

News Notes From All Over Oregon

Gleaned by the Western Newspaper Union

A marriage license was issued at Eugene to James F. Smith, 50 years old, and Olive May McCue, 15.

With over 100 out-of-town delegates present, the annual southern Oregon older boys' conference was held in Roseburg.

J. T. Parks, aged about 25, was killed in a Booth-Kelly logging camp near Wendling when a line broke and decapitated him.

A bounty of \$10 for adult coyotes and \$2.50 for pups will be paid by Douglas county for all coyotes killed within the county.

An open competitive civil service examination for applicants for appointment as postmaster at Crane, will be held February 14.

Humphrey Anderson was so badly injured in a cave-in at the Skyline mine, a few miles from Ashland, that he died two hours later.

The Oswego plant of the Oregon Portland cement company produced \$41,862 barrels of cement during the two years closing December 31, 1924.

Legislation for improved roads already signed by President Coolidge gives the park service \$1,000,000 for which \$68,000 has been allotted to Oregon.

The Owen-Oregon Lumber company has started its Medford mill plant on a double shift, thus furnishing additional employment to nearly 150 men. Later the plant will run three shifts.

After waiting for more than 40 years to ride into Burns on a train, Joe Barnes had his ambition satisfied last week when he arrived in Burns from Juntura via the O-W. R. & N. railroad.

Seventeen federal farm loan associations were invited by the First National Farm Loan association of Lane county to send delegates to a district meeting to be held in Eugene Wednesday and Thursday.

Senator McNary has recommended to the department of agriculture that onions produced in the vicinity of Mount Angel be inspected on the same basis as potatoes, according to a telegram received at Salem.

Construction work began Monday on rebuilding the span of the Southern Pacific railway bridge at North Bend, which was damaged beyond repair when it was struck by a steam locomotive in 1914.

A marker on the site of the first house in Portland, a cabin built by a veteran of the war of 1812 on the west side of the river in what is now the south part of the city, will be erected by Boy Scouts and unveiled February 14.

A. F. Courter, a Falls City hardware dealer, lost a diamond from a ring while shutting up some chickens in his back yard. Sunday one of the fowls was killed for dinner, and upon dressing it Mr. Courter found the lost diamond in its gizzard.

Applications from 33,986 ex-service men for cash bonus or loans have been received since the establishment of the world war veterans state aid commission, according to a report filed with the legislature by Major W. P. Simpson, secretary.

Dr. Walter H. Brown of Richmond, O., accompanied by Mrs. Brown and two children, has arrived in Salem to assume charge of the five-year child health demonstration assigned to Oregon under the financial sponsorship of the commonwealth of New York.

Reports from farmers living in the western part of Polk county show that approximately 50 per cent of the grain was killed in the cold spell in December. This will make re-seeding necessary in the spring. Conditions in the eastern part of the county were reported much better.

Because of embarrassment at the government rock quarry on North Coos river and sloughing of much overburden during the wet weather, amounting to at least 7000 yards, work on the south Coos bay jetty was suspended by Lieutenant E. H. Bowley of the government service and 22 or 23 men will be out of employment for a month or six weeks. Suspension was caused by shortage of material for carrying on rock on the jetty.

A petition has been filed with the state public service commission by residents of Brownsmead, a community comprising about 75 families about 16 miles east of Astoria, asking that the Pacific Telephone & Telegraph company show cause why it should not extend its lines to Brownsmead.

During the biennial period, October 1, 1922, to September 30, 1924, a total of 1269 applications for school lunch loans was received by the state lunch board, according to the report of the

department filed with the legislature. Of the applications received \$121 were approved. These loans aggregated \$2,185,708.

One hundred and eighteen mills reporting to the West Coast Lumbermen's association for the week ending January 10 manufactured 99,939,008 feet of lumber, sold 79,252,962 feet and shipped 80,963,540 feet. New business was 18 per cent below production. Shipments were 2 per cent above new business.

