In order that the plays can be fully understood and enjoyed the acts are to be explained in English by stereopticon pictures. Several French songs are to be given by the members of both classes. The proceeds go towards the fund which is to be raised for the construction of a gymnasium. The general admission will be 25c, reserved seats 35c and children 15c.

the week ending March 27, according to a report prepared by the state industrial accident commission. The victims were: William Hayman, Knappa logger; Sam Strick, Reedport, rockman, and James Albert Dunn, Baker, hooker. A total of 594 accidents were reported during the week.

I. H. VanWinkle, attorney-general, has sent to the secretary of state a legal opinion in which he held that a state treasurer is to be elected in Oregon this year. The opinion was sought by Secretary of State Koser. The attorney-general has held that the term of Jefferson Myers as state treasurer expires January 1 of next year, and not in the year 1927, as indicated in the commission issued by Governor Pierce.

After directing the calling for bids on road work in half a dozen counties and awarding a couple of contracts, the highway commission adjourned its meeting in Portland to meet again April 29. The most important road job in prospect is the grading of a section of the Roosevelt coast highway from Brighton to Jetty creek, in Tillamook county, which will permit free flow of beach traffic from Clatsop county to the Linn county line.

Because of reports received in Salem that the foot and mouth disease again has infected a number of districts in California, the state livestock sanitary board caused Governor Pierce to issue a proclamation placing additional restrictions on the shipment of livestock and other commodities into Oregon, and providing for the disinfection of sheep shearers and other persons who, because of the character of their employment, might be carriers of the disease.

Weather conditions are normal in the Crater lake region. Because of recent snow storms a shortage of water for irrigation and other purposes which had been feared for the coming summer is not now probable, according to Colonel C. Q. Thompson, superintendent of Crater lake national park. Colonel Thompson says storms during the last ten days have added to the depth of snow in the higher altitudes, and at present there is ten feet of snow at the rim of the lake.

Even though the courts should declare unconstitutional the state income tax law enacted by the last legislature, those who have paid the tax may lose their money, as there is no way in which they can recover from the state, is the intimation given out at the attorney-general's office in Salem. It was pointed out, however, that if a person affected by the law pays his tax under protest and obtains a formal receipt from the state tax commission he probably would be in a position to recover the amount of money paid.
