NO. 21

High School Notes

Exams:
This week was joyously(?) spent in taking exams. Many of the students expressed the desire for next week to make its appearance immediately.

Debates:
Individual winner debate: Tenth debate: Affirmative, Clarence McKern; negative, Grace Robinson. Affirmative won.

Eleventh debate: Affirmative, Anna Heinrich; negative, Wayne Robertson. Negative won.

Twelfth debate: Affirmative, Geraldine Cook; negative, Pearl Pehrsson. Negative won.

Thirteenth debate: Affirmative, Wayne Robertson; negative, Grace Robinson. Negative won.

Fourteenth debate: Affirmative, Grace Robinson; negative, Glenn Frum. Grace Robinson proved herself to be the best debater of the class.

Third Losers' debate: Affirmative, Bessie Dykstra; negative, Delma Wahl. Negative won.

Fourth: Affirmative, Hazel Quimby; negative, Clarence Gourley. Negative won.

Fifth: Affirmative, Delos Clark; negative, John Standish. Negative won.

Third team debate: Affirmative, Mearle Straley and Alba Hayes; negative, Geraldine Cook and Clarice Gourley. Affirmative won.

Fourth: Kenneth Cross and Delos Clark; negative, Willis Kirk and Wayne Robertson. Affirmative won.

Fifth: Affirmative, John Standish and Preston Newton; negative, Glenn Frum and Clarence McKern. Negative won.

A Lecture and a Social

Remember two important dates in the future. Feb. 4 Mr. Udasco of the Philippines will give an illustrated lecture. Feb. 10 the get-together social of the church.

Lester Jones, Minister Christian Church.

"Cincinnati Oysters"

"Cincinnati oysters" is an expression sometimes used in the United States to denote pigs' feet.

FEED NECESSARY FOR HENS DURING WINTER

Insects and Green Stuff Are Plentiful in Summer.

Provision Must Be Made in Severe Weather for Animal Food and Succulence—Essential for Production of Eggs.

(Prepared by the United States Department of Agriculture.)

During the summer months the farmer's flock balances its ration of grain and seeds with bugs, worms, and green stuff, and the farmer need not worry about egg production if his fowls have been well culled. But winter feeding requires that provision be made to supply the deficiency of animal feed and succulence. The absence of these essentials to good egg production is responsible in large degree for the falling off in yield during cold weather.

Animal food, or other feeds rich in protein, may be easily supplied on most farms, particularly where skim milk or buttermilk is available. The liking of hens for these dairy by-products is a good indication of the need for what they contain. Meat scrap is another excellent protein feed that has become standard in poultry rations. Clover and alfalfa leaves provide a combination of protein feed and green stuff. Often enough of them may be swept up from the barn floor where the hay is handled. A good way to prepare them for the flock is to pour boiling water over them, cover the container and let them steam for a time, when they will be ready to feed alone or in a mash.

Sprouted oats has become one of the best-known providers of succulence in winter. Plans for making sprouters may be obtained from the United States Department of Agriculture. Mangels and cabbage, as well as many other vegetables, are appreciated by the hens.

In general, winter feeding is much the same as summer feeding. On the government poultry farms the same rations are used in summer and winter. Of course, in summer it is unnecessary to feed succulent feed when the birds have range and are able to get plenty of grass, alfalfa, or similar feed. The farmer's flock, however, is an exception to this rule, as in many cases there is enough waste grain, seeds, etc., in summer to supply much of the feed required.

Give Thanks to God.

Sleep should be light, so that we may easily awake; for we ought to rise frequently in the night, in order to give thanks to God. . . . We who have the word, the watchman, dwelling in us, must not sleep through the night.—St. Clement of Alexandria.

Bodily Exercise and Godliness.

Bodily exercise profiteth little; but godliness is profitable unto all things, having promise of the life that now is, and of that which is to come.—1 Timothy, 4:8.

Jots and Tittles

Short Stories of Happenings in Linn County Generally and in Halsey Particularly

In Albany they are selling a one-pound loaf of Albany-baked bread for 5 cents.

The Dawson infant, whose death is mentioned on page 5, was buried at Corvallis Tuesday.

Mrs. Dwight Smith and children, who have been visiting here, arrived safely at her home at Klamath Falls Tuesday.

Mrs. Jess Safley, who had two goiters removed by Dr. Wallace at Albany a week ago today, is recovering nicely from the operation.