Sealed bids received by theighthouse department for the repair of aids to navigation in the lower Columbia river, which were damaged by ice floes several weeks ago, have been submitted to the department heads at Washington, D. C., and it is expected that the contract will be let within a few days.

A senate bill which would authorize the secretary of the interior to withhold approximately 7000 acres of land in Oregon for use of the Umatilla Indians for grazing purposes, was favorably reported by the house Indian committee. The tract formerly was a part of the Umatilla Indian reservation.

Bluestone Used for Sheep-Worm Control

Government Demonstrator Attracts Many Sheepmen.

A demonstration of the bluestone or copper-sulphate treatment of sheep for the riddance of stomach worms attracted over 70 sheepmen in Wapelli county, Iowa, according to a recent report to the United States Department of Agriculture.

Experimental work in the practice of control of stomach worms is being carried on by the department at Queen City, Mo., where about 2,000 sheep of a dozen farms have been made available by the owners for the use of the specialist in charge of the investigations. The problem of stomach-worm control has been under investigation the last eight years at Vienna, Va., and the copper-sulphate treatment is the most satisfactory means of preventing losses from stomach worms yet discovered.

After two years of experimenting at Queen City, Mo., Dr. E. M. Nighber states that almost complete control of the stomach worms of sheep in the Middle West can be secured by the copper-sulphate treatment, and that a slight expense profits in the production of mutton, wool, and breeding stock can be greatly increased by the treatment.

Sprouting Oats in Bags Is Most Practical Plan

This time of year when green food is dry and fibrous, sprouted oats is almost a necessity for laying stock. Two quarts of dry seed oats is sufficient for 100 hens. Place this in a muslin bag, made pillow-shape, and soak all night in a pail of water and preferred. In the morning, tear, tepid and kitchen range will hang up below.

Each evening for five days, place a bag of the required amount of oats soaking; once daily dip in tepid water shake and stir thoroughly to prevent heating. On the fifth day the first batch is ready to feed.

One good-sized pinch per hen is plenty. Sprouted or germinated oats should be fed in troughs or on clean boards as they are damp, and collect dirt if fed in litter. Wash the bags in hot soapuds and use over and over.

Protein Feed Lacking

Few farmers who are raising poultry on a comparatively large scale have enough buttermilk or skim milk so that they can supply the protein needed in a ration made up of farm-raised grains by feeding these products in the way mentioned. They must, therefore, have access to protein in other forms if they would secure profitable egg production, especially during the early fall and winter months.

While Soil Still Freezes

The seeds of poppy, cornflower, cosmos, summer cypress, larkspur, snapdragon, snow-on-the-mountain and sweet alyssum may be sown on well-prepared ground just before winter for early spring germination, or on fall prepared ground very early in the spring while the soil still freezes at night, says the United States Department of Agriculture.

The Purdue laying ration with corn meal has given excellent general satisfaction. A good grade of floor middlings will give much better results than a standard middlings.

The good farmer is known by his own farm. A dairy barn doesn't need to be costly to be clean.

Plan Now Repairs to Hotbeds, Cold Frames

Early Attention Saves Worry When Rush Work Begins.

Scarcity of labor and high prices for materials are making it increasingly necessary for vegetable growers to adopt efficient methods.

In the opinion of C. H. Nissley, vegetable specialist at the New Jersey state college of agriculture, New Brunswick, it is now time to be planning for the repair of hotbed and cold-frame sashes. If this work can be done during the spare time through the winter months, it will save much worry in the spring when rush work begins.

Painting is one of the jobs that might well be started. A linseed oil, white-lead paint will do much to lengthen the life of sashes. An especially thorough job should be done at the mortised joints. Homemade putty made according to the following formulas will give very good results and can be made at a saving of money.

The following materials are used: For 2 1/2-pound lots: 5 pints of raw linseed oil, 3 1/4 pounds of white lead, 20 pounds of whiting. For 5 1/2-pound lots: 1 pint of raw linseed oil, 1/2 pound of white lead, 4 pounds of whiting. Cost per pound—seven cents, not counting labor. Thoroughly mix the white lead and oil. Stir into this mixture enough whiting to make a stiff dough. Pour this on a board which has been sprinkled with a good layer of whiting to prevent the mixture from sticking to the board. Then knead, adding enough whiting to give it the desired consistency. This putty will stay soft for an indefinite time if kept covered with water.

