P. A. Young, chairman for Linn county, says: Buy your War Savings Stamps promptly to fulfill your pledges. Over 32,000,000 people in the United States have made war savings pledges. Help the department to handle these pledges by being on time with your own. Whether bought at the place designated on the pledge or elsewhere, the possession of the stamps is final evidence of their purchase.

James Rector left a cage containing five canary birds on the porch at his house Sunday while he made a trip down the street. During his absence a neighborhood cat got busy and pounced on the cage, the bottom of which fell liberating the birds. Mr. Rector hung the cage on the porch, its door open, and Monday one of the birds returned and hopped in. Another alighted on the tub when Mrs. Miller in North Halsey was doing her washing and she captured it. But at this writing the remaining three are still missing.

Chronic Constipation

It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.

Eye endurance is a virtue until use becomes abuse. If you ignore the innumerable eye warnings which nature so kindly vouchsafes you will inevitably pay the penalty.

ENEMY AGENT BLAMED FOR POOR WHEAT CROP

Salem, O.—Enemy agents are blamed for an insect pest which has reduced Butler township's bumper wheat crop to much less than normal. The ravages of the insect have been tremendous. Last winter the farmers now remember an aged man of German extraction was observed wandering about the township visiting wheat fields to the exclusion of others, and apparently digging in them with his hands, as if burying something in the soil.

OWN GUNS SLAY FOE

Yankees Take Weapons and Turn Them on Hun.

Run Out of Ammunition and Make Night Raid on Trenches for More.

With the American Army in France, "Turning 'Heinie's' own machine guns back on him is the newest and favorite stunt in a certain American outfit.

The boys just stumbled onto this sport, and they like it.

Recently in raids the boys brought back some German machine guns, after driving the Germans away from their own strongholds.

"Why not use these German guns on the Heinies?" one thinking dough-boy asked his pals.

"You're crazy; we haven't any ammunition that'll fit them."

"Why can't we go over and get some?" replied the thinker.

"Never thought of that," replied the others; "we're on."

That night they raided the German trenches and brought back plenty of ammunition and another German machine gun. Next day the guns were playing on the "Heinies."

"They're darned good machine guns," said one chap enthusiastically, "but the Heinies don't know how to use them. We do, though. We're getting a little low on ammunition. Guess we'll have to run over to Germany tonight and make 'em hand out some more."
