Influenza

How to get it. How to spread it. How to keep it and how to let it get you.

Follow these directions carefully and sleep beneath the daisies.

Be mixer, get into every crowd. Be democratic, drink out of every public drinking cup.

Stay in the shade, sunshine is nerve racking to an influenza germ.

Wait for a crowded street car, don't walk, the germs may get dizzy and fall off.

Sleep in an air-tight room.

If you have to wash, use a well seasoned towel.

Cough and sneeze like a blowing stacker on a threshing outfit. An efficient germ spreader can cover 20 feet around with one Sneeze.

Be confidential, get up to every moist, juicy breath that you can find.

Gorge yourself on food, stay up late at night. Germs like food and a run down system.

Call a doctor but don't mind him because he will charge for saving your life and your life is not worth a-hem if you follow these rules.

Do you have the headache sometimes? Try the Skinner-Duprey Celery headache powders. Try them once and you will buy again. For sale by L E Walton.
