Your answer, if you wear the best quality-value possible to secure anywhere, is of course

## Ed V. Price & Co.

TAILORING—TO INDIVIDUAL MEASURE

There is a personal style for you in both fashion and fabric—at the right price.

## M. V. KOONTZ CO.

## A NEAR TRAGEDY IN HALSEY SUNDAY

Auto Badly Damaged and Occupants Shaken Up. No One Seriously Hurt

What came near proving a very serious accident happened at Halsey Sunday as trains Nos. 14 and 17 were passing. No. 17, a local, had taken the siding and was pulling out when No. 14, from the south came along. The latter is a through train and does not ordinarily stop. Just as the last car of No. 17 cleared the road crossing at the south side of the depot the automobile of Bennett Wilhelm of Monroe, came along and proceeded onto the crossing. At this instant No. 14 was along side the other train which hid it from the view of Henry Vincent, driver of the Wilhelm car, and the presence of which the driver was not aware until several parties standing by the depot in full view of the situation made an attempt to avert a terrible catastrophe. J. W. Bramwell managed to make himself heard by the driver, who stopped the car just as the front wheels went onto the track in front of the locomotive, and before the machine could be backed off the pilot of the locomotive struck the front part of the machine, throwing it back over the siding it had crossed. The car, fine new Willys 6, was badly damaged. The left front wheel was crushed and the framework of the machine bent badly out of line.

The occupants of the car were Mr. and Mrs. Bennett Wilhelm and little son, Mrs. W. R. Goodman, Mrs. Wilhelm's mother, and Henry Vincent, Mr. Wilhelm's nephew, the driver, all of whom seemed unhurt. Mr. Wilhelm was badly shaken and nervous from the shock.

### Oregon Jerseys Win High Honors in Butterfat Awards

In a recently compiled report of the medal awards for 1920 issued by the American Jersey Cattle Club, seventy-one Jersey cows completed records for the year with a production of over 700 pounds of butterfat within the year on authenticated test. Of the ten highest records made in the year, five were made by Oregon cows with an average production of 896.38 pounds of fat.

Heading the list of breeders of medal winners is J. M. Dickson & Son of Shedd with seven to their credit, followed by G. G. Hewitt of Independence with four, Ed Carey of Carlton with three and O. Pickard and E. J. Farnham of Marion with two. In the list of sires represented by medal winning daughters, Valentine's Ashburn Baronet, the Dickson herd sire, ranks first, credited with five, Rinda Lad of S. B., the Hewitt bull, second with four, Poppy St. Mawes, with two medal winners, is tied for third place with an eastern bull and St. Mawes of Ashburn, also a Dickson sire, is one of four in fourth place with two gold medal daughters. Golden Glow's Chief ranks fifth with one gold and one silver medal to his credit. Thus an Oregon bull appears in the first five places in the list of producing sires for 1920.

Ten cows by reason of superior performance, won more than one (Continued on second page.)

## Prices of Hay and Wages to Be Fixed July 16th

Owing to the fact that less than ten percent of the Farm Bureau members were present at the special meeting called for June 29th to consider prices of hay and wages, the consideration of these questions was deferred to July 16th, when a meeting of Linn County threshermen is called to consider wages and prices for threshing grain for the season.

S. G. Talia, as a basis on which to sell hay, has submitted the following figures which he states is a close estimate on the cost of production.

Interest on land at \$100 per a.	\$8.00
Depreciation on horses, implements, buildings, fences, taxes and interest on same	4.00
Cost of seed per a for this crop	4.00
Sowing seed and application of land plaster	1.25
1921 estimate cost baling per ton \$3.25 at two tons per a	6.50
Cutting, shocking, raking, stacking for baler	3.50
Hauling hay to market, warehouse, or cars	3.50
Sinking fund for failure of crop, caused by insects or damaged by rain	4.00
Insurance on horses, implements and buildings for a 50 acre farm	.50
Total per acre	\$35.25
Income per acre, estimating the yield at 2 tons per acre and at the present price of \$10.00	20.00
Net loss to farmer, per acre	15.25

L. C. Merriam and son Phillip left Saturday for Rogue River to spend the Fourth with Mrs. Merriam and Guy.

## June Cupid's Busy Month

June has been a month of marriages in Linn county, according to figures given out for the last eight years by the county clerk. In that time 234 licenses to wed have been granted. For the same period only 23 divorce complaints have been filed.

June of 1914 is the leading month of the eight with a total of 42 licenses, and only four divorce complaints. 1915 follows with 33 marriage licenses and two divorce complaints.

Last month there were 32 licenses issued while only two divorces were asked for, putting 1921 in third place in Cupid's batting average. June for the other years with the marriages and divorce complaints are:

1916, 26 marriages and five divorces  
1917, 28 marriages and six divorces  
1918, 18 marriages and two divorces  
1919, 28 marriages and three divorces, and 1920, 27 marriages and four divorces asked for.

The most licenses issued on any one day during the month was on June 2, 1917 when seven couples were issued licenses. June 22, this year, comes next with five.

The total receipts for the county clerk's office last month were \$500.10 and for May \$310.25, showing considerable increase business of the office last month. —Albany Herald.