For those who want them, there are numerous commercial materials on the market to take the place of putty for sash work.

Dried Buttermilk Used in Egg-Laying Rations

Dried buttermilk is comparatively high in price, but its feeding value is also high and can be used to advantage in egg-laying rations. Here is a mash recommended by Iowa State college, which contains dried buttermilk: One hundred pounds finely ground corn, 100 pounds finely ground oats, 100 pounds wheat bran, 100 pounds flour middlings, 30 pounds dried buttermilk, 20 pounds bone meal, 50 pounds 60 per cent tankage, 5 pounds salt. In connection with this mash the college recommends 200 pounds shelled corn and 100 pounds oats for the scratch grain. In fact, that is the scratch grain the college almost always uses for its layers. There are times when wheat bran and flour middlings may be relatively too high in price to make them economical feeds. When that obtains more ground oats may be fed than is recommended in the ration mentioned. For example, 150 pounds ground corn and 250 pounds finely ground oats, together with the dried buttermilk, tankage, bone meal and salt mentioned, would perhaps give equally good results.

Order Chicks Early

The poultryman who desires chicks for next spring delivery should be looking around for a poultry breeder who sells chicks of good quality. Many a man is forced to go without chicks or to accept later hatched chicks than desired because he has been too slow in placing his order. Place your order early and you will receive what you want.

Trees Need Sunlight

Branches headed back a distance from the lateral, or stubbed back, will send out a lot of sprouts, covered by summer with leaves, and the tree will be so densely covered that sunlight cannot strike into the tree, hence the branch area will be much reduced. If you have to take out a whole branch, or practically the whole thing, it is generally good practice to cut clear back to the parent branch.

There is Distinction in Glasses as well as in Clothes.

You probably have the correct hat for business or dress occasions. We have the correct glasses.

Idaho Wants to Keep Waterpower

Boise, Idaho.—Both houses of the Idaho legislature passed a bill to prevent the waters of north Idaho lakes and rivers being appropriated for irrigation or power uses outside the state. It defeats development of the Columbia basin project in Washington if undertaken at the expense of Idaho.

Under present laws there is nothing to prevent appropriation and impounding of Idaho waters by outside interests, and it was made plain at a conference of state officials of northwest states at Spokane recently that both irrigation and power interests of Washington intended to take steps toward storage of water in various lakes and streams of north Idaho for their benefit. The waters affected are lakes Pend Oreille and Coeur d'Alene, and St. Joe, Clarks Fork, Pend Oreille and Spokane rivers.

Many a farmer could send his kid to college on good dairy cows.

Farming becomes more interesting as it becomes more intelligent.

Green feed, such as sprouted oat-cabbage, turnips, beets and rape, are necessary for the health of the pullets.

School Notes

The Halsey high school girls' basketball team went to Lebanon Friday evening and encountered the Lebanon girls on their home floor. Halsey was defeated by a score of 19 to 5.

In this game the guards, Willmina Corcoran and Grace Pehrsson, were given a good chance to show their "sticking qualities," which opportunity was denied them in their first game of the season. Marjorie Walker, left forward, again carried away the honors by making all of the points of the final score. At the first half the score was 15 to 3. However, during the last half the Halsey team held its opponents down to 3 points.

The Lebanon players were: Guards, Lierly and Rickles; centers, Miller and Randle; forwards, Summers and Anderson; substitutes, Klemin and Dens more. The players in the Halsey team were: Guards, Grace Pehrsson and Willmina Corcoran; centers, Chandler and Williams; forwards, Walker and Hayes. The referee was McNeil of Halsey and the umpire O'Brien of Lebanon. After this game the players enjoyed watching a close contest between the boys' teams of Stayton and Lebanon. Later in the evening a reception was held for the players in the home economics building.

