

Sand---Grit---Thrift

Good plain sand grit is a valuable commodity. It is good for cleaning purposes. Without it mortar is worthless and furniture manufacturers could not surface their products. Without grit hens are apt to suffer from indigestion. Ever watch a big locomotive use sand-grit as a starting ingredient on slippery rails? Ever notice how with grit on the rails the slipping wheels "bite" and grind and the train moves FORWARD? There we have it; grit is useful as a help to MOTIVE POWER.

Even the human machine must possess "grit" worked away back into the innermost recesses of our craniums if big or even little things are to be "put across." GRIT, PATRIOTISM AND THRIFT STAMPS make an excellent mixture. In fact it is an article very much needed right now to put the Kaiser on the blink.

Our public schools are preparing for real business and are causing some of the older heads to sit up and take notice. Last week our Halsey school on Thrift Stamp Day handed out to the pupils 23 stamps on the first kick-off. This week they hit it up to 37. One girl took a whole card full. One country school put out 25 this week, and the teacher has notified Uncle Samuel that she will take \$5 of his green paper every month. Some of the youngsters are skirmishing around looking for errands and odd jobs to buy a Thrift Stamp each week. Somehow when they stick on one stamp they want to stick on another. They like the color of them—looks very much like bank notes.

What is to be the largest check for charity ever sent from the northwest was one for \$70,000, mailed February 20th to the American Committee for Armenian and Syrian Relief from Portland, by the Oregon branch, of which J. J. Handsaker is secretary and Ben Selling is treasurer. This check is a part of the quota of \$150,000 asked from Oregon for relief of over 2,000,000 sufferers in Asia Minor. County campaigns are being launched all over the state in an effort to raise or pass this quota.
