News Notes (Continued from page 1) Oregon City has filed a claim against Clackamas County for the recovery of \$39,836.49, alleged to be due the city as a part of the regular tax levy during the last six years for the general road fund. The treasury department has refused authority to the combined convention committee of Portland to erect a temporary building on one corner of the old postoffice building grounds to be used as a place for registering convention guests. Reporting mills of the West Coast Lumbermen's association showed a favorable condition for the week ending March 7, as new business was 9 per cent above production and 6 per cent above shipments. Production of 119 mills was 99,837,520 feet; shipments were 102,086,234 feet and bookings aggregated 109,006,109 feet. The certification of bonds by the state board of control for both the Mallin and Shaeta View districts means that active construction work can now proceed without interruption and the many acres in these two projects soon will be under irrigation. The two projects include about 8000 acres, with construction work cost approximately \$200,000. The personnel of the committee authorized by the recent legislature to investigate and recommend improvements in the workmen's compensation law, has been announced. The committee is composed of Senators Gus Moser, W. W. Banks and Charles Hall and Representatives Denton Burdick, John Coffey, Lloyd Reynolds and W. V. Fuller. Colonel Creed Chesire Hammond, infantry reserve, Oregon national guard, has been appointed chief of the bureau of militia affairs, war department, with the rank of major-general. The appointment is for four years, from June 29, 1925. Colonel Hammond has been assistant chief of the bureau for three years. He succeeds Major-General George C. Richards. Three fatalities due to industrial accidents in Oregon occurred during the week ending March 12, according to a report prepared by the state industrial accident commission. The victims included Wesley Carlisle,

The solution will appear in next issue.

Bridge, timber tapper; Robert Crum Aoy, Florence, donkey engineer, and N. C. Michels, Oregon City, chief electrician. A total of 516 accidents was reported. Oregon pensions have been granted as follows: Gerard Garritsen, Portland, \$12; Elizabeth Swan, Tigard, \$30; Harry O'Brien, Portland, \$15; Mariha R. White, Portland, \$30; David Piles, Hood River, \$12; William Schonbein, Portland, \$15; James E. Miller, Halsey, \$12; Sarah Howell, Springfield, \$30; minor of Oscar D. Wheeler, Eugene, \$30; Charles B. Prewitt, Portland, \$18; Myron E. Phillips, Dufur, \$12. The contract for surfacing the Bandon-Sixes river section of the Roosevelt coast highway in Coos and Curry counties was awarded by the state highway commission to Simonson & Hefty at \$74,212. The contract calls for 11.2 miles of resurfacing between Bandon and the Curry county line, 4.8 miles of surfacing between the Curry county line and Denmark, and 5 miles of resurfacing between Denmark and the Sixes river. Haps Lovvold, a prominent Astoria resident, entered a plea of guilty in federal court in Portland to a charge of violating the tariff act of 1922, through the importation of contraband goods into the United States, and was fined \$1000 and sentenced to three months in the Multnomah county jail. Lovvold was charged by the government with having brought 100 cases of whisky and 10 cases of beer to Astoria from Willapa harbor. The so-called Magludra bill passed at the recent session of the legislature, providing for the protection of motor vehicle owners through the registration of titles, probably will necessitate a special meeting of the state emergency board to authorize a deficiency appropriation of between \$50,000 and \$100,000. It was announced by the secretary of state that the administration of this law would cost the state department more than \$50,000 during the first year of its operation. No appropriation was provided in the measure to care for this expense. Members of the state judicial council, which was reauthorized at the recent session of the Oregon state legislature, were appointed by Chief Justice Thomas A. McBride of the supreme court. Members of the council include John L. Ranz, justice of the supreme court; Fred S. Wilson, circuit judge of Wasco county; C. M. Thomas, circuit judge of Jackson county, and Walter H. Evans, circuit judge of Multnomah county. The purpose of the council is to investigate and recommend uniform and more simple rules of judicial procedure in the Oregon courts. Mr. and Mrs. Percy Taylor and infant daughter Betty Ione and Mrs. Frank Warkinger and children were callers at the Peter Freerksen home Sunday.

MRS. O. D. OLIPHANT

WM. M. JARDINE

Mrs. O. D. Oliphant, who is national president of the American Legion auxiliary.

William M. Jardine, president of Kansas State Agricultural college who was named secretary of agriculture by President Coolidge.

School Law Before the Highest Court

Washington, D. C.—The compulsory education law of Oregon, requiring that after September of next year all children between the ages of 8 and 16, with a few exceptions, shall attend public schools, was reached in the supreme court Monday for oral argument in two cases brought by the state to have set aside the injunction of the federal district court against its enforcement. Although it was thought the cases might not bring a sweeping opinion from the court on the constitutional right of states to control the education of children within their borders, the controversy has attracted wide attention in education and religious circles. The array of counsel brought into court included former Senator George E. Chamberlain, W. S. Moore, A. H. Putney and P. Q. Nye for the state, William W. Guthrie, for the society of the Sisters of the Holy Names of Jesus and Mary, and John C. Veatch, for the Hill Military academy.