(By an Enterprise Reporter)

The Halsey girls met their defeat at Lebanon Friday night but still hold to that old saying: "One defeat doesn't make a basketball season." The score was 19 to 5 in favor of Lebanon. The Lebanon girls have a very good team. The floor is also large and makes a fine gymnasium, something that Halsey needs very much.

The Halsey boys played a practice game Friday night. As no score was kept it is presumed both sides were victorious.

The Study Club

A meeting of the Women's Study club was Thursday afternoon at the home of Mrs. C. P. Stafford. Members responded to roll-call with interesting facts about Alaska. The lesson, on Alaska, was given by Mrs. J. W. Drinkard. Mrs. Muller had charge of the constructive art and talked on "The Friendly Background of Your Home." Mrs. English gave two piano selections.

The library committee was instructed to purchase new books for the pay shelf. Mrs. D. S. McWilliams of Albany, a charter member, was an honor guest. Mrs. Marks and Mrs. Walton assisted the hostess. The next meeting will be Feb. 5, with Mrs. A. A. Tusing.

Halsey Happenings etc.

(Continued from page 1)

G. J. Rike and wife went to Albany today.

Mrs. Florence Hale of Brownsville took today's train for Eugene.

Mrs. J. W. Drinkard and Mrs. C. P. Stafford visited Salem yesterday.

Miss Mearle Straley was on the sick list last week and Mrs. George Starr took her place as teacher at

the schoolhouse on the Brownsville road.

W. G. McNeil has a new car. Wool is still climbing in price. Hop prices have about doubled within the year.

Miss Alberta Koontz spent the week end with home folks. Halsey high and Oakville will try conclusions at basketball at Rialto hall Friday night.

A. E. Foote went to Junction City yesterday and brought Mrs. Foote home from her visit at her parental home.

Fred Jackson, now a guard at the penitentiary, returned to Salem Tuesday, after a visit with his parents, C. C. Jackson and wife.

Some cats and dogs have been successful in their hunt for mice.

A. C. and L. H. Armstrong started the new year with a new farm tractor—a team that eats no hay or grain when idle.

"Sixty years in business on First street," says the Blain Clothing company, and its anniversary sale is in our advertisements again. Note the "60" in nearly every price quoted.

Mrs. P. T. Long and Mrs. L. T. Evans of the Tennessee district, near Lebanon, were drowned yesterday morning when the car in which they and their husbands were going to Albany skidded into the Albany canal.

A little better price for farm products and a little increase in the number of farmers. The census of the north and south sections of Shelburn precincts shows 295 families and farms, which is 15 more than ten years ago.

A. D. Gillette visited at W. A. Carey's last week, returning to his

home at Cottage Grove Wednesday.

Earl Carey went to Roseburg today. W. J. Carey is in town from Eugene.

Carl Hill was home for the week end with home folks. Miss Ida Jackson left Thursday morning for Raymond, Wash.

C. P. Moody and wife got home last night from a Portland visit. Miss Mary Carey went to Salem last week to care for her grandmother, Mrs. Stone, who is ill.

Miss Josephine Durst of Lebanon arrived Thursday and was the guest of Mr. and Mrs. Jess Sailey.

Mrs. E. W. Shedd came down from Shedd Thursday to attend the meeting of the Women's Study club at Mrs. C. P. Stafford's.

W. A. Falk got word today of the death of his sister-in-law, Mrs. Vera Stern, at Nampa, Idaho. She was known here years ago as Miss McNeese.

The Globe theater advertises "So Big" a play "coming soon." The story on which it is based is one of the best ever written, and one especially appealing to ambitious farmers. We hope to give it to Enterprise readers as soon as the present and unusual serial is completed. See the play, if you can, and then read the story.

Mrs. Pearley True considers herself cured of cancer and is now taking treatment to overcome undesirable results of the X-ray, which is a much better condition to be in than to have a cancer and know that it is incurable, as millions have done in the past. Mrs. True was a passenger to Salem today.
