## LESSON FOR OCTOBER 2

### PAUL IN CORINTH.

**LESSON TEXT—Acts 18:1-23.**  
**GOLDEN TEXT—**I determined not to  
 know anything among you, save Jesus  
 Christ, and him crucified.—I Cor. 2:2.  
**REFERENCE MATERIAL—**I Cor. 2:1-8;  
 II Cor. 11:7-9.  
**PRIMARY TOPIC—**Tentmaking and  
 Teaching.  
**JUNIOR TOPIC—**Paul Working and  
 Preaching in Corinth.  
**INTERMEDIATE AND SENIOR TOPIC—**  
 Teaching and Tentmaking in Corinth.  
**YOUNG PEOPLE AND ADULT TOPIC—**  
 Paul in a Commercial Center.

The establishment of the church at  
 Corinth is an example of missionary  
 endeavor for all ages. The method  
 employed, which resulted in success  
 then, will result in success now.

**I. The True Missionary Method**  
 (vv. 1-3).  
 Paul came to Corinth a stranger in  
 a strange city. He did not have an  
 advance agent to do his advertising;  
 neither did he have his photograph  
 put in the daily paper with sensa-  
 tional announcements. Upon his arrival  
 in Corinth, he did not have a trained  
 singer with him; neither did he have  
 his salary guaranteed. His method in  
 gaining a foothold in Corinth was as  
 follows:

1. Finding a home (v. 2). This he  
 found with Aquila and Priscilla, Jews  
 who were recently expelled from  
 Rome by the cruel edict of Claudius.  
 Being Jews, he found natural affinity  
 with them.  
 2. He toiled for his daily bread  
 (v. 3). He was of the same craft  
 with them, being tentmakers. Every  
 child among the Jews was taught

some trade by means of which he  
 could gain a livelihood should occa-  
 sion require. One of the rabbis said  
 that he who failed to teach his boy  
 a trade taught him to steal.

**II. Preaching in the Synagogue at**  
 Corinth (vv. 4-8).  
 1. Though compelled to toil for a  
 living while getting a foothold in  
 Corinth, he did not lose sight of his  
 main work (v. 4). He reasoned in  
 the synagogue every Sabbath, persuad-  
 ing the Jews and Greeks.

2. His activity was increased when  
 Silas and Timothy came (v. 5). This  
 resulted from three causes: (1) They  
 brought good news from the church at  
 Thessalonica (I Thess. 3:6). To hear  
 of the steadfastness of those who had  
 confessed Christ under our ministry  
 puts new vigor into our labors. (2)  
 They brought pecuniary gifts from the  
 Macedonian churches (Philipp. 4:15;  
 II Cor. 11:9). Being relieved from the  
 necessity of toil for a living, they now  
 could devote more time and energy  
 to the preaching of the gospel. (3)  
 Silas and Timothy became assistants  
 to Paul in the work, thereby strength-  
 ening his hands so as to enable him  
 to accentuate his efforts.

3. Paul opposed (v. 6). His in-  
 creased activity was met with in-  
 creased opposition. This can always  
 be expected.

4. Paul announces his purpose to  
 turn to the Gentiles (v. 6). Because  
 of their blasphemy and opposition he  
 ceased to work among the Jews.  
 There is a time when good judgment  
 causes one to abandon work where  
 efforts have been fruitless, but it is  
 difficult to know just when to do it.

5. He did not go far away (v. 7).  
 He remained sufficiently near that  
 those whose hearts God touched could  
 easily find him. It is likewise true  
 that although Christ is obliged to de-  
 part from the soul that refuses Him  
 entrance, He lingers with yearning  
 love around that heart.

6. His success (v. 8). Crispus,  
 chief ruler of the synagogue, was con-  
 verted. Perhaps the severity of his  
 action in turning away from them  
 moved Crispus to action.

