wheat from now forward are limited entirely to volume of saving made by the American people in their consumption of wheat and wheat products."

"We continued wheat shipments for December as far as our situation allowed, but even with all the conservation made we were still unable to load several hundred thousand tons of food-stuffs urgently required by the allied nations during the month of December alone."

HERBERT HOOVER.

The
Auto Wood Saw Attachment

Here it is, Mr. Farmer. Just what you want to fill in those spare times with.

This attachment is a quick, practical and cheap method of transmitting the power generated by the automobile engine to the circular wood saw, without defacing or injuring your car in any way.

It is so simple and easy of attachment that any person strong enough to crank the car can attach it in five minutes or detach it in three minutes.

The Hub Pulley with which we drive the saw and other attachments and farm machinery **FILLS A LONG FELT WANT.**

The farmer who has an auto and one of these pulleys is prepared to run any farm machinery that can be belted to within the range of his auto's power.

Guaranteed to

- Be strong enough to deliver 12 H. P. with a six-inch belt.
- Last as long as the car.
- Not injure the differential or damage the car in any way.

Sent prepaid to any reader of this paper for \$10. Money back if not satisfactory.
