Less Taxes and More Economy.

The federal government has enacted into law the principle that investors in railroad securities are entitled to a fair return on their investment over and above the cost of operation including corporate taxes. This was done because the government determines what the railroads shall charge for rendering transportation service to the people.

Many of us used to think and apparently a few state executives still think that by increasing public utility taxes, extravagance and wasteful practices in public office may prevail without cost to the people, overlooking the fact that every dollar paid by corporations for taxes must come out of the pockets of the people.

In other words, if railroad and public utility taxes be increased the burden is shifted back on the people by an increase in freight or passenger rates or charges for service.

It is passing strange that at a time when taxation is a burden on everyone, at a time when public expenses should be cut to the quick and extravagance wiped out, some of those in public office charged with the duty of administration, instead of looking for opportunities to economize, are advocating both increased taxation of property already overtaxed and the raising of additional revenue from new sources.

It is time for courageous thought and action. The people are groaning under the weight of adversity from various causes. They are ill-prepared to stand additional burdens. Incompetence and extravagance in public office must be eliminated. Not a dollar should be taken from taxpayers above that required to maintain the government of the municipality, county, state and nation honestly and economically administered.

Those invested with public authority from governor to road supervisor should be made to realize that this is no time for increased burdens, but rather that they will be held to strict account for failure to avail of every opportunity to increase efficiency and reduce the cost of government.

The demand of the hour is not increased taxation but retrenchment in public expenditures.

Miss Skirvin from Tangent, came up Friday night to attend the play and visit her relatives. She returned Sunday evening.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Off Summer Pastures

As your animals come in off the pastures they'll miss the tonics and laxatives which nature supplied to keep them in condition. It's a big change. You must supply what is lacking in the dry feed—hay, grain and fodder—or they will get "off feed" and out of fix.
