

News Notes From All Over Oregon

Gleaned by the Western Newspaper Union for Busy People

Plans are being made for a Fourth of July celebration and race meet in Enterprise on July 3 and 4.

All union plumbers in Eugene walked out on strike, demanding a wage scale of \$8 a day instead of \$7.

Miss Pauline Kline of Corvallis was reappointed a member of the board of child labor inspectors for five years.

The annual state convention of the professional and business women's clubs of Oregon was held in Salem.

Bankers from all sections of Oregon attended the Oregon State Bankers' association convention at Corvallis.

A record cut for eight hours was set at the Whitney company sawmill at Garabaldi when 306,540 feet of logs was cut on one headrig.

Joshua E. Hardy, 92, oldest resident of The Dalles and a wagon train pioneer of 1852, died at The Dalles from complications of old age.

Port Orford expects between 250 and 300 delegates to the Spanish-American war veterans annual convention there July 23, 24 and 25.

Auspicious snow conditions may permit the opening of the Mount Hood loop highway by the government to travel the last Sunday in June.

Despondency over unsuccessful efforts to obtain work is given by friends as the reason for the suicide at Baker of Mike Murphy, aged 40, and unmarried.

An extraordinary feat was performed by Charles Smith of Stevenson when he shot the rapids in the Columbia river at Cascade Locks in a small motorboat.

Fire losses in the state of Oregon, exclusive of Portland, for the month of May, aggregated \$468,798.32, according to a report by Will Moore, state fire marshal.

Resolutions urging the coming of both the Southern Pacific and Hill lines to Klamath county were adopted by unanimous vote at a mass meeting in Merrill.

Caught under a carload of rock which turned over, a man whose name was given as Briscoil received injuries in construction work at Odell lake which resulted in his death.

Bids for the construction of approximately 135 miles of road and a number of bridges will be opened by the state highway commission at a meeting at Portland June 25 and 26.

A 70-pound chinook salmon has been a rarity on the Columbia river for many years, but during the last two weeks a number of fish weighing more than 70 pounds and two or three more than 80 pounds have been taken.

Albert Roop, 43, a lineman in the employ of the Portland Electric Power company, was killed while working on top of a 30-foot power pole in Portland, when he accidentally touched a wire carrying 2300 volts of electricity.

Representatives of the federal power commission will arrive in Oregon late in June to confer with members of the public service commission in connection with the establishment and maintenance of federal power projects.

William Priebe, chief of the Oregon City fire department, was elected president of the Oregon State Fire Chiefs' association at the annual convention in Forest Grove, Corvallis was selected as the 1926 convention city.

Will Moore, state insurance commissioner, was reappointed to the office for a term of four years by Governor Pierce. Mr. Moore's present term expires June 30. Mr. Moore also is state fire marshal and state real estate commissioner.

The annual scholarship of \$150, awarded to a student of advertising at the University of Oregon by the Portland Advertising club, was won this year by Frank Logan of Burns and Wayne Leland of Salem. The prize was divided.

The government has finished piling on the north jetty on the Umpqua river. The distance covered is 1874 feet. R. W. Williams, resident engineer in charge of construction, estimates the rocking will be finished in another six months.

William M. Jardine, secretary of agriculture, will spend three days in Oregon on his present tour of the west. Secretary Jardine will arrive in Medford from Davis, Cal., the morning of June 25 and will leave Portland the evening of June 27.

Prices for supplies to be furnished to the several state institutions during the six-month period starting July 1 of this year show material increases over those for the corresponding period in 1924, according to bids opened by the state board of control.

Oregon's 11 state institutions had a total population of 4677 on June 1 of this year, according to reports prepared by the superintendents for consideration of members of the state board of control. The total cost of conducting the institutions for the month of May was \$116,601.99.

Suit to test the constitutionality of the law enacted at the last session of the legislature providing for the acceptance by the courts of membership cards issued by incorporated motor vehicle organizations in lieu of ball for traffic violations, probably will be filed soon at Salem.

The Crater national park office at Medford announced that the Warren Construction company was the lowest bidder for the construction of 20 miles of hard-surfaced road from Medford and Klamath entrances of Crater Lake national park to the rim of the lake. The bid totaled \$259,440.

The largest all-Oregon troop movement since the world war culminated successfully when the Oregon national guard, 2500 strong, went into encampment at Camp Jackson, near Medford. Eight special trains over the Southern Pacific carried guardsmen from every section of the state.

Alexander Gerlach, better known as "Inch-and-a-Quarter Jimmy," elusive burglar, who kept the Portland police department in hot water during a long series of house burglaries last winter, was sentenced by Presiding Judge Morrow of the circuit court to ten years in the state penitentiary.

The Oregon public service commission has accepted an invitation to participate in a hearing to be held at Helena, Mont., July 16, to consider rates on wheat shipments from Montana to north Pacific ports for export trade. At least two members of the commission will attend the hearing, it was announced.

A large number of retail grocers met at Salem and took initial steps toward organization of the "Triangle Stores." In the organization will be retail grocers from Marion, Linn, Benton, Lincoln, Polk and Tillamook counties. The stores will operate collectively, with identical fronts and under one purchasing agency.

