### Our Sermonette

The weapons of our warfare are not carnal, but mighty thru God to the pulling down of the strongholds; casting down imaginations, and every high things that exalteth, and bringing into captivity every thought to the

obedience of Christ. 2 Cor 10: 4, 5.

Let us remember that the first condition of acceptance with God is loyal obedience to his word, the evidence of love for him and faith in him.

Let us remember, also, that the second qualification he will look for in us is love for the brethren, readiness to be, to do and to suffer, to die on behalf of those who are really, truly consecrated children of God, seeking to walk in his way.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo Ohio. Sold by all Druggists, 75c.

### Coddling Moth Spray Due Soon.

Spray for the second generation of coddling moths will be due in the Willamette valley generally, August 5 to 15, says A. L. Lovett, entomologist of the O. A. C. Experiment station.

"The brood will be scattered and undoubtedly some moths will be active prior to these dates," says Prof. Lovett. However, applications made will afford maximum protection from the main brood of worms."

### Prizes Offered for Community Exhibits.

Having set aside \$200 as cash prizes for community exhibits, open to competition to all community organizations and granges, the Linn county fair association is urging all such bodies to select the various exhibits which will constitute their offerings without delay.

These exhibits will consist of grains, grasses, fruits, vegetables and every kind of produce grown upon the farm, according to a statement made by A. C. Schmitt, secretary of the fair association.

### Fair Notes

F. W. Miller and Alfred C. Schmitt, representing the County Fair Association, were here Monday selling shares. Halsey's quota is 1500. Mr. Miller is hopeful of raising the amount. He reported that Harrisburg had raised \$200 more than its quota. The date of the fair set for Oct 5, 6, 7, and 8 and on the 9th there will be a pure bred stock sale. The Board has secured the Northwestern Fair Association to stage the first three day's races and the fourth day the races will be devoted to any of the Linn county men who have horses to race against other horses.

### Shedd

Mrs. Will Dunlap's S. S. class entertained Mrs. Kate Croft's class at McBride's grove last Wednesday.

Mrs. F. S. Clemons and daughter Evelyn were guests at the Harvey Pugh home last week.

C. C. Dickson was an Albany shopper last Friday.

Mrs. Geo. Maxwell was a Halsey caller Saturday.

Mr. and Mrs. Ernest Abraham were business callers in Albany Saturday.

R. S. Acheson, republican candidate for representative, spent Saturday in Albany transacting business.

Mrs. B. M. Bond and Mona Bond were initiated in the Eastern Star lodge here Wednesday eve-

ning of last week.

The typographical error last week made us say Rev. Reid had accepted the charge of the M. E. Church. We should have said the U. P. Church.

W. Reynolds, who recently bought property in Albany, was an Albany caller Wednesday.

Carl Hill was a week end visitor in Newport.

### Most Valuable of Coral.

In consideration of their slow growth, coral reefs are fished once only in ten years, the fishing boats engaged in this extremely lucrative business varying in size from three to fourteen tons, says an exchange. The most valuable fisheries are among the coral reefs of Tunisia, Algeria, and Morocco, the raw material going chiefly to Italy. The red coral of the Mediterranean and the Red Sea is exported in large quantities to India for the manufacture of ornaments and articles of personal adornment. The black coral of the Persian Gulf and Great Barrier Reef is still more highly prized.

### Building on Ice.

How many large buildings may be constructed on a foundation of ice is thus explained by an engineer who has had a happy idea for making hollow concrete blocks. Hitherto it has been difficult to make large cavities in concrete, but it can be done, the engineer points out, by embedding blocks of ice corresponding to the cavity required in the mass of concrete and introducing small outlets for the escape of the water after melting. This method also makes unnecessary the constant moistening usual in concrete work, as it is automatically supplied by the melting ice.

### Ell Terry's Clocks Lasted.

The first American clockmaker was Ell Terry. "If you had been upon a dusty country road in Connecticut about the year 1800 you might have seen a plainly dressed young man come riding with a clock strapped to each side of his saddle and a third fastened crosswise behind him." That was the way Ell Terry sold his clocks, and some of the original clocks are still running in the very farmhouses where they have ticked off the minutes of American history since the days of Adams and Jefferson.

