Read the story on page 4 of the man who cures his hay more quickly, at less cost, than you do, and gets twice the value from it. Some day groups of farmers may combine and get the advantage of labor saving machinery none of them alone could buy, just as the weaving once occupying thousands of hand looms is now done in one factory.

The only way we kill sheriffs in this county is by shooting them. Sheriff Richard's car rolled down a bank near Lebanon Friday with him and Charles Hoy in it, and was badly smashed, but neither man was seriously hurt.