That little Petrick boy is doing well and Mrs. J. C. Bramwell, who was nurse, has come home. The youngster has already gained half a pound in weight.

The well-known DeMoss troupe, always popular, is pronounced better than ever by those who attended the program at the Methodist church Tuesday night.

The bridge near Mr. Gaughner's place, East Knox Butte, which was destroyed during the high

water, has been rebuilt and is now open to traffic.—Albany Democrat.

Drs. Marks and Garnjobst lanced an abscess on Mrs. Crawford's limb Tuesday, to provide drainage for secretions. Mrs. Crawford's condition was considered serious.

Mrs. A. J. Ackerman came over from Brownsville Monday with various kinds of good things for the invalid at the Wheeler home and for a visit with her mother, Mrs. West, at the Hugh Leeper home.

The Albany community house has become during the last year one of the greatest centers of community activities in this part of Oregon, with practically every day of the week marked by meetings of some character.—Democrat.

Did you read the advice of the Mountain States Power company about giving your boy or girl a start in and an insight into and interest in business in last week's Enterprise? Write to the company at Junction City and learn about its plan.

Halsey Christian Church

Church Announcements

Methodist:
Sunday School, 10.
Preaching, 11.
Junior League, 8.
Intermediate League, 6:30.
Epworth League, 6:30.
Preaching, 7:30.
Prayer meeting, Thursday, 8.
Rev. C. T. Cook, Pastor.

Christian:
Several men were at work on the heating equipment Monday, so you will be assured of a warm, comfortable room at the Bible school at 10.
The sermon at 11 will be on "The Three-fold Mission of the Church of Christ."
In the evening Christian Endeavor at 6:30. Arthur Robnett is leader and the topic is "What the World Owe to Foreign Missions."
At 7:30 the sermon will be on "The Essential, Important and Indifferent Elements of Christianity." Lester Jones, Minister.

Pine Grove Church:
Sunday School, 10.
Preaching, 11, by Bro. Egglv.
Prayer-meeting, 7.
Bible Study, Wednesday, 7.

Sunday School Lesson

ELISHA'S HEAVENLY DEFENDERS

LESSON TEXT—II Kings 6:8-23.
GOLDEN TEXT—The angel of the Lord encampeth round about them that fear Him, and delivereth them.—Ps. 34:7.
REFERENCE MATERIAL—Dan. 3:1-23; Heb. 1:14; 1:12.
PRIMARY TOPIC—God Takes Care of Elisha.
JUNIOR TOPIC—Elisha and the Armies of Jehovah.
INTERMEDIATE AND SENIOR TOPIC—Our Unseen Defenders.
YOUNG PEOPLE AND ADULT TOPIC—What Faith in the Unseen Can Do for Us.

1. The Syrian King Sorely Troubled (vv. 8-12).
1. The King's plan. (v. 8). His method was a kind of guerrilla warfare—armed bands made incursions into the enemy's territory. He determined as to where camps should be located so as to intercept Israel's army. His plan was clever, but his great mistake was that he left God out of his calculations. There is one place where all plans and movements are known (Heb. 4:13).
2. The enemy's movements disclosed (v. 9). The man of God, know-

ing the enemy's movements, was able to tell the king about them. Elisha's advice was more than a match for the wily plans of the shrewd Ben-hadad. Israel's safety lay more in the man of God than in their warriors.

3. The king of Israel heeded Elisha's word (v. 10). This was true wisdom. By obeying the prophet's words he saved himself and army many times. Those who are truly wise heed the divine warnings.

4. The Syrian king's perplexity (vv. 11, 12). In his perplexity he assembled his servants and demanded that the traitor be made known. He believed that some were playing into the hands of the enemy; therefore he would put an end to the treachery. This was denied, and one of his servants declared that the king's movements were reported by Elisha the prophet, even telling to the king of Israel what Ben-hadad spoke in his bedchamber. Ben-hadad was worried not because of his sins, but because his plans miscarried.

5. The Syrian King Tries to Trap Elisha (vv. 13-15).

1. He sent an army to capture him (vv. 13, 14). Upon learning that Elisha was making known his actions, he determined to put an end to the matter by trapping him and making him a prisoner. How foolish to put human cunning against divine wisdom. Horses and chariots are useless when God is against us. God's purposes cannot be thwarted. If God be for us, who can be against us?

