So Big

turnips, carrots. "And don't leave them loose like that. Tie them tight at the heads, like this. Twice around with the string, and through. Make bouquets of them, not bunches. And we're going to scrub them."

Selma, scrubbing the carrots vigorously under the pump, thought they emerged from their unaccustomed bath looking like clustered spears of pure gold. Jan, by now, was sulen with bewilderment. He refused to believe that she actually intended to carry out her plan. A woman—a High Prairie farmer's wife—driving to market like a man! Alone at night in the market place—or at best in one of the cheap rooming houses! By Sunday somehow, mysteriously, the news had filtered through the district. A fine state of things, and she a widow of a week! High Prairie called at the DeJong farm on Sunday afternoon and was told that the widow was over in the wet west sixteen, poking about with the boy Dirk at her heels.

By Monday afternoon the parlor curtains of every High Prairie farmhouse that faced the Halsted road were agitated as though by a brisk wind between the hours of three and five, when the market wagons were to be seen moving toward Chicago.

Receivers for St. Paul Railroad Named

Chicago, Ill.—Application for a receivership for the Chicago, Milwaukee & St. Paul Railway company was granted in the United States district court. The receivership is the climax of weeks and months of uncertainty marked by steady and heavy declines of the market quotations of the road's securities as to the refinancing of the \$48,000,000 of 4 per cent bonds due next June. Under the receivership a drastic reduction in the capital structure now exceeding \$700,000,000 is expected.

California Hard Hit

Delos Wesley got home from California Thursday. During his stay of about three weeks a couple of sons took him about the state a good deal in their cars.

There has been scarcely any rain in the southern part of the state, and this follows the record drouth of last year. The "rainy season" is now past and many farmers are hopeless of any crop worth harvesting. Water for irrigation will be short in supply and many large towns will find the domestic supply a problem.

Added to the drouth has been the unprecedented cold of the past winter. In Los Angeles county Mr. Wesley saw the ground covered with frozen oranges in many large areas.

A "Busted" Boom

(Scio Tribune)

The coming to Scio of the gentlemen who composed the Thomas Creek Lumber Co. was hailed with delight. It was felt that real lumbermen had now taken hold of a worth while sawmill and would make good.

The company was composed of J. K. Elder, Claude Hickey and A. W. Sharpe. The former had himself elected treasurer, and from reports he made a good one—for himself.

Hickey and Sharpe have been made the "goats" of the company, and when the 10th of March rolled around and no checks came, Mr. Hickey went to Portland to see why, but he could get nowhere with Elder, and on Wednesday Mr. Sharpe went down. By this time Elder had dropped out of sight.

Halsey Never Licensed Saloons

It was good for sore eyes to see how many young people arose in the assemblage at the church of Christ last Thursday night when Mr. Herwig asked those to stand who had never seen a saloon, but a fact which perhaps the gentleman himself didn't know was that nobody ever saw an open saloon in Halsey since the burg was incorporated. No city council would license one.

There were blind pigs once or twice, but, like most pigs, they were short lived. One of the keepers, under the influence of his own medicine, committed a cold-blood murder and was hanged.

Outstanding points stressed by Mr. Herwig were that more people and more commonwealths in the union—all but the little states of Connecticut and Rhode Island—indorsed the prohibitory than any other constitutional amendment; that the persistent and well-financed efforts of the whiskyites to weaken the law only resulted in making it stronger, both at Salem and at Washington, and that the greatest need of enforcement officers is the presence in the courts of law-abiding men and women to prevent the packing of juries with bootleggers.

Miss Emily L. Loveridge, superintendent of the the Good Samaritan hospital, Miss Louise Dannals and Miss Helen Van Cleff, graduate nurses, and Dr. Max Simons, all of Portland, visited Mrs. Marcella Kirk Saturday afternoon.

On the evening of March 17th twenty-five neighbors of Mr. and Mrs. Chancy Sickels surprised them, it being Mrs. Sickels' birthday. The evening was spent playing card games and visiting. All enjoying themselves until late.

Charity Grange Meeting

Charity grange held its meeting Saturday, the 21st, at the hall, near Bond's butte. After the regular business in the morning a recess was called for dinner and all repaired to the dining room, where tables were groaning under a load of good things to eat. It wasn't long before they (the tables) got relief.

After dinner the grange was called to order and the lecturer, Sister Lena Veatch, had charge of a good program. Several visitors were present and assisted. There were songs, discussions and comic dialogs.

Curtis Veatch, Francis Kizer and Mina Fruitt were appointed committee to arrange for the annual picnic and have charge of the same.

An invitation from Creswell grange to meet with them on Saturday, the 28th of March, was accepted.

P. H. Freerksen, Master of Oak Plain grange, invited Charity grange officers and members to meet with them on the second Saturday in April and put on the third and fourth degree work. This was accepted.

Charles Kizer and Mrs. Minnie Kizer were elected alternate delegates to the state grange at The Dalles.

Agencies Will be Merged.

C.—The consolidation of eight Indian agencies into four jurisdictions in Washington, Nevada and Nebraska with an attendant estimated annual saving of \$50,000, was announced by the department of the interior. "I don't see any use in this regulation for slowing down at railroad crossings. Anybody knows he can cross the track quicker going 30 miles an hour than he can at 15 miles. Now I am going 40 miles an hour." Funeral next Saturday.

Ira Miner had some fun Monday morning when he made nine cattle swim the river to an island pasture. Some of them swam like experts and some, after they got into deep water, turned on their sides and were towed, their heads being held out of the water by a man on a boat, with a halter.

Mr. and Mrs. Clifford Carey are spending the week with Mr. Carey's parents.
