What's the Matter With Albany?

(E. Firchau in Democrat)

Anything wrong with Albany? Oh, no. Albany and Linn county have the most fertile soil and the most beautiful country in the world. I predict that Linn county will soon become famous on account of the wonderful "pull-together system" which is spreading to other counties and will soon spread all over the west and in time will come to supercede the league of nations and become a brotherhood of men, the cradle of which was Linn county.

A Call for Oregon Cows

O. A. C., July, 1924.

Oregon dairy cattle are in demand to fill large orders from California dairymen and farmers who suffered losses in the recent epidemic of foot and mouth disease. The extension service has been asked to help locate stock for sale and up to the qualifications. The county agents will help owners of such stock get in touch with the California market.

Oregon dairy stock in general is able to measure up to the standards, and the cows in the cow-testing associations show a consistent margin over the requirement of 300 pounds of fat a year per cow. Much of the best Oregon stock has also been tuberculin tested and found to be low in percentage of reactors.

The California demand is for cows b. tested in herds under state or federal supervision, and for cows in cow testing associations. If not in supervised herds each animal in the herd must be tuberculin tested and if more than 10 per cent react no animal will be taken from that herd. Owners reporting stock for this sale are asked to give breed, number of animals in each, average price, and other items called for. High grade Holsteins and Guernseys are sought, and probably later good Jerseys and Ayrshires. A trainload is wanted at first, and later several more will probably be called for.

Miss Winnifred Rose has succeeded Inga Hauge as proprietor of the Marinello beauty parlor at Albany, listed in our directory of that city.
