"Going Over the Top" at the Exposition

The Pacific International Livestock Exposition is an educational institution. Its exhibits are brought for the purpose of teaching the public something of the work done toward perfecting animal life for the benefit of mankind.

But if, while learning this lesson, one may have a good time, it is so much the better. There is one unique part of the Exposition which delights and charms the public more than any other, and that is the horse show.

It used to be the Night Horse Show, but so popular did it prove and so great were the crowds that came to see it that matinees were added in the afternoons of the last three days. Last year it was asserted by visitors who attended the great horse shows of America every year, that the Pacific International was surpassed in

variety of performance and excellence by no other horse show in America.

Some of the finest show horses in America were at the 1923 show and they gave performances worthy of their reputation. This year even more elaborate preparations have been made for the show. Some wonderful horses, both for form and action, are to be here. There will be shown all the gaits, and all the feats possible within a horse show arena.

Rapidly this show has come to the front and today it enjoys an astonishing reputation. The blue ribbons it grants for conformation and performance are eagerly sought by the best drivers and owners of this country. It is assured already that the show this year will surpass in brilliance and thrilling quality and class all its predecessors.

The spectacle of industrial exhibits will be one of surpassing beauty. In a blaze of light, every color of the rainbow will be blended to express and emphasize the quality of the fruits and vegetables, the wares of every kind, to be exhibited. The best music obtainable will be supplied every afternoon and evening. The Manufacturers' and Land Products Show and Grain and Hay Show under the management of C. D. Minton, the Dairy Products Show in charge of L. B. Ziemer and other features deserve more than bare mention but space forbids.

The Pacific International Livestock Exposition affords every man, woman and child both education and enjoyment. It is held at North Portland November 1 to 8 inclusive.