### Dear Industry.

With the retirement from business of George Messmann the business of whalebone cutting in this country terminated, remarks the New York Times. At one time this was a thriving and important industry, but of late years, what with changing fashions, the introduction of substitutes for "bone" and the frank use of metal in its place as distinguished from the substitution of some similar appearing substance, the whalebone trade has fallen upon evil times. Also the catch has grown constantly smaller and smaller.

## "PLAY BALL!" They can do it the year around in the Philippines.

Here's indisputable evidence that the Filipino people have been Americanized! The great American game of baseball is the rage in the islands. This photograph shows a parade which preceded one of the big games in Manila. Baseball is played from one end of the archipelago to the other, and, as in other branches of athletic sports, some classy players have been developed.

### When the Curtain Went Up.

While visiting some friends at a resort, I met and became quite attached to a young man. One night he was sitting with his arm around me on a large porch. There was a window behind us, but as the shade was down we thought no one would see us. We were talking of our future, of how happy we would be, when suddenly we heard a lot of children yelling, "Movies, five cents a look." We turned quickly and saw the shade up, and a crowd of people watching us. Fortunately it was dark on the porch because I don't think they saw how embarrassed we were.—Exchange.

### Her Way.

I was teaching school and as I had the primary room on the lower floor was considerably annoyed by the boisterous way in which the high school pupils came downstairs. The teachers held a consultation and I was

appointed to appear to the principal concerning the matter. As a result, I stopped him one day on the landing. Just when I had finished my speech I lost my balance and went rolling down the steps. When I arose the principal smilingly said, "Is that the style, you desire the students to use?"—Chicago Tribune.

### Monotonous Menu.

De Quincey for the last thirty years of his life invariably dined on some 'old mutton, boiled rice and coffee. The Manchester Guardian says that every day he interviewed the cook and told her to prepare these dishes, adding: "If you do not remember to cut the mutton in a diagonal rather than a longitudinal form consequences incalculably distressing to my system will arise and will prevent me from attending to matters of overwhelming importance."

### Another Royal Suggestion

## PIES and PASTRIES

From the NEW ROYAL COOK BOOK

**CHEER UP!** There is no further reason for worrying about table variety. The new Royal Cook Book gives new suggestions for every meal every day. The book is so full of surprises there will never be another dull meal in the home. Here are a few suggestions from the new Royal Cook Book.

### Plain Pastry

This recipe is for one large pie with top and bottom crust

2 cups flour  
1/2 teaspoon salt  
2 teaspoons Royal Baking Powder  
1/2 cup shortening  
cold water

Sift together flour, salt and baking powder; add shortening and rub in very lightly with tips of fingers (the less it is handled the better the paste will be). Add cold water very slowly, enough to hold dough together (do not work or knead dough). Divide in halves; roll out one part thin on floured board and use for bottom crust. After pie is filled roll out other part for top.

### Rich Pastry

2 cups pastry flour  
1/2 teaspoon Royal Baking Powder  
1/2 teaspoon salt  
1/2 cup shortening  
cold water

Sift flour, baking powder and salt; add one-half shortening

and rub in lightly with fingers; add water slowly until of right consistency to roll out. Divide in halves; roll out one half thin; put on in small pieces half remaining shortening; fold upper and lower edges in to center; fold sides in to center, fold sides to center again; roll out thin and put on pie plate. Repeat with other half for top crust.

### Apple Pie

1 1/2 cups flour  
1 1/2 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
2 tablespoons shortening  
4 apples, or 1 quart sliced apples  
2 tablespoons sugar  
1 teaspoon milk

Sift flour, baking powder and salt; add shortening and rub in very lightly; add just enough cold water to hold dough together. Roll half out on floured board, line bottom of pie plate; fill in apples, which have been washed, pared and cut into thin slices; sprinkle with sugar; flavor with cinnamon or nutmeg; wet edges of crust with cold water; roll out remainder of pastry; cover pie, pressing edges tightly together and bake in moderate oven 30 minutes.