Charles Donnelly, president of the Northern Pacific; Ralph Budd, president of the Great Northern, and W. N. Turner, president of the Oregon Trunk, headed a party of Hill line officials who arrived in Klamath Falls Saturday to look over the railroad situation in connection with the battle for supremacy in Klamath county between the Hill lines and the Southern Pacific.

Sales made by mills of the West Coast Lumbermen's association aggregated 124,639,245 feet for the week ending June 6, the highest record for any week this year. Manufactured output for the week of June 6 was 196,840,257 feet and shipments amounted to 114,731,917 feet. New business was 17 per cent above production and shipments were 8 per cent below new business.

The veterans' bureau has accepted the site for a \$1,000,000 veterans' hospital on Marquam hill, Portland. Twenty-five acres of land were tendered by the University of Oregon medical school and President Coolidge authorized Director Hines of the bureau to close the negotiations. A survey will begin at once. The hospital, of 300 beds, will be for the treatment of general patients.

The matter of forcing the North Canal company to carry out stipulations in its contract with the department of agriculture to remove timber from the Crane Prairie reservoir site has been turned over to the United States attorney-general. This action culminates a series of recommendations and investigations relative to the removal of the water-killed timber from the reservoir basin.

Oregon pensions have been granted as follows: H. Maltimore Dukes, Portland, \$24 a month; Mary H. Sears, Portland, \$30 a month; Arthur W. Griffo, Portland, \$12 a month; Benjamin Knutson, Vernonia, \$15 a month; William U. Strahm, Roseburg, \$30 a month; Ray Duncan, Coe, \$15 a month; Alfred Kinkade, Klamath Falls, \$12 a month; Parrison K. Shirk, Marshfield, \$15 a month.

Squirrel and rodent poisoning on government and farm lands in Oregon during the early spring season has gone on at a record pace this year, according to Ira M. Gabrielson, leader of rodent control for the state for the United States bureau of biological survey. Nearly 10,000 pounds of poison was mixed during May for use on government lands in the various counties, and county work on farm lands with the co-operation of the government is progressing rapidly.

22 Land Office Jobs Abolished. Washington, D. C.—The offices of 22 receivers of local land offices in 11 states were ordered abolished Monday by the interior department. The work of the receivers will be taken over by the registrars of the offices and the department estimates a saving of \$50,000 a year will result.

JOHN MARSHALL

John Marshall of Parkersburg, W. Va., who succeeded Rush L. Holland as assistant attorney-general.

FLORENCE L. SABIN

Miss Florence L. Sabin, physiologist at Johns Hopkins medical school, Baltimore, who was elected a life member of the National Academy of Sciences, is the first woman chosen to membership.

Sugar Barons Happy Over Tariff Status

Washington, D. C.—President Coolidge has decided to postpone indefinitely action on the recommendation of a majority on the tariff commission for a reduction of 1/2 cent a pound in sugar duties.

Discussing the issue at length, the president points out that the commission failed to agree on the difference in cost of production of domestic and imported sugar, and divided, three to two, on the question.

He asserted that fluctuating prices of the last few years had made it next to impossible to arrive at accurate calculations and emphasized the necessity of protecting the beet sugar industry, of encouraging farmers to diversify their crops and of providing an adequate sugar supply for the American consumer.

Washington Veterans Elect Chiefs. Walla Walla, Wash.—Jacob H. Owens of Aberdeen was elected commander of the Veterans of Foreign Wars, department of Washington, at the convention here. Other officers are: E. I. Thrall, Tacoma, senior vice commander; C. J. Larson, Walla Walla, junior vice commander; C. R. Austin, Aberdeen, chaplain; E. J. Peterson, Raymond, quartermaster.

Canada Wants a Share in the Ice

Ottawa, Ont.—Canada will protest against the United States' MacMillan expedition using Axel Heiberg island as a base while exploring the Arctic, unless the reply to a communication sent Washington by the dominion government is satisfactory.

While not specifically naming the MacMillan expedition, Charles Stewart, minister of the interior, announced that the Canadian government felt that foreign explorers should get a permit from the dominion before making use of land Canada claims between the dominion and the North Pole.

According to the minister of the interior, the question of a permit has been taken up with the Washington authorities and a reply to the Canadian government's communication is expected here shortly.

Indications that the dominion intends to uphold its claims were found in the fact that G. P. MacKenzie, gold commissioner for the Yukon, is to be appointed to the new post of Arctic administrator with jurisdiction over the entire Arctic archipelago.

Success in business ventures depends largely on purchasing raw materials at favorable prices. Another point for the dairyman is the efficient use by the cow.

Albany Directory

This is good advice: "If you live in Albany, trade in Albany; if you live in some other town, trade in that town." But in these automobile days many residing elsewhere find it advisable to do at least part of their buying in the larger town. Those who go to Albany to transact business will find the firms named below ready to fill their requirements with courtesy and fairness.