2. Elisha's servant frightened (v. 15). When he awoke one morning he saw that an armed host was encamping about the city. Viewed from the human standpoint, we do not wonder that he was affrighted.

3. Elisha's encouragement (v. 16). He assured his servant that, though they were surrounded by the Syrian army, there was a mightier host of heavenly defenders round about them. Elisha did not shut his eyes to the real danger, but looked to the helpers of God watching about them.

4. Elisha's prayer (v. 17). He asked that the Lord would open the eyes of his servant so as to see spiritual things. When the Lord opened the eyes of the young man he saw that "the mountain was full of horses and chariots of fire round about Elisha." Round about us all the while are angels guarding us from danger.

5. The Syrians smitten with blindness (v. 18). The same God who opened the eyes of the young man, blinded the eyes of the Syrians. God deals with men according to their moral attitude. When men will not have the light, God sends darkness.

6. The Syrian Army Trapped (vv. 19-23).
The would-be trappers are now trapped.

1. Army led by the man sought by them (vv. 19, 20). Elisha led them to Samaria and asked the Lord to open their eyes. When their eyes were open they saw the man whom they sought, but not at the place where they sought him. Instead of seeing him at Dothan as they expected, they saw him in Samaria.

2. The generous treatment of the Syrians (vv. 21-23). The king of Israel wanted to smite the captives, but Elisha forbade him and ordered instead that they should be fed and sent back to their master.

3. Peace between the nations (v. 23). The mercy shown to the Syrians had such a profound effect upon them that they came no more to make war upon Israel. What a fine thing if we could have such humanity shown today!

Mrs. D. Taylor visited Albany Saturday.

Dr. and Mrs. Waltz of Brownsville got home from Portland Tuesday.

The regular monthly meeting of the Brownsville grange will be Saturday night.

W. A. Carey loaded a car with hay from his farm this week. It was destined for Falls City.

Mrs. Ridenour of Brownsville, who has been visiting Mrs. Sala, took the Albany train Tuesday.

In November, 1920, Vina Matlock and George Jones were married at Holley. Now Vina is suing for a divorce, alleging that her husband's parents, with whom the couple reside, ridiculed her and overworked her and that her husband objected to her associating with her relatives and refused to take her to public meetings or to church.

A four-horse team belonging to Bryan Perry ran away on Monday, going north on First street. Near the Standish residence they turned east, crossing the railroad track and turned south, but did not get far till they were halted. One of the wheel horses fell and was scratched up somewhat by being dragged, but that was about all the damage.

Mr. and Mrs. August Bjerrmark of Fairbanks, Alaska, are visiting at the home of Dr. J. W. Cook of Brownsville. Mrs. Cook and Mrs. Bjerrmark, who are sisters, made a pleasant call on Mrs. Wheeler Tuesday afternoon. The Bjerrmarks have lived in Alaska more than a quarter of a century. The gentleman is in the government service. Mrs. Bjerrmark visited her sister eight years ago, but this is her husband's first visit outside since he went north. The Cooks are planning a return visit. Mrs. B. says she is getting tired of Alaska.

(Continued on page 5)

SUNFLOWER SEED IS COSTLY

Ordinarily it Does Not Pay to Use Product for Feed Except in Case of Chickens.

It ordinarily costs considerably more to produce 100 pounds of sunflower seed than 100 pounds of corn or oats, and for that reason sunflower seed is ordinarily so high in price that it does not pay to use it as a feed, except perhaps in the case of chickens. Sunflower seed contains in every 100 pounds 11 or 12 pounds of digestible protein and 92 units of energy, whereas corn contains in each 100 pounds about six or seven pounds of digestible protein and 80 units of energy. Theoretically, 100 pounds of sunflower seed should be worth around \$1.60 a hundred when corn is worth 70 cents a bushel.

PREVENT INJURY IN ORCHARD

Clear Away All Litter, Such as Weeds and Grass From the Base of Fruit Trees.

Guard against mice and rabbits by first clearing away all litter, such as mulch weeds and grass from the base of fruit trees. They form ideal places for mice to spend the winter. Little damage occurs in the cultivated orchard except from the rabbits. Soil can be mounded about the base of the trees before the soil freezes. If this is done and the grass and weeds removed, little damage can be expected from mice. Such mounding is not a protection against rabbits, however. There are many methods of tree protection that give good results.

