**Declares No Finer Workers Anywhere Than O. A. C. Graduates.**

"America hasn't done anything finer in her history than the constructive work she is now doing in Armenia, Greece, Palestine and Syria," states ex-Governor Allen, of Kansas. "Recently I was in the Near East, saw the work and the splendid group of workers and I am glad to say there are no finer workers anywhere than those relief workers, and Leonard Harthill and Ethel Long Newman, of the Oregon Agricultural College, are two of the best among these."  
 "At Alexandropol, I met Harthill, who is in charge of a great agricultural work. He is teaching in an ancient land modern agriculture and modern stock breeding. Working almost without material, he is creating an institution which will be to that country what institutions like O. A. C. are to Oregon. By modern methods he has doubled the productivity of the soil and already his graduates are being sought by the Government. One of the best things he has done is to fight successfully the Russian plague."  
 "I also met Ethel Long Newman, formerly of Oregon, who together with her husband, is doing a splendid work in the Caucasus. Their ranch is to become in time a school under the direction of the government. At present it is a part of the very great work that Harthill and the Newmans are carrying on for the Near East Relief."  
 Concerning this school, Mrs. Newman writes: "We shall have a small school, emphasizing agriculture, of course, and correlate it with practical care, breeding and feeding of stock, milk production, dairying, general gardening, forage crops, etc. We shall have not more than fifty girls, whom

I expect to give training in home-making — not forgetting that the Armenian wife is at once the house-keeper, dairy maid and general farm hand. I am afraid with my western ideas that I shall be a little loath to have them qualify for the latter job! But knowing that to be married is their chief aim, perhaps I had better have them known as particularly good harvest hands!"  
 "The emergency is not past," concludes Allen. "Children are dying every day in the Near East for lack of nourishment. I have borrowed money to contribute to the Near East Relief work. I wish I had more to give than I have. I am not a crank upon the subject, but I have picked it out as one of the most deserving of efforts because it deals mainly with childhood life. The correction of the situation over there must begin with the generations that are now coming on."  
 The Oregon office of Near East Relief is at 613 Stock Exchange, Portland.

 Preston came to Jack and whispered: "The outcome is a great surprise to the other side, Young Clarke is a dead shot. An injured officer of the English army may cause unexpected embarrassment. But you have time enough and no haste. You can take the post chaise and reach the ship well ahead of her sailing."  
 "I am of a mind not to go with you," Jack said to Solomon. "When I go, I shall take Margaret with me."  
 "So it happened that Jack returned to London while Solomon waited for the post chaise to Deal."

 Wear-Ever is stamped from hard metal—not spun nor cast. Spun articles are made from soft sheets. Cast metal is more porous than that which is produced under heavy pressure. Besides, to make it cast smoothly it is mixed with from 5 to 8 per cent of alloy, which encourages the disintegration of the metal by water containing impurities. Get the best. Wear-Ever is the best.

 Increase in the street car fares in Salem and Eugene from 6 to 7 cents, effective April 22, is proposed in a revised schedule filed with the state public service commission by the Southern Pacific company, which owns the trolley systems in those cities.  
 Oregon has rapidly become the haven of refuge for distressed Canadian husbands and wives who are fleeing to this state to obtain divorces that they cannot get in the dominion, according to R. P. Bonham, immigration director for the district.  
 For the announced purpose of preventing the possible introduction into this district of the hoof and mouth disease steps are being taken at Astoria to prevent vessels entering the port from dumping refuse and garbage into the harbor or onto the wharves.  
 Between 40,000 and 45,000 lambs grown in Umatilla county have been contracted for sale for fall delivery, according to Mac Hoke, of Pendleton, secretary of the Oregon Wool Growers. Prices, f. o. b. nearest shipping point, range from 9 1/2 to 10 cents a pound.  
 The Cold Springs government reservoir, which supplies storage water for the Umatilla project, is now full to the flashboards of the spillway. It contains 50,000 acre feet of water, or what is equivalent to 50 inches of rainfall for the lands that will be irrigated this season.  
 In addition to some 600,000,000 feet of Klamath Indian timber advertised for sale ten days ago, 350,000,000 feet more has been offered by the department. The latest offering, known as the North Marsh unit, is practically all western yellow pine, for which a minimum of \$4.50 a thousand feet is asked.

 Captain George Mayo, corps of engineers, United States army, in charge of the first Oregon district, received word from Washington, D. C., that the award of the contract for \$86,000 tons of rock for use on the Coos bay jetty had been approved. The contract was awarded to the Hauser Construction company.

 The Guardian Life Insurance company, incorporated under the laws of New York state, brought suit in the Douglas county circuit court against Roy A. D'Autremont, alleged Siskiyou train robber, and Miss Dorothy Wilberg, clerk in a Roseburg confectionery. The suit is to annul four insurance policies, amounting in all to \$5000, alleged to have been taken out in favor of Miss Wilberg by D'Autremont prior to the train robbery and murder in which he is believed to have participated.  
 Installation of measured or meter service on all business telephones in the city of Portland; reduction of rates on all farmer lines with the exception of those radiating out of Portland, Salem and Eugene; regrouping of exchanges affecting Albany, Heppner, Hermiston, Prineville and Woodburn, and elimination of alleged inconsistencies existing in the rates between Portland and Oswego and Portland and Milwaukie, were the outstanding features in a order issued by the public service commission affecting the rates of the Pacific Telephone & Telegraph company.  
 Liquor dealers and bankers of the middle west were named in a \$100,000 suit filed in the federal court in Portland by John S. Coke, United States attorney, to recover money lost by the government on an alleged dummy entry scheme. The government asserted that it has lost the money through the operations of a scheme to defraud in connection with some of the best timber lands in Baker and Union counties. Defendants were: T. F. Mackmiller, ex-saloon man of Iron River, Wis.; Mrs. Mackmiller, M. R. Woodward, ex-saloon man of La Grande; R. A.