Horrors of Savage Warfare in China

Kwangtung Army, Commanded by Bolshevik Officers, Beats Defenders.

Canton, China. — The attacking Kwangtung and Canton forces under Bolshevik officers, after a fierce attack on the defending Yunnanese army forced them to surrender Canton and imposed extreme cruelties on soldiers and civilian population as well.

The attacking forces landed 2000 soldiers at Tungshan, and from that point they advanced, leaving the defending forces without river transportation facilities and therefore unable to launch a counter-attack.

After landing the Kwangtung troops gave the surrendering forces no consideration, although the defeated troops had voluntarily given up their arms. The winning forces then began looting the city. This was not confined to stations of opposing army forces, but extended to homes of non-combatant citizens.

Revolting scenes followed in all parts of the city, many of which were witnessed by Europeans from the foreign quarter. Innocent people were stoned and beaten by mobs, members of which seemed to have lost their senses. The bodies of slain innocent bystanders are strewn along the roads.

Mexican Fur Is Rubbed Wrong Way

Assertion That Mexico is Now on Trial Before the World is Resented.

Washington, D. C.—Affairs between the United States and Mexico took a swift turn in the direction of a crisis, it was confidently believed here, when President Calles of Mexico issued a curt statement replying to that made last Friday by Secretary of State Kellogg.

President Calles' rejoinder, given to the newspapers by the Mexican embassy is arrogant and defiant in tone. Throughout the entire statement, the United States is treated in tone as just one of a number of foreign countries with whom Mexico has to deal and not at all as a powerful next door neighbor whose patience has been exhausted by repeated refusals of the southern republic to protect American lives and property.

President Calles resents Secretary Kellogg's assertion that Mexico is now on trial before the eyes of the world and insists that if Mexico is placed in the role of a defendant by such a statement his government "absolutely rejects with energy such imputation which in essence would only mean an insult."

President Calles employed the same medium to reply to the secretary of state as Mr. Kellogg to acquaint the country with the policy being pursued by this government, namely, the press.

VISION CARRIED BY RADIO

Government Officials Witness Test of Device of Washington Scientist.

Washington, D. C.—An apparatus by which persons may see movable objects miles away by radio was successfully demonstrated at a private test here on an invention by C. Francis Jenkins, Washington scientist.

Secretary Wilbur, Dr. George M. Burgess, director of the bureau of standards, and other high government officials, witnessed the test.

On a small screen the officials were able to see a small cross revolving in a beam of light flashed across a light-sensitive cell installed at naval radio station several miles away.

The "radio eye," consisting of a polished mirror of graduated thickness and a number of smaller mirrors, in its revolution, breaks up the image of the picture into thousands of flashes, reflecting them into a photo-electric cell. The flashes take a number of "stills" of the moving object and in reproducing them on the screen, give continuity of action similar to a motion picture.

Washington, D. C. — This government will support the present Mexican regime "only so long as it protects American lives and American rights and complies with its international engagements and obligations," Secretary of State Kellogg warned in an informal press statement.

This statement was issued following a series of conferences between Kellogg and Ambassador Sheffield, who has just returned from Mexico. Kellogg's statement said in part: "A great deal of property of Americans has been taken under or in violation of the agrarian laws for which no compensation has been made, and other properties practically have been ruined and, in one instance, taken by the Mexican government on account of unreasonable demands of labor. Mr. Sheffield will have the full support of this government and we will insist that adequate protection under the recognized rules of international law be afforded American citizens. We believe it is the desire of the Mexican government to carry out the conventions and to indemnify American citizens for property taken."

"I have seen the statements published in the press that another revolutionary movement may be impending in Mexico. I very much hope this is not true."

"It is the policy of this government to use its influence and its support in behalf of stability and orderly constitutional procedure, but it should be made clear that this government will continue to support the government in Mexico only so long as that government protects American lives and American obligations. The government of Mexico is now on trial before the world."

CHECKS ARE SENT BY WIRE

Drafts Successfully Sent from New York to Chicago.

New York.—Experiments are being made by several New York banks on telegraphing checks by means of an instrument which photographs the check at one town and reproduces it in another, it was learned recently. The innovation, it is hoped, will result in great facilitation of banking business.

Checks have been successfully telegraphed by the Bank of Manhattan company from New York to Chicago. The actual transmission of the checks requires only seven minutes, but necessary photographic processes add another 4 1/2 hours to the time. It is pointed out that under the new system a man presenting a check in New York on a San Francisco bank could get it cashed within a few hours instead of waiting several days as at present. Future use of the system in transmission of stock transactions is also considered.

Britain to Aid Canada's Arctic Claims. London.—Great Britain will assist in preparing Canada's claim to Arctic territory and make any representations decided on, if a controversy between Canada and the United States develops, it was understood here.

Quarantine Board Urges Fight on Pest Boise, Idaho. — Stringent measures to prevent introduction and spread of plant pests and diseases in western states are advocated in resolutions adopted by the western plant quarantine board at the closing session here of that body's annual convention. The recommendations of the quarantine board are seriously considered by federal and state officials, because the board is composed of experts in the field.
