Lower Prices!

A revision downward of prices has in no way affected the high standard of quality merchandise in all that we sell. We have kept them up to where they belong and will continue to do so no matter what may happen. We are buying merchandise for Spring and believe you may safely buy your wants, as we do not look for lower prices this season.

The following will show the tread of new prices.

About twenty four of the members of the Encampment (a branch of the Odd Fellows) went over to Brownsville, to take part in some of their mysterious work last Thursday night. When we went down to the post office Friday morning some of the participants were just getting back home. Too late hours, boys.

Last Thursday night the Rialto Theatre manager offered five dollars to the person holding the lucky coupon number. When the coupon was drawn out of the hat, there was a number called but no one claimed it. There were three parties went out before the drawing and one of the three held the lucky number. A second number was drawn and Karl Bramwell was the lucky man to hold the corresponding coupon.

Quite a while ago W J Ribella got kicked in the arm with the crank of his automobile. While the arm was not broken, it has been more or less sore and stiff ever since and some times it would be necessary to take his other hand to move it. One day lately he was in his bath tub and when he got ready to get out, while standing up in the tub a dizzy spin struck him and he fell and hurt his arm again and last week he was carrying it in a sling. He says, however, that his shoulder doesn't seem to be so stiff since he fell. Possibly that particular wrench was just what his shoulder needed, although it was a rather vigorous treatment.

Off Summer Pastures

As your animals come in off the pastures they'll miss the tonics and laxatives which nature supplied to keep them in condition. It's a big change. You must supply what is lacking in the dry feed—hay, grain and fodder—or they will get "off feed" and out of fix.

Dr. Hess Stock Tonic
Supplies the Tonics—Laxatives—Diuretics

It keeps animals free from worms. It keeps their bowels open and regular. It keeps the appetite and digestion good. It helps to keep up the milk flow. It conditions cows for calving. It keeps feeding cattle right up on their appetite. It keeps hogs healthy, thrifty, free from worms. It means health and thrift for all animals.
