#### Why Support the Port of Portland Measure?

In submitting the Port of Portland consolidation bill to the voters of Oregon the people of Portland ask the people of the whole state for authority to provide means of shipment by sea for the state's products. Portland is the great port of Oregon, for it is the chief point of export for the products of both eastern and western Oregon, and in that manner it renders a public service to practically the

whole state. The Port of Portland Commission having been created by a special act of the legislature, that law can be amended only by the legislature or by a vote of the people of all Oregon.

Upon the Port of Portland has devolved the duty of providing a navigable channel up the Columbia and Willamette rivers, of building docks and other shipping facilities. The increased number and tonnage of ships require that the channel be deepened and widened and that more docks be built. For this purpose the bill enlarges the borrowing and taxing power of the commission, but taxes are to be levied and bonds and interest on them paid by taxpayers of the Port District.