Still Hope for Arms Parley

Washington, D. C.—While awaiting more complete and authentic advices concerning the disarmament situation abroad, President Coolidge believes recent developments there as already indicated have opened the way to a more definite approach to the project of another arms limitation conference to be entered by the United States. At present Mr. Coolidge favors submitting his project simultaneously to the various powers. This step would involve action by the American ambassadors in London, Paris, Rome and Tokio under instructions given them by Secretary Kellogg. The procedure at that stage would be for the diplomatic representatives in the four countries to ascertain and report to Washington the reactions of the various governments.

Albany Directory

This is good advice: "If you live in Albany, trade in Albany; if you live in some other town, trade in that town." But in these automobile days many residing elsewhere find it advisable to do at least part of their buying in the larger town. Those who go to Albany to transact business will find the firms named below ready to fill their requirements with courtesy and fairness.

Coolidge Stands Pat So does Senate

President, Without Comment, Again Submits Mr. Warren's Name to the Senate.

Washington, D. C.—President Coolidge threw down the gauntlet to his opponents in the senate by again submitting the nomination of Charles B. Warren to be attorney-general. Without a word of comment, the president sent the nomination back to the senate although it had been rejected 40 to 40, Vice-President Dawes failing to reach the capitol from his hotel in time to cast the deciding vote. The president announced that he would give Warren a recess appointment as attorney-general if the senate again refused to confirm him. The nomination was again referred to the judiciary committee and an adverse report was ordered by the committee. The vote was nine to seven. Twice previously the nomination had commanded a majority in the same committee. All of the democrats and Senators Borah of Idaho and Norris of Nebraska, republicans, voted against a favorable report.

Germany Invited to Join the League

Move Thought Significant in Developing Future Harmony in Europe.

Geneva.—The league of nations council, closing the most important meeting in its history with what is generally admitted to be a constructive move of great significance for future harmony in Europe, adjourned after expressing a sincere wish to see Germany associated in its labors by joining the league and thus play in the organization of peace a part corresponding to Germany's position in the world. This action is deemed significant because it represents the first word addressed to Germany by the allies on a basis of perfect equality. Germans here following the council proceedings are openly pleased at the phraseology of the letter which the council has sent to the Berlin government. The league of nations disarmament and security protocol, put out of present consideration, at least, by the rejection of it, voiced by Great Britain on behalf of herself and all her dominions except Ireland, was referred by the council of the league to the next league assembly, together with the pronouncements made upon it by the British and representatives of other powers.

Frost Damage in Washington Severe

Olympia, Wash.—That the frost damage to fall wheat in eastern Washington, due to severe winter freezing, was decidedly spotted, but from present indications would aggregate a very heavy loss to the growers, was the report brought back from Spokane by R. R. White, assistant supervisor of agriculture of the state department. In the northern part of the wheat belt, said Mr. White, there was sufficient snow to give the necessary protection and prevent heaving of the ground and winter kill. Practically all other sections, however, suffered more or less severely. The wheat belt as a whole, however, has suffered heavily, in some sections it being estimated at 100 per cent kill. It is almost unprecedented for rye and alfalfa to winter kill, yet both crops have suffered severely in certain localities. Although it is too early to determine the full amount of damage to alfalfa, it is already apparent that it will be severe enough to affect materially the local price of alfalfa next fall. About 1,800,000 acres had been sown to fall wheat in this state. Roughly estimating, on the face of present reports, that at least 50 per cent of the acreage will have to be reseeded, a very heavy loss results.

Canada Supports British Attitude

Ottawa.—Canada's government does "not consider it in the interest of Canada, of the British empire or of the league itself," to recommend to parliament adherence to the Geneva protocol for the pacific settlement of international disputes, Premier King told the house of commons. The government's attitude was made known when the premier read a paragraph from a dispatch sent by him to Sir Eric Drummond, secretary-general of the league of nations. The premier's message, holding that Canada objected particularly to the protocol's "rigid provision for application of economic and military sanctions in practically every future war," added: "Among the grounds for this conclusion is the consideration of the effect of the non-participation of the United States upon attempts to force the sanctions and particularly in the case of contiguous countries like Canada."

CHICAGO MALADY ON WANE

Falling Off in Influenza-Pneumonia Cases Shown.

Chicago.—Chicago's influenza-pneumonia attack appeared on the wane, when reports to the city health department showed a marked falling off in the number of deaths and new cases. The last available record shows a total of 300 deaths since March 1. Approximately 100 new cases of the malady, which affects the respiratory organs and brings on influenza and pneumonia, were reported during the same period.

General Mitchell Loses Air Job.

Washington, D. C.—The name of Colonel James E. Fochet was sent to the White House as the war department's choice to succeed Brigadier-General William Mitchell, assistant chief of the air service, whose public utterances in the controversy over air power have kept official Washington on edge for several weeks.

Mack Powers left for Carlin, Nev., Wednesday. Mrs. Powers and little daughter, Donna Marie are spending a few more weeks with her parents, Mr. and Mrs. P. H. Freerksen, before returning.