RACE ON ISLAND FAST DYING

Disease Reduces Population of Marquesas From 100,000 to 1,600 in 50 Years.

Honolulu, T. H.—Tremendous decreases in the native population of the Marquesas Islands, 2,000 miles south by east of the Hawaiian archipelago, have resulted from the ravages of disease and the adoption of many modern customs recently, according to Dr. G. S. Handy, ethnologist of the Bishop museum here, who spent nine months on the islands gathering data on the origin of the Polynesian race, habits and customs of the natives, and their ethnology and anthropology.

"Fifty years ago the Marquesas Islanders probably numbered between 50,000 and 100,000," Doctor Handy said. "Today there are only about 1,500 natives. Smallpox and pokoko, a particularly swift and virulent form of tuberculosis, played havoc among them."

Brownsville Briefs

(Regular correspondence)

A notice on the front door of the residence of the late Mrs. Laura Ambrose announces that certain described personal property will be offered by the administrator at private sale at the bank in Seio January 30 and thereafter till sold. Among other things listed are about \$6000 worth of bonds of various descriptions and certain household articles. The estate was valued at \$11,000. E. D. Myers of Seio, administrator of the estate, is expected in Brownsville the first of the week to make disposition of some of the personal property.

Mrs. Ida Hanson, who with Mrs. Kitchen of Albany is spending some weeks in California for the latter's health, writes that the weather is cold, wet and generally disagreeable.

The farmers around here are much concerned lest the recent cold spell should have seriously injured the winter grain. The farmer's path is not strewn with roses these days.

Charley Jackson and Will Schrunck came together on a real estate deal a few days ago whereby Mr. Jackson comes into possession of the 15-acre tract adjoining his home place on the west that Mr. Schrunck bought of P. B. Beatty about a year ago. This makes Mr. Jackson about 25 acres. The place lies just beyond the eastern limits of Brownsville on the Crawfordville road.

Prof. Baker and three of the children autoted to Eugene Saturday.

We are pleased to be able to report that "Billy" Templeton, who has been so seriously ill for several weeks, is improving and friends are encouraged to hope he may again get around.

Percy Talent, who lives with his uncle, Oscar Talent, on the Templeton ranch east of town, was called to Portland recently by the death of a married sister who passed away after an illness covering many months.

A brother of Oscar Talent came over from Salem Sunday for a brief visit.

Oren Stratton has sold 60 acres off the west side of his farm about three miles east of Brownsville. On this part of the farm are the fine improvements that make this one the most desirable farms in this vicinity. The apple orchard goes with the piece sold, but Mr. Stratton still has sixty or more acres of berries. The family expect to make their home in Salem when possession is given here.

R. P. Dougherty is razing the old house on his five-acre tract on the Brownsville-Halsey road that Nelson Cochran built and lived in for a number of years. Mr. D. thinks the lumber more valuable than the house.

The two-weeks' series of evangelistic meetings held in the Presbyterian church came to a close Sunday evening with a largely attended union service of all the churches. The pastor, Rev. A. M. McClain, preached a very strong sermon on the second coming of Christ. As a Bible expounder Mr. McClain is certainly an expert and all who attended the special services were thoroughly instructed in the teachings of the old book, the best seller in the market. Sunday morning the pastor held a short decision service in the Sunday school when several of the younger members came forward to indicate their purpose to live a Christian life.

The Study Club

The Women's Study club spent a very pleasant and profitable afternoon last Thursday with Mrs. Huston and Mrs. Templeton. The lesson on Oregon history was given by Mrs. Walton, and an interesting reading was given by Mrs. Moore. Mrs. Templeton sang a solo, which was followed by a duet by Mrs. Templeton and Mrs. Danley. Mrs. English played the accompaniments. Both numbers were greatly enjoyed.

A new shipment of books was reported which were placed on the shelves Saturday.

The next meeting of the club will be at the home of Mrs. D. Taylor, at which time Mrs. Huston will have charge of the lesson.

Learn Helpful Facts About Home Sewing

A representative from Butterick, style leaders of the world, will be at our store for a few days. You are invited to visit our fashion department and learn from her about the wonderful

Deltor

an invention that saves you from 50c to \$10 on every y frock you make.

It will solve your dressmaking problems once for all. It will show you how to make your own clothes quickly and easily, and to give them the chic and charm of a Parisian creation.