**III. Paul's Vision (vv. 9-11).**  
 His experiences since coming to Eu-  
 rope were very trying. He needed en-  
 couragement at this time. It is just  
 like the Lord to come at the time of  
 the servant's greatest need. Note the  
 Lord's words to him:

1. "Be not afraid." When one is  
 executing the commission of the Lord  
 he need not be afraid.

2. "Speak, and hold not thy peace."  
 The one who has heard the voice of  
 God cannot refrain from speaking—  
 "cannot be still."

3. "I am with thee." The Lord is  
 with everyone who faithfully carries  
 out his commission.

4. "No man shall set on thee to hurt  
 thee." The one sent by the Lord to do  
 a work is immune from danger and  
 harm until his work is done.

5. "I have much people in this city."  
 It is most encouraging to know that  
 in the great cities the Lord has His  
 own people and that the one who goes  
 in His name shall have fruit for his  
 service.

 ioned woman who was afraid for her  
 daughter to be exposed to the night-

Is the hoodoo off the state fair?  
 Note the coincidence of storm  
 warnings and fine weather all this  
 week.

Our report of the Shedd fair is  
 condensed from a more lengthy  
 one that appeared in the Albany  
 Democrat.

No. 53, Wednesday morning's  
 train going south, was delayed for  
 a half hour or more for some cause  
 unknown.

Mrs. A. H. Quimby, with her  
 daughters Irene and Ruth and two  
 sons, John and Paul, on Tuesday  
 attended the state fair at Salem.

 sides with Mr. and Mrs. Charles  
 P. Poole of Brownsville.

 day evening from Renton, Wash.,  
 where she had been visiting with  
 her daughter, Mrs. F. E. Roberts,

 during her mother's absence. Mrs.

Forster reports that Mrs. Roberts  
 and new daughter Lucille Glennen

There is 30,000 or 40,000 bush-  
 els of wheat in the Koontz ware-

 bought by Mr. Koontz, the balance  
 being on storage. None has been  
 shipped away yet.

 birthday recently, but does not  
 show his age by a long way.

Charles Putman of Brownsville  
 passed through here Monday morn-

 to his eye, caused by a rope strik-  
 ing him in some way so as to caus-  
 e worry as to the result.

 trained Monday for Albany to  
 transact business. There is a ru-  
 mor that the Bakers will leave for  
 Turner, Ore., and locate perma-

## TIME ?

NEXT WEEK  
 WHERE ALBANY  
 WHAT? THE FAIR

When you come to the fair "kill two birds." Stop in a few  
 minutes and have that spine examined. You worked too hard this  
 summer. You took a tumble, overfed: or perhaps it was last sum-  
 mer or a number of years ago. You probably had the flu during  
 its sojourn. (The flu left many a spine not so good as before.) You  
 don't feel as good as you used to. Ten to one there is a verte-  
 bra out of line in your spine. Perhaps the pain is there, or in some  
 muscle or organ supplied by the nerves from that vertebral opening.  
 There may be pain, numbness or both—overactivity or inactivity,  
 depending on the nature and degree of nerve pressure.

The chiropractor's work is mechanical—simply removing the  
 nerve pressure and leaving the cure to nature, who alone can cure.

Chiropractic is not confined to symptoms in diagnosing your  
 case. The leading diagnosticians of the world admit 50 per cent  
 and upward wrong diagnoses from symptoms, as proved by post  
 mortems. Are you doctoring for something you do not have? Is the  
 cause of your trouble being removed? Chiropractors couldn't even  
 do as well in diagnosing if confined to the old method of relying  
 upon symptoms. But that is where chiropractic is superior to other  
 methods in most cases.

Symptoms are important and useful, but alone are not dependable.

**A SUBLUXATED VERTEBRA IS THE KEY TO THE**

**DIAGNOSIS IN YOUR CASE** and is generally easily found.  
 This will increase the accuracy in the diagnosis of your case to an  
 unlimited degree, and if this is true WE HAVE THE CAUSE OF YOUR  
 TROUBLE BEFORE US AND A HARMLESS MECHANICAL WAY TO RE-  
 LIEVE IT. LET US ILLUSTRATE.

