Shoe Repair Shop

Two doors north of the hotel. Am prepared to do all kinds of shoe repairing. Satisfaction guaranteed.

JEWETT the COBBLER.

Kill Large Snake and Find He's a "Birdcage"

Reading, Pa.—Workmen on the Pottsville state highway killed a copperhead snake at Port Clinton. They noticed a thick "knob" about the middle of the snake's length and, cutting it open, found a good-sized bird, apparently swallowed alive, feathers and all, shortly before the copperhead itself was killed.

Diamonds Light in Dark.

Many diamonds which have been exposed to sunshine give out light on being placed in a dark room. When placed in a vacuum and exposed to a high-tension current of electricity, diamonds phosphoresce, or shine, with different colors. Most South African diamonds, under these circumstances, exhibit a bluish light; while diamonds from other parts of the world shine with such colors as bright blue, apricot, pale blue, red, yellowish green, orange and pale green. In a lecture delivered in London, Professor Crookes stated that one beautiful green diamond in his collection, when phosphorescing in a good vacuum, gave almost as much light as a candle. The light was pale green, almost white.

His Dignity Hurt.

Tom lives in the country. One morning his mother was going to the city on a shopping expedition and Tom insisted on going with her. His mother told him she would be busy all day and could not be bothered lugging him around, to which he replied: "Lugging me around! You'd think I was a grip."

Shots from Shedd.

The Shedd fair will be Sept. 24, having been postponed a day.

Mrs. May Robnett left last week to visit relatives at Oakridge.

Mrs. J. W. Sprenger has been sick with tonsillitis the past week.

E. D. Farwell has been on the sick list for some time but is improving now.

George H. Dannen and wife announced to the E. A. Straus home Sunday.

C. H. Davidson and wife and Dick Duncan and wife returned Sunday from a few days' outing at Cascadia.

Miss Hattie Dannen accompanied by her guest, Miss Etta Smith, returned Monday from an outing in Newport. Miss Smith expects to start this week for her home in Iowa.

Under the Shedd drainage project, now well under way, 1800 acres of land is to be added to the area of high production. It belongs to W. W. Poland, H. C. Farmer, W. H. Walton, William M. Cornjek, R. Wright, James Bond and Otis Taylor. Mr. Taylor called at the hotel Halsey and said "How?" to the editor of the Enterprise while the latter resided there awaiting the vacating of a tenement for himself and wife.

The county Farm Bureau News always has more information from Shedd than from any other town. The prominence of Shedd in advanced farming is the result of the spirit which produced the Shedd boys' and girls' clubs and of the spirit which those clubs have produced. An attempt will probably be made soon to organize another of these school clubs at Halsey.

W. W. Poland, Ned Callaway, N. H. Bateman and Harrison Bros. have co-operatively built a cement stock dipping tank on the Bateman farm and plunged 484 animals in Cresco dip July 26.

Norval Gott of the Lebanon Pig club won the first prize of \$3 in the stock judging contest last week Wednesday. Ralph Malson, Irene Quimby and George Dannen tied for the second prize of \$2 and the \$1 prize was won by a team consisting of Ernest Ralston, Stanley Satchwell, Clarence Parsley and John Quimby.

(Received too late for last week.) Hurley Dale St. John, 13 years old, had his ankle broken and received many cuts and bruises last week when he caught his foot in the harness of a horse which ran away with him.

Last week Wednesday evening the Rebekah lodge instructed six new candidates in the mysteries of the degree. The new members were Mrs. May Robnett, Mrs. Gregory, Mr. and Mrs. Dwight Peterson, Florence Adams and Hattie Dannen. The Lebanon lodge put on the degree work. After initiation supper was served and a good time enjoyed.

J. C. Brown & Son have purchased a new thrashing machine. They intend running it with a Gordon tractor.

Peoria Items

July 27. The new fill above Peoria is completed, making it more safe to cross. Lots of work is being done around here on the roads.

J. W. Lamar and family went to Albany Sunday and met Mr. and Mrs. Berry, former residents of Peoria, and Mr. and Mrs. Lovis of Corvallis, at Bryant park and had a picnic dinner and supper. Living home late in the evening.

Mr. and Mrs. Berry now live in Dallas, where he is in the automobile business.

Mr. Frady and family have returned from Newport. They report having a fine time. The weather was quite cool there.

Last Monday evening a large crowd gave Mrs. George Bayne a surprise party on her birthday, taking with them ice cream and cake. About 55 were present and had a good time.

Black Bear Interrupts Ball Player's Angling

Freedland, Pa.—John Novak, a professional baseball player and former football star, while trout fishing in Hays creek heard a rustling in the bushes on the opposite bank and saw a full-sized black bear as it jumped into the water and swam toward him. The bear, after emerging from the water, took a drink from the stream and then proceeded quietly on its way into the woods. Novak gave a terrific yell, causing the bear to strike a faster gait until it was out of sight.

Don't Neglect Your Play.

There are men in the world who feel that the whole works would stop if they took time enough to play a little. That's all bosh. The man who can play well is usually the fellow who can put the work across. Some have the play spirit so well in hand that they make sport of their work. It is real pleasure to them. They get both recreation and profit from their efforts. It's no wonder they stay young in their work.

And don't forget that if you would succeed you must carry your load. It's a mistake to get out from under responsibility. It's meeting responsibility that makes progress possible. Shirkers are not in demand. They may put things over occasionally, but they do it at the expense of personal discount. You can't afford to do it. Carry your load like a man.—Grit.

An Acre.

The word acre is derived from the old Anglo-Saxon word acer, and is identical with the Latin word ager, meaning a cultivated field. The English acre consists of 4,840 square rods, or 43,560 square feet. If your field is a rectangle, that is, having four sides and each angle a right angle or "square corner," its area is obtained by multiplying the length by the breadth. If your measurements are in rods, the result will be square rods; if in yards, square yards; and if in feet, square feet. A field 152 feet by 165 feet of rectangular shape contains 24,780 square feet. It is therefore, half an acre. But a rec-

tangular field might be different length and width, and yet contain an acre. For example, if it is 250 feet long and 66 feet wide it will contain 21,750 square feet, or half an acre.

WALKING AND TALKING DOLLS

Lifelike Forms Gracefully Step Across the Floor Saying "Mamma" or "Papa."

DOLLS that walk and talk and wink and roll their eyes are Parisian Christmas novelties in toyland. These dolls seem almost human, as they walk in sprightly style across the floor saying "mamma" or "papa" just as real children would.

Walking dolls being a new invention, seem wonderful and bring screams of delight from little girls and boys, too, who watch with intense interest every step of the lifelike dolls as they are exhibited in the shops.

The machinery that moves the doll's legs is set in motion by a key that is inserted in the works at the waist line.

The voice is made active by works that are wound with a key. The eyes move as the body sways from side to side, just as the real children's eyes roll and blink, etc.

Coffin-Shaped Pie Crusts. Selden, the antiquary, tells us that Christmas pies were formerly baked in a coffin-shaped crust to represent the crutch or manger in which our saviour was laid.
