## COAL CONSUMERS MUST BUY WINTER SUPPLY NOW

Consumers must buy their winter supply of coal during the Spring and Summer for storage if production is to be maintained at a maximum and the country enabled to avoid a serious coal shortage this winter.

Anyway it must be admitted that Mr. Jefferson Baldwin is a success as an escaper.

Halsey continues to sustain its record as one of the leading shipping points for live stock and farm produce on the Southern Pacific system.

Strawberries are slow in coming to this market. There is a suspicion that wheat flour is not the only thing the shortcake will be short of.

With a class of 187 graduates at the Oregon Agricultural College only 99 are left. The remaining 88 are absent, most of them on military service.

To show what proficiency has been attained by army men in training the horse and mule, to promote interest among the men in their animals, to raise money for an overseas athletic fund and at the same time wipe out the indebtedness of the Camp Lewis Athletic fund, the remnant of the 91st division will stage a great and very spectacular Military Horse Show on Sunday afternoon, June 16, in the big arena at Camp Lewis.

By proclamation of the President of the United States, German alien females will be required to register in accordance with the general rules and regulations prescribed by the Attorney General of the United States. The time set for the registration is from 6 a. m. Monday, June 17, 1918, continuing on each day successively thereafter, except Sunday, June 23, 1918, between the hours of 6 a. m. and 8 p. m., up to and including Wednesday, June 26, 1918, at 8 p. m.

### Cholera Morbus

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

## To the Citizens of Linn Co.

The committee of the Second Red Cross War Fund campaign wishes to express their hearty thanks for the splendid manner in which loyal people responded in their liberal giving of money and time. All except one, when requested to give their time, not only were willing but were eager to do their part. There was but one slacker, a money-mad creature, his excuse "too busy."

Our work has been easy with the earnest assistance of the loyal American workers and givers. Such evidence of loyalty from them is a splendid tribute to the boys that are defending our liberty, our homes and firesides.

Chas. H. Burggraf,  
County Manager.

(In sending a copy of the above to Chairman H. C. Davis of Halsey, Manager Burggraf writes: "Linn county is 130 percent Red Cross. I want to congratulate you on your excellent organization and results.")

### Home Guard Notes

The Halsey Home Guards met for their regular drill last Monday evening. The number absent was very small. Those present report it the best drill yet held. Instruction was given in platoon formation and other forms. As the weather was ideal drill was held in the open. Corporal James Drinkard was advanced to the rank of sergeant and the other corporals were advanced accordingly. New corporals were appointed as follows: Will Kirk, George Hayes, L. E. Walton and Fred Robins. The guard is quite confident of obtaining equipment very shortly. A delegation will meet at the post office at 12:30 Friday for the purpose of going to Albany in the interest of the above. Officers' school next Thursday evening, June 13. Regular drill Monday night, 8:30. All bring guns.

### High School Notes

High school election day was May 24th. Following are the officers elected: President, Lela Bond; vice president, Bertha Pyburn; secretary, Grace Nelson; treasurer, Frank Manrose; reporter, Cloona Smith; sergeant at arms, Theodore Mitzner. The officers were installed Wednesday.

Everyone had a fine time on the annual school picnic last Friday. The first and second grades came to the school house, the third and fourth grades were entertained at Miss Hartzog's home, the fifth and sixth grade went to Powell's grove, the seventh and eighth grades went to the Willamette river on a wagon. The high school spent the day at Lake Ogle.

The ice cream social was a great success. The proceeds were \$44.05.

A Red Cross convention will be held at Albany next Tuesday, beginning at 10:30 and continuing throughout the day. At 3 o'clock an address will be given on food conservation. It is urged that all who can possibly do so will attend.

Mr. and Mrs. Hugh Leeper expect to go to Mapleton Saturday for a visit in the home of their son Alvia.

Graduation exercises of the Halsey high school took place at the M. E. church last night in accordance with the program published last week. The exercises were thoroughly enjoyed by a large audience.

### Sour Stomach

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

## ALLIES DEMAND MORE CEREALS

American Meat Restrictions Relaxed to Effect Greater Wheat Savings.

### ARGENTINE ARRIVALS SHORT.

Meat Supply Here Considerably Enlarged — Food Administration, However, Warns Against Waste.

The allies have made further and increased demands for breadstuffs, these enlarged demands being caused to some degree by shortage in arrivals from the Argentine. It is, therefore, necessary for the U. S. Food Administration to urge a still further reduction in the consumption of bread and breadstuffs generally if we are to meet our export necessities. The Food Administration has issued a statement explaining the situation in detail, particularly the reasons which lead it, for the purpose of centering effort for the time being upon the cereal situation to relax temporarily the restrictions on meat consumption.

Experience shows, this statement says, that the consumption of breadstuffs is intimately associated with the consumption of meat. For various reasons our supplies of meat for the next two or three months are considerably enlarged, and we can supply the allies with all of the meat products which transportation facilities render possible and at the same time somewhat increase our own consumption. In these circumstances the Food Administration considers it wise to relax the voluntary restrictions on meat consumption to some extent with a view to further decreasing bread consumption.

Conservation of food must be adjusted to meet necessities from time to time, for neither production, nor allied demands are constant factors, nor can any of these factors be anticipated for long periods in advance in the disturbed conditions in which we at present live. While the world situation is not one that warrants any relaxation in the efforts to eliminate waste or to relax economy in food, the Administration desires to secure better adjustment in food balances.

So long as the present conditions continue the only special restrictions we ask are the beefless and porkless Tuesdays.

The meatless meal and the porkless Saturday are no longer asked.

The farmers of the United States are responding to the national call to increase hog production. Their increase, to all appearances, is being attained more rapidly. Of more immediate importance, however, are several complex factors which have effected an immediate increase in meat supplies.

The transportation shortage before the government took over the railroads, the bad weather in January and early in February, the large percentage of immature corn in the last harvest and the necessity of feeding this corn as rapidly as possible to save it from decay, have not only resulted in backing up the animals—particularly hogs—on the farms for a longer period of feeding, but have resulted in a great increase in their average weight and will result, with improved transportation conditions, which already appear, in larger than normal arrivals at market for the next two or three months. The weight of hogs coming to the market for the past two weeks indicates an increase in weight of from an average of 203 pounds last year to the almost unprecedented average of 222 pounds, or a net increase in their meat value of over 15 per cent. This is a distinct addition to the nation's meat supply. It therefore now seems certain that we have such enlarged supplies for at least some months to come, that we can not only increase our exports to the allies to the full extent of their transportation facilities, but at the same time can properly increase our domestic consumption.

The response of the public to our requests for reduced consumption of meat during the past few months has been most gratifying, and this service alone has enabled the government during this period to provide such supplies as transportation to the allies permitted.

The Administration also suggests that in those parts of the country where the old fashioned home preservation of pork is still the custom, this practice should be extended at the present time, as it will relieve the burden upon transportation to and from the packing houses and is economically sound as saving the cost of packing operations and at the same time will provide home supplies of pork to last over the months of decreased supplies.

The Food Administration desires to repeat that it does not want to give the impression that these are times when simplicity and moderation of living are not critically necessary, but that its sole desire is to secure an adjustment between our different food supplies and meet changing conditions from time to time and to keep the public fully and frankly advised of its position with the full confidence and reliance that whenever it becomes necessary renewed appeals for saving will meet the same loyal response as in the past.
