We are buying merchandise for Spring and believe you may safely buy your wants, as we do not look for lower prices this season.

The Koontz Store Robbed.

Yesterday morning when C H Koontz came down to the store he found that some things had been taken from the store, namely, 7 pocket knives, a pair of high top ped boots, a Mackinaw coat and two shirts. He suspected a young man named Wassom, who was in town, and he had Mr Walton go and search him. Nothing was found on him however but some loose change, but he was ordered out of town.

A short time after this Jess Cross was cleaning out a freight car preparatory to loading it with hay. Wassom came over and helped him clean out the car and pointed out a gunny sack in one corner. The sack was found to contain the missing articles except the knives and they were found loose in the straw.

After Wassom had left the town word was received from Sheriff Kendall to hold him, so Messrs Walton, Moore, and Armstrong took after him and finally caught him. When Mr Kendall arrived the man was turned over to him and he was taken to Albany and landed in jail until his case can be disposed of.

Notice Your account is past due, and while we are willing to extend favors as far as possible, we desire to impress upon you the necessity of meeting your obligations promptly, and in asking this we are asking nothing more of you than our creditors ask of us. Please give this your immediate attention and oblige. Halsey Garage.

Bab's Love Test Can Help Local Sweethearts.

"When you are in love with a man, on taking his hand, you will blush, your pulse will beat faster and your heart will palpitate."

This is the infallible test of Babs, the part played by Constance Talmadge in "The Love Expert," the First National picture which will be shown at the Rialto theatre tonight Jan 27.

She tries it on her father's business partner. It fails to register. She tries it on a college professor. Again the test is negative. She experiments with a handsome young fellow, the fiances of her aunt. Well, the result is very positive, and that's when some strange things begin to happen.

Off Summer Pastures

As your animals come in off the pastures they'll miss the tonics and laxatives which nature supplied to keep them in condition. It's a big change. You must supply what is lacking in the dry feed—hay, grain and fodder—or they will get "off feed" and out of fix.

Dr. Hess Stock Tonic

Supplies the Tonics—Laxatives—Diuretics

It keeps animals free from worms. It keeps their bowels open and regular. It keeps the appetite and digestion good. It conditions cows for calving. It helps to keep up the milk flow. It keeps feeding cattle right up on their appetite. It keeps hogs healthy, thrifty, free from worms. It means health and thrift for all animals.
