

In Keeping With the Big Thought of the Day

The daily press reflects a sentiment throughout the nation which clearly indicates a new condition.

Men are wanted everywhere. The work of this war is being carried on largely by those who never before have been in public office or public work. Men who have been too busy, too engaged with their own tasks, are leaving their work to others and giving their time and ability to the cause which is ours, yours, everybody's.

It is a time when politics in the ordinary sense must not be considered. It calls for all the ability that can be mustered.

Oregon to be a successful part in this unit plan for the defense of Democracy must likewise place the thought of the times before everything.

In another part of this paper appears the announcement of L. J. Simpson as a candidate for the nomination for Governor on the Republican ticket. Mr. Simpson was urged to become a candidate by his many friends in every part of the state, because of his business record, his understanding and knowledge of Oregon's resources, industries and needs; because of his public-spiritedness, which of recent years has led him to tasks which have been more important to him than his own affairs.

L. J. Simpson is clearly the man who can give Oregon the administration necessary to this plan of National Efficiency.

His campaign will be directed straight to you as voters, as individuals who do your own thinking.

We are firmly convinced that you will not allow politics to influence your decision, and that you will vote for the man who is best fit to help the people of Oregon, develop the state's vast resources, and to prepare for, and participate in, the great reconstruction that is to follow.

We believe you will weigh issues more closely than ever before, and that L. J. Simpson will be your choice.

What You Can Do

First—Talk over his candidacy with your friends.

Second—If you believe that L. J. Simpson is worthy of your support write a letter to this committee.

Suggest how his cause may be advanced. We, in turn, will tell you how you can help.

SUGAR CONTROL SAVED MILLIONS

American Consumer Profited by
\$180,000,000—French Situation Helped.

HOME PRICE HELD AT 9 CENTS.

This Nation's Sugar Supply Reduced to Seventy Per Cent. of Normal. Java Stocks Unavailable.

Sugar control has saved the American public \$180,000,000, Herbert Hoover, United States food administrator, declared the other day.

He pointed out that sugar was selling for 11 cents a pound last August and that it would have advanced to 20 cents a pound, with the world shortage as a stimulus, had not the food administration secured the co-operation of the refiners and wholesalers and fixed a sugar price that today enables housewives to buy sugar at from 8½ to 9 cents a pound.

"Every 1 cent raise in sugar from September 1 to January 1 means \$18,000,000 to the American consumer," Mr. Hoover said. "Numbers of gentlemen will tell you that 20 cent sugar would have prevailed and the public robbed of \$180,000,000 this year if we had not taken these actions." Later Mr. Hoover called attention to the fact that uncontrolled sugar advanced to 25 cents a pound during the Civil War.

France Got Our Sugar.

Today the American public has been allotted 70 per cent. of its normal supply. Before the war the average annual household consumption here was 55 pounds a person. In England the annual consumption during the war is 24 pounds, and in France each person is allotted a little over one pound a month.

"In August the French government found itself unable to maintain even this ration," Mr. Hoover declared. "An appeal was made to America. France needed 100,000 tons. We agreed to fill this demand and up to December had shipped 85,426 tons. In the meantime an appeal was made to the American public to reduce its sugar consumption, and requests were made to distributors to supply the confectionary and sweet drinks trade with 50 per cent. of normal supply. This has been generally followed, although such regulations were voluntary, as the food administration had no authority to impose them."

Domestic Price is 8½ to 9 Cents.

Retail grocers throughout the country are supposed to take a profit of no more than 50 cents a hundred—half a cent a pound—on sugar. By reason of food administration regulations, binding refiners and wholesalers, the retailer is able today to buy sugar at from 8 to 8½ cents a pound. This enables him to sell to the housewife at 8½ to 9 cents a pound.

There have been some violations of the sugar rulings. Mr. Hoover said recently: "Sales of sugar from 16 to 20 cents per pound have been reported and followed up vigorously and stopped and is evidence itself of the prices at which consumers would have been misled had we not intervened. We have forfeited wholesalers' licenses in aggravated cases, and we have issued warnings to first offenders in a great many instances through our local administrators."

Effect on Military Situation.

American sugar stocks could be filled to normal very soon if ships could be sent to Java, where 250,000 tons of sugar is waiting for shipment. But the shipping situation is so acute that the nation cannot spare the eleven ships needed to transport this sugar. It would take the boats one year to haul 250,000 tons. In the same time they could be used for transporting 200,000 soldiers to France.

The food administration believes that the American public will diminish its sugar consumption by 10 or 15 per cent. when it is made clear that such sugar saving is a patriotic act and when it is understood that there are plenty of sweeteners available to take the place of sugar, such as honey or corn syrup.

A Hint to the Aged

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

SPRING IS COMING

And now is the time to get your tools in shape and, if needed, repair them, for time is money and hours spent in fixing tools when spring work begins is a loss of money, as labor is scarce and, like tools, has gone up in price. Therefore one man must do all he can, for we have a hard battle to fight to win this war. So come in and see your dealer in implements and harness and get things in shape.

The New 'Webster'

(Anyone interested in this book may get full description, terms, etc., by addressing The Taylor Book Co., 4039-43 Arcade Building, Seattle, Wash.)

Carter Helm Jones, pastor of the First Baptist Church of Seattle, the largest Baptist church in the northwest, says:

I cannot too strongly commend Webster's New International Dictionary with Reference History. It is a literary monument of learning, information and accuracy.

In these busy changing times, when new words are constantly knocking at the door of our vocabulary for admittance, and old words are dropping out of sight or changing their meaning, a good dictionary is indispensable in every home.

The "handy" dictionary has its place for people of limited vocabulary and those who have never learned how to spell, but it fails just at point when need is greatest. Every home and every office should have a large, modern dictionary, and there is none better than Webster's New International.
