Linn County School Children Will Compete at the Fair

Tempting Prizes, a Spectacular Pageant and an Address by the Governor on Opening Day

Small things are often more important than great. Little people are of more importance to the country than big ones. "The child is father to the man," and, as the race progresses, each generation has more important duties to perform than its predecessor.

The boys and girls are the most promising crop that is being produced, and it is fitting that the county fair should make them the principal feature of its opening day. An advertisement on page 5 calls attention to this most attractive event of the four-day agricultural and industrial demonstrations.

Mr. Gilkey, fair manager, writes regarding this unique attraction:

"I am sparing no effort to make this day's program complete because it is next my heart, and I feel sure that every man and woman in the county who loves a child (and few there be who do not) will back me to the limit in making this the gala day of our fair.

"We are building for the future when we feature our girls and boys." Mr. Gilkey has evolved a stunt of refreshing newness which ought to enlist the enthusiasm of every child and the support of every parent, and

which bids fair to outrival in interest any previous specialty.

Governor Pierce will address the gathering at the grand stand after the parade and the Albany high school and state training school bands will furnish music.

The Albany chamber of commerce will provide doughnuts and ice cream for the youngsters.

The county high schools, the rural schools, the city grade schools and the Albany grade schools will constitute four classes, to each of which will be awarded three prizes, a silver loving cup, a silver shield and a diploma.

Go in and win one of these twelve prizes, and have a jolly good time.

Women's and men's wear, from head to toe, will be shown on living models at the county fair on Thursday and Friday evenings, Sept. 18 and 19. The shows will be preceded and followed by the two parts of a pageant under direction of Mrs. Charles Childs and admission for the two evenings will be \$1. Season tickets to the fair do not admit to this feature. The W. C. T. U. is selling the tickets for a commission, which goes to the children's farm home.

Dr. Joseph E. Hall, former state commander of the G. A. R., was elected surgeon general of the G. A. R. at the fifty-eighth annual encampment in Boston.

E. Dore is critically ill in Reedsport as a result of drinking a quarter of a pound of commercial ether, which he purchased, he said, for use in starting an automobile.

Picking of fuge hops is under way in Oregon and so far the yield is coming down lighter than usual. Picking of clusters will start about August 25, earlier than customary.

Two persons were killed and three injured when an automobile driven by James Beattie, 27, left the highway and overturned at Johnson's bridge, five miles east of Tillamook.

Dr. W. H. Lytle, state veterinarian and secretary of the state livestock sanitary board, is in Des Moines, Ia., to attend a national convention of livestock sanitary board officials.

It will require 363,233 pamphlets containing the various measures to go before the voters of Oregon at the November election to supply the demand under the law, according to a statement issued by Sam A. Koser, secretary of state. Arguments for and against the measure also will be contained in these pamphlets. Mailing of the pamphlets began Monday. There are four proposed constitutional amendments and three measures to be referred at the fall election.

Men have been burned by an incompetent and careless X-ray operator; medicine ordered by the doctors has not been given despite numerous demands for it, and some nurses and orderlies have slept at their posts while sick men called for attention. Patients of the United States veterans' hospital No. 77 in Portland charged in the course of an investigation started by the American legion, looking toward the removal of Dr. Frank N. Gordon, superintendent, and Dr. C. A. Tinney, receiving officer.

Accompanied by representatives of the United States fire service and members of his own company, R. A. Booth of Eugene, president of the Ochoco Timber company, was in the timber of Crook county on a mission of investigation with a view to buying the government holdings in the Ochoco national forest, which adjoins those of the Ochoco Timber company. Governor Pierce sent a letter to Sam A. Koser, secretary of state, seeking to borrow \$25,000 from an appropriation authorized at the last session of the legislature with which to meet current demands on the state penitentiary revolving fund. The legislature at its last session created a revolving fund of \$100,000 for the penitentiary, and also voted a fund of \$50,000 from which the prison could borrow if there was not sufficient to carry on the work of the institutional industries. The letter said that practically all the \$100,000 fund had been exhausted and that the \$25,000 additional was needed principally to pay for flax straw for the state flax plant.

Come on Boys

OF COURSE, no boy will really test his shoes with a saw, an auger or a chisel, but it does seem so, especially when mother just finished lecturing about the care of new shoes and father just paid the bill. And to make boys take care of their shoes all the time would be to take half of the joy out of their lives.

The solution of the problem is to buy WEYENBERG SHOES at the start

They "Stand the Gaff"

Weyenberg Boys' Shoes are made "All Solid Leather"—cut from the best part of the hide. They are not made like so many boys' shoes, from the culls or left-overs of leathers used for men's shoes. That's the reason Weyenberg Boys' Shoes wear so much longer and better than other shoes. The boys like them because they "stand the gaff."
