The Red Cross Drive

Halsey this morning still lacked about \$120 of her quota in the Second Red Cross War Fund drive. It is believed that the subscription will be completed before night.

A meeting at the M. E. church last night, presided over by the chairman of the local committee, H. C. Davis, and addressed by a number of patriotic citizens, was well attended and helped materially in boosting the total subscription towards the desired figure.

It is estimated that Linn county is well over 80 percent. Tangent, Lebanon, Scio and Mill City are over the top.

Reports this morning as to the state show that \$531,841 has been subscribed. The quota is \$600,000.

Get Rid of Your Rheumatism
Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment a great help. The relief which it affords is alone worth many times its cost.

NOTICE

We have received the following from the United States Food Administration Grain Corporation:

"The privilege issued to licensees to retain wheat and rye in interior elevators and warehouses for seed distribution terminates on May 15. We hope that every bushel of wheat in farmers' hands will be delivered to their country stations by that time. Every effort is being made to expedite the movement of wheat to the mills so that it can be ground into flour and shipped to our soldiers and Allies abroad to relieve the acute shortage which now exists.

"Will you please notify all farmers tributary to your station who may have small lots of wheat on hand urging them to bring it in immediately? Also please notify us of the name and postoffice address of any person holding wheat who is not inclined to haul it in."
