THE UNIVERSITY OF OREGON

—is maintained by the state in order that the young people of Oregon may receive, without cost, the benefits of a liberal education.

The University includes the College of Literature, Science and the Arts, the Graduate School, the School of Physical Education, and the professional Schools of Law, Medicine (at Portland), Architecture, Commerce, Journalism, Education and Music.

High standards of scholarship are made possible by an able faculty, well equipped laboratories and a library of nearly 100,000 volumes.

Supervised athletics are encouraged and every attention given the health and welfare of the students.

With a heightened confidence gained by the recent expression of public support, the University is now entering upon an era of large development and extended usefulness.

More of Governor Cox' Speech of Acceptance

They demonstrated not only willingness, but capacity. They helped win the war, and they are entitled to the privilege of voting as a matter of right and because they will be helpful in maintaining wholesome and patriotic policy. It requires but one more state to ratify the national amendment and thus bring a long-delayed justice. I have the same earnest hope as our platform expresses that some one of the remaining states will promptly take favorable action.

Education.

"There must be an awakened interest in education. The assumption that things are all right is an error. The plain fact reveals two startling things, one, a growing decimation in the ranks of teachers and the other, the existence of five and one-half millions illiterates. The army of instructors has been more or less demoralized through financial temptation from other activities which pay much better. We owe too much to the next generation to be remiss in this matter.

Campaign Contributions.

"There will be no attempt in this campaign to compete by dollars with our opposition. So many people have been in the money gathering business for the reactionary cause that the millions already in hand are more or less a matter of general information. All that we ask is that both parties deal in the utmost good faith with the electorate and tell the plain truth as to the amounts received, the contributors, and the items of disbursements.

"The sort of readjustment which will appeal to our self-respect and ultimately to our general prosperity, is the honest readjustment. Any unfair adjustment simply delays the ultimate process and we should remember the lesson of history that one extreme usually leads to another. We desire industrial peace. We want our people to have an abiding confidence in government, but no readjustment made under reactionary auspices will carry with it the confidence of the country.

"The inconveniences incident to the war have been disquieting; the failure of the Republican Congress to repeal annoying taxes has added to our troubles. The natural impulse is to forget the past, to develop new interests, to create a refreshed and refreshing atmosphere in life. We want to forget war and be free from the troubling thought of its possibility in the future. We want a change from the old world of yesterday where international interests were power upon the chess-board of war. We want a change from the old industrial world where the man who toiled was assured 'a full dinner pail' as his only lot and portion. But how are we to make the change? Which way shall we go? We stand at the forks of the road and must choose which to follow. One leads to a higher citizenship, a freer expression of the individual and a fuller life for all. The other leads to reaction, the rule of the few over the many and the restriction of the average man's chances to grow upward. Cunning devices backed by unlimited prodigal expenditures will be used to confuse and to lure. But I have an abiding faith that the pitfalls will be avoided and the right road chosen.

"The leaders opposed to Democracy promise to put the country 'back to normal.' This can only mean the so-called normal of former reactionary administrations, the outstanding feature of which was a pittance for farm produce and a small wage for a long day of labor. My vision does not turn backward to the 'normal' desired by the senatorial oligarchy, but to a future in which all shall have a normal opportunity to cultivate a higher stature amidst better environment than that of the past. Our view is toward the sunrise of tomorrow with its progress and its eternal promise of better things. The opposition stands in the skyline of the setting sun, looking backward, to the old days of reaction.

"I accept the nomination of our party, obedient to the Divine Sovereign of all peoples, and hopeful that by trust in Him the way will be shown for helpful service."

Our Sermonette

That ye may be blameless and harmless, the sons of God without rebuke, in the midst of a crooked and perverse nation, among whom ye shine as lights in the world, holding forth the word of life. Phil 2; 15, 16.

It is the duty of every child of God to be very active in the dissemination of the Truth, in letting his light shine, and in keeping it trimmed and burning. "Trimmed and burning." What does that mean? It means that we must give very close attention to the words of life that we may come to an exact knowledge of the Truth, and that we must carefully and faithfully trim away every vestige of error as fast as it becomes apparent to us, whether it be an error in doctrine,

or in our daily walk and conversation, so that the pure light of divine truth may shine out with as little obstruction as possible through the medium of a clear and transparent character.
