Hardly an Ideal Citizen.
There is a story told of an ancient dandy in London who, taking, one sunny afternoon, his accustomed stroll down Bond street, met an acquaintance hurrying in the direction of Westminster. "Whither away so fast this hot day?" murmured the dandy. "To the house of commons," cried his strenuous friend, brushing past him. "What?" said the dandy, with a yawn, "does that go on still?"—Exchange.

Gun Barrels.
A rather interesting side light on the question of gun barrel life is a determination of the actual length of time to which a good shotgun barrel is subjected to the force and burning effect of the powder charge during its lifetime. If 100,000 shots are fired from a shotgun the inside of the barrel is actually exposed to the flame of the powder charge for about four minutes.

Deservedly Valuable Pen.
One of the best-known pens in the United States is owned by Isaac B. Reed of New York, who at one time refused to sell it for \$750. Its value arises from the fact that, aside from having been used by both Lincoln and Grant, it was made from a carved box in which young George Washington kept parts of his surveying instruments. The box itself was made from the lid of a desk that belonged to the captain of the Mayflower.

Joy of Motoring.
No feeling in the world is equal to the thrill of real motoring. The joy of the long tour, through strange and out-of-the-way places is never ending. Odd scenes and quaint people are everywhere. Get out on the road, off the boulevard and see how the other people live.

Mending Knives and Forks
To mend a knife or steel fork which has come out of the handle, fill the hole with finely powdered resin and hold the rough end of the knife or fork in the fire until it becomes hot. Insert it in the powdered resin and hold it straight until firmly fixed.

COST OF PRODUCING APPLES
Problems of Fruit Growers Made Subject of Study by Department of Agriculture.
(Prepared by the United States Department of Agriculture.)
To determine the annual cost of apple production per box and to gather such information as to different methods of orchard management practiced by the growers of the Yakima valley, Washington, as might have a bearing upon cost of production, specialists of the United States department of agriculture in the summer of 1915 conducted a detailed study of 120 representative orchards in that section. Their findings have been published in Department Bulletin No. 614, which is the fourth of a series of bulletins on the cost of apple production in four of the leading fruit-growing valleys of the Northwest.
The Yakima valley is a specialized apple-growing section in the south central part of Washington. It has a

TAKE SALTS TO FLUSH KIDNEYS
Eat less meat if you feel Back-ache or have Bladder trouble.
Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.
To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

Packing Apples in Yakima Valley.
larger acreage of fruit than any other county in the state, in 1914 there being 47,829 acres in fruits, of which 41,955, or 85 per cent, were in apples. In 1916 7,000 carloads of apples were shipped from this valley.
There are two systems of orchard management practiced in this section, the clean cultivation method and the mulch system. Of the orchards studied, 75 were under the clean-cultivation system and 45 under the mulch-crop system. It was found that the annual cost per box for the clean-culture orchards was slightly over 80 cents, while under the other system the cost was slightly over 70 cents. However, the orchards that were cultivated yielded on an average 54 boxes per acre more.
When the total of all costs of the 120 orchards studied was considered, there was found to be an annual acre cost of \$345.68, or a fraction of over 80 cents per box. This is figured on the average annual yield of 432 boxes per acre. The two groups of costs which go to make up this total are the labor cost, which amounted to 35 cents per box, and the material and fixed costs, which amounted to a little over 45 cents per box. The labor cost up to the time of harvest amounted to a little over 14 cents per box, or 41.08 per cent of the total net labor cost. Spraying is an annual practice, the coding moth probably being the worst enemy. On an average, four sprayings were made per year and the average cost per acre amounted to \$25.14, less than 6 cents per box, 7.27 per cent of the cost of production.
First Thrift Day.
The first "thrift day" in America was August 11, 1915. That was the first time one special day was ever officially set aside for the purpose of encouraging attention to thrift. The day was celebrated in California as "thrift day" in response to a proclamation of Governor Johnson. The occasion marked the opening of the thrift congress, held at the Panama-Pacific exposition by the American Society for Thrift.—Thrift Magazine.

Indian Tailor Bird.
A very curious nest is made by the tailor bird of India, a tiny yellow creature. To escape snakes and monkeys this bird takes a dead leaf, flies up into a tree, and with a fiber for a thread and its bill for a needle sews the leaf to a green one hanging from the tree. The sides are sewn up, an opening for the nest thus formed being left at the top. The leaf, apparently hanging from a twig, would never be taken for a nest.

It Doesn't Foller.
"Jest because a man has a fertile brain is no indication that he can raise a lot of hair."

Daily Thought.
Time is generally the best doctor.—Ovid.

THE MAKING OF A FAMOUS MEDICINE
How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.
A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills.
Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.
The most successful solvents are used to extract the medicinal properties from these herbs.
Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.
It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.
The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

Hurrah! How's This
Cincinnati authority says corns dry up and lift out with fingers.

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.
He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of America's women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.
