Good Paper is Preferred to Silver

Washington, D. C. — The treasury has failed in its attempt to put 40,000,000 more silver dollars in circulation, it was announced. The silver dollar campaign, which was started last summer, in order to save the government about \$1,000,000 a year in engraving costs, has been definitely abandoned.

The silver dollar idea was sponsored by Assistant Secretary of the Treasury Dewey, who has charge of the manufacture of currency. He favored metal money because it lasts almost indefinitely while paper money constantly wears out and has to be replaced.

All the efforts of the backers of the plan have failed. It has been found impossible to educate the population of the Eastern states to use silver dollars and most of the newly issued coins have found their way back to the treasury.

FLIGHT SETS NEW RECORD

Philadelphia. — The all-metal hull PN-9 built to fly from California to Honolulu, made a new world's record for non-stop flights for seaplanes when she dipped into the Delaware river after being in the air 28 hours and 36 minutes. She came down only because she ran out of gasoline.

The flight, to test her capacity for the cross-Pacific hop, was pronounced a success in every way by naval officers.

The PN-9, observers said, flew at an average speed sufficient to carry her farther than from San Diego to the Hawaiian islands. At the end of the 28th hour it was announced she had flown just far enough to equal the distance between San Diego and Honolulu.

Magnus Johnson Wins Libel Case

Minneapolis. — A. N. Jacobs, campaign manager for United States Senator Thomas D. Schall of Minnesota in the last campaign, was found guilty of criminally libeling former United States Senator Magnus Johnson in district court here. Jacobs published an article in a local magazine stating that the former senator had been arrested and fined for drunkenness. The state proved that it was another Magnus Johnson.

Dignified United States senators think it is none of our business how they waste the time we pay them for. Mr. Dawes thinks differently and is urging voters to demand a reform.

Barrels of Fun

There were barrels of fun at Odd Fellows' hall Friday night.

To describe the program and give credit to all deserving participants would take more space than we have available, but a few high spots may be mentioned.

The most perfect acting was that of Leila Gansle as a demure matron and Vivian Frum as her gray-bearded husband.

There were also plenty of stunts by grown-ups. The dying wife who couldn't die (Mearie Straley) and her husband (Kern Miller), who failed to book Agnes Hayes as her successor in advance of the event, were among them.

Alberta Koontz pleased with some songs.

The Charity Grange quartet, Chancy Sickels, Curtis Veatch, E. D. Isom and Francis Kizer, when they responded to an encore, had a difference, Kizer insisting that there were "three beats in the measure," and finally flooring his opponents by picking up a measure and taking a beat from it with the remark, "That's one." The balance of the quartet did not wait for the full count.

Mrs. B. M. Bond was manager and Balf, being a banker, looked after the receipts.

Mr. and Mrs. T. J. Skirvin and C. P. Moody were active.

Side shows were numerous, with admission fees from 2 cents up not very high. Specimens of these were "the strong man," made of horseradish and onions, and "the cute kid" whose mamma proved to have been a goat.

There were eats which were good, and the net proceeds of the affair were about \$56.

Frank Gansle, rigged out as a clown, was everywhere.

Air for Tomatoes

Give seedling tomatoes air whenever it is possible to make them stocky. No plant goes sprindling faster than the tomato. Open the window a little way on any day when the temperature is above freezing but do not expose to cold winds. Fresh air whenever possible goes a long way toward making fine, strong tomato plants in the seed boxes and frames.
