

"You'll Always Find"

says the Good Judge

That you get more genuine satisfaction at less cost when you use this class of tobacco.

A small chew lasts so much longer than a big chew of the ordinary kind. And the full, rich real tobacco taste gives a long lasting chewing satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

THE SIMPLE LITTLE SECRET

The Chiropractic secret of good bodily health is very simple—so simple it may surprise you.

First of all, the science of Chiropractic assumes that the Creator knew His business when He made man. Barring accidents, man does not need a crutch. If he did the Creator would have furnished him with one. Similarly, man's internal machinery should not need drugs to make it run properly.

Granted that the Creator knew His business, we must concede that the body of man is a finished product—a complete machine. Then why doesn't it run properly? Why isn't everyone healthy?

Suppose you have an auto. You run it over rough, bumpy roads. You race the engine. You neglect to oil the bearings. You let the valves get choked up. You put low grade gasoline in the tank. In short, you pay no attention to the car, thinking it will run indefinitely, no matter how much you abuse it. And one day the car refuses to run. Why?

Now, when the auto gets stalled, do you pour sassafras tea in the tank, put a seidlitz powder in the radiator and bathe the carburetor with oil of cinnamon?

You go to an expert mechanic. The car is all there, but the parts need adjusting. That's the mechanic's job.

The Chiropractor is the expert mechanic of the bodily machine. He does not employ drugs. He simply adjusts the human machine and then lets it alone.

Nature is the real curative agent. The Chiropractor isn't trying to get Nature's job away from her. He couldn't if he did try.

This, then, is the Chiropractic secret of health; adjust the bodily machine and then let it alone. Result—health.

Now that you know the secret, you will want to go to a Chiropractor right away and have him to adjust YOUR body to normal. You're not sick? Fine. But you want to STAY well, don't you? See a Chiropractor now.
