Cholera Morbus

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

One more mention of Mr. J. Baldwin, the eminent escaper: He is still escaped.

SOME REASONS WHY WHEAT MUST BE SAVED

"A Man Cannot Think, Work or Fight When He Is Hungry"—We Must Feed Our Soldiers.

"We have the preservation of the world on our hands. Every single living human being in this republic, from ocean to ocean, should make it his or her special purpose to save food."

These are the words of E. F. Cullen, personal representative of Herbert C. Hoover, in a recent address.

"Men will resist any power but the power of starvation," said Mr. Cullen. "Hunger in the final analysis, is the only force that can weaken a nation and demoralize an army. Food is strength, and without a perpetual supply of strength, the world can stand in danger of tottering, weakening and falling into utter chaos. A man cannot think, work or fight if he is hungry."

"The allies today are practically wholly dependent upon the United States for food. Upon this nation rests the responsibility of preserving the world from Prussianism. This is the task of the people of this nation—to produce and save food enough to keep a steady stream of essential supplies moving towards the front so long as it shall be necessary to wage this war. If at any time we fail in this, we must inevitably go down, with the allies, to defeat. This is no exaggeration, but a serious fact. It is the purpose of the United States Food Administration to bring the realization of this fact home to every American man, woman and child, and to enlist the individual aid of our hundred million people in producing and saving food. The Food Administration is not asking you to eat less; it only urges that you substitute one nutritious food for another equally nutritious food, thus saving the vital staples needed by our armies and the armies and peoples of the allies. We must, during the next three months, save wheat especially. Our surplus has already been shipped abroad, and a hundred million bushels more are needed. When you eat a slice of bread less, omit the crackers with your soup, or otherwise conserve on wheat products, you are contributing towards the hundred million bushels needed over there by our fighting men and the exhausted people of Belgium, France and England who have for more than three years been bearing the brunt of this war, which is our war. Keep this in mind, and bring it before the minds of your thoughtless friends and neighbors."

Obituary

Miss Emma Lorrenna Frum was born near Plainview, Oregon, March 13, 1882, where she lived until nearly two years ago, when she with her mother and sister Vernetta moved to Albany. She died June 8, 1918, at the home of her sister, Mrs. Mattie Thompson, in Albany. She had been a constant sufferer for the last two years, but always bore her suffering patiently and uncomplainingly. Besides a kind and loving mother she leaves the following brothers and sisters: George, Oren and Walter Frum of Halsey, Ray of Brownsville, Mrs. Lydia O. Tucker of St. Helens, Or., Mrs. Ella Cushman of Silverton, Mrs. Mattie Thompson and Miss Vernetta Frum of Albany. Funeral services were conducted by Rev. Schuster Sunday afternoon, June 9, at 2 o'clock in the Evangelical church, interment being in the family plot at Sand Ridge cemetery, followed by a large circle of relatives and friends.

We were especially glad to have Clarence Soderstrom with us at the Sunday morning services. His company at Ft. Stevens will be the next to leave for France. Harold Russ, now one of the Oregon military police, was with us, also Victoria Soderstrom.

Mrs. Cummings Loyal

The people of this, the home town of Mrs. Ida M. Cummings, superintendent of Linn county schools, who is charged by Milton A. Miller with having made unpatriotic and disloyal utterances, are not disposed to question Mrs. Cummings' loyalty to the flag, nor do they feel that the charges made against her were warranted by the facts in the case. That she should have said things which could be construed as unpatriotic is unfortunate, but when she declares her innocence of any intentional disloyal or unpatriotic utterances those who know her best believe her.

War Savings Stamp Drive

The president by special proclamation will call all the people together in each school district on June 28 to pledge the \$2,000,000,000 in the little government bonds. This pledge which every one is expected to make will mean thrift, economy and self denial. The governors of the states and the mayors of the cities will make proclamations concerning this important event. Never before in our country's history has a president felt the necessity of calling the people in each school district to assemble.

President Wilson has said: "The supremest test of the nation has come. We must all speak, act and serve together."

Every state and county has its allotment. Linn county's unsubscribed quota is \$360,000. Halsey sub-division, comprising nine school districts, is \$32,000 in maturity value War Stamps—Baby Bonds. You purchase a certificate this month for \$83.40 and you are credited with \$100. Each district and every citizen will be rated.

The success of this drive will mean heroic courage and the undivided and self-sacrificing support of every individual, with the thought in mind that we are going to win the war for the freedom of the race.

We don't reckon many Halsey folks will take in the great military horse show at Camp Lewis next Sunday, but a good many of us would like to do so. We are assured that it will be one of the finest shows of the kind ever held in America. A copy of the complete and official program is on file at this office.

Some of the boys who recently took a trip into the mountains a few miles east of here bring back a story of a family which hasn't seen a newspaper in two months. Which reminds us again of the old saying that it takes all kinds of people to make a world—even in war times.