For example, we will suppose you have stomach trouble. From a chi-  
 ropractic viewpoint it would make any difference (outside of diet)  
 whether it was GASTRITIS, PEPTIC ULCER, HYPERCHLORHYDRIA,  
 HYPOCHLORHYDRIA, HYPERSECRETION, GASTRALGIA, NERVOUS DYS-  
 PEPسيا OF SOMETHING ELSE. The chiropractor's work would be a  
 mechanical correction of a subluxated vertebra in "stomach place"  
 in your spine. Or if you were taking typhoid fever, chiropractic  
 would not have to wait for symptoms to develop to a diagnostic de-  
 gree before successfully adjusting the case. "THE SPINE IS  
 AN INDEX TO YOUR HEALTH."

Ask those who know by experience. Better still, investigate.  
 I will X RAY your spine if necessary.

Yours for health,

## NOVEL AUTO RULES

### Chinese Prescribe Regulations to Prevent Accidents.

#### Chauffeurs to Be Locked in Room With Wax Images of Victims to Make Them Sorry

Shanghai.—As a means of prevent-  
 ing automobile accidents the Health  
 Precautionary association, an or-  
 ganization composed of leading Chi-  
 nese of Shanghai, recently prepared a  
 list of suggestions among which are  
 several of engaging novelty. The sug-  
 gestions which were adopted at a  
 meeting after lengthy debate were  
 submitted to the municipal council of  
 the international settlement.

"All motorcars have rubber-tired  
 wheels and run without noise. It is  
 too late to blow a horn when a car  
 has already collided with a pedestrian.  
 A car should have a very small bell  
 attached to one of the front wheels  
 and this bell should be kept ringing  
 all the time so that when pedestrians  
 hear it they can get out of the way."

"This bell should be half the size of  
 a bicycle bell. Each car should have  
 a speed limit, but the fire brigade,

doctors' and police motorcars should  
 be exempted.

"A chauffeur should wear a brass  
 badge on his breast. The badge should  
 be three inches in diameter and  
 should have his name and the number  
 of his license in English and Chinese  
 inscribed thereon. The badge should  
 be issued by the municipal council at  
 a few taels each. Then a man not li-  
 censed will not dare to drive a car.  
 "All motortrucks should have rails  
 or iron chains around the cars to in-  
 sure safety and in case of collision the  
 cargo will be prevented from falling  
 and injuring pedestrians. Cargo should  
 not be piled too high to prevent dan-  
 ger when passing over bridges.

"There should be one licensed chauffeur  
 and an assistant to take charge  
 of each motorcar or truck. The as-  
 sistant should sit behind and keep a  
 lookout when the car turns around,  
 goes backward, enters or leaves the  
 garage. The owner of the car will  
 not mind spending a little money in  
 employing an assistant chauffeur.

"After a person is killed by a motor-  
 car a wax image of the deceased  
 should be made and placed in a room  
 and any chauffeur who causes injuries  
 to others should be locked up in this  
 room so that he will see the image  
 and feel sorry. This may cause him  
 to repent. This has been introduced  
 in America and has produced success-  
 ful results."

## Beautiful Gingham

### At Prices Very Interesting

Everyone is buying gingham, the all-year fabric,  
 more than ever now that it has established itself  
 among genteel materials. So handsome are the  
 new patterns in gingham that they are instinctively  
 recognized as appropriate for wear on dress occa-  
 sions, yet they are again surprisingly inexpensive.  
 Cool, washable dress gingham are here in abun-  
 dance to celebrate National Gingham Week.

**Old Formula Best.**

 method of achieving success that looks  
 good for a time, but we don't believe  
 that any man has ever improved on
