The armistice day program given by the Ladies' Study club was well attended and much enjoyed. Mrs. S. J. Smith gave the invocation and Mrs. B. M. Bond led in a community sing. The high school and grades put on some very good numbers and some splendid vocal solos were rendered by Mesdames Bond and Stafford and also some very fine vocal duets were sung. Prof. Patton finished the program by giving a splendid talk on "Overseas Life During the World War." The orchestra rendered music which made the program complete. Ice cream, cake and candy were sold by the Study club and there was no trouble in disposing of it. About \$27.00 was taken in.

**Idaho to Have  
Biggest Reservoir**

Boise, Idaho.—The American Falls reservoir will be the largest artificial body of water in the United States and the third largest in the world as a result of official authority that was transmitted by the regional office of the United States reclamation service at Denver to Engineer Banks in charge of construction at American Falls. The instructions are to build the dam to its full height and authority is given to Engineer Banks to proceed along that line.

The order will permit raising the giant dam 12 additional feet, resulting in the impounding of 1,700,000 acre feet of water in a reservoir that will be 35 miles long. This is an addition of approximately 700,000 acre-feet, for under the former plans, had they been carried out and the height of the dam not raised, the reservoir would have impounded 1,045,000 acre-feet of water.

**Over Three Billion  
Cut in Taxation**  
Cut in Revenue For Next Year  
Estimated to Amount to  
**\$304,000,000.**

Washington, D. C.—The limit in tax reduction for next year has been reached by the house ways and means committee in revisions already approved for the new revenue bill, Chairman Green declared in announcing that the door was closed against further proposals for tax relief.

The \$304,000,000 cut in revenue next year estimated to result from revisions ordered by the committee in tax rates, he said, is all the treasury can stand.

The chairman's statement is believed not only to mean there will be no further alterations in the tax rate schedule by the committee, but also that the threatened fight in the house for greater reductions in the automobile tax than have been voted by the committee will be opposed vigorously.

Repeal of the automobile passenger car levy would cut another \$50,000,000 from the annual revenue.

Chairman Green said he expected the committee to complete the drafting of the tax reduction bill this week, thus assuring early consideration by the house soon after congress convenes December 7.

As agreed upon by the committee the bill will provide for widespread reductions in all income tax rates, increased personal exemption, repeal of many of the excise and special levies, repeal of the gift tax and publicity of income tax returns, modification of the inheritance tax.

**Judge Advocate is  
Impelled to Resign**

Washington, D. C.—The resignation of Captain Paul J. Foley as judge advocate of the naval court that has been investigating the Shenandoah disaster was accepted by Secretary of the Navy Wilbur.

Captain Foley resigned following Mrs. Margaret Lansdowne's charge that he endeavored to persuade her to give "false testimony" before the court that would tend to "whitewash" the navy in the Shenandoah inquiry.

Margaret Ross Lansdowne testified before the Mitchell court-martial that Captain Paul Foley, judge-advocate of the Shenandoah court of inquiry, had submitted to her a prepared statement which she was to adopt as her testimony before the navy court inquiring into the disaster which cost her husband, Commander Zachary Lansdowne, his life.

The Mitchell court-martial refused to strike out the testimony of Mrs. Lansdowne.

Former Indiana Klan Chief Convicted of Second Degree Murder.

Noblesville, Ind.—Life imprisonment in the Indiana state prison at Michigan City is the price which a jury determined that D. C. Stephenson, former grand dragon of the Indiana Ku Klux Klan, shall pay for the death of Madge Oberholzer.

It took a panel composed of ten farmers, one businessman and a truck driver less than six hours to reach the verdict.

verdict. Earl Klenck and Earl Gentry bodyguards of Stephenson and charged jointly with the abduction and at tack on the girl last March 15, were acquitted. Miss Oberholzer took poison in a Hammond hotel after the alleged mistreatment, and died at her Indianapolis home 29 days later. The men were charged with responsibility for her act.

Murder in the second degree was the finding of the jury. It calls automatically for 20 years' servitude which the Indiana laws call life imprisonment. Good behavior can reduce the term by several years.

**TUTANKHAMEN AGE FIFTEEN**

Communications on Discoveries May Be Given Out Soon.

Cairo, Egypt.—The mummy of Tutankhamen, with the hands clasped on the breast and a tall golden crown on the head, has been disclosed at last, says a message from Luxor. The expert's examination established that the Pharaoh was only 15 years old when he died. On the breast were found two large gold scarabs and strapped to the side two gold-hilted swords and two gold-handled knives.

The dispatches from Luxor say that the mummy of the boy Pharaoh, when extricated from its wrappings, was found to be covered with gold. Gold stars were placed to mark the heart and lungs.

**Financial Muddle  
in Washington**

Olympia, Wash. — With Governor Hartley and an apparent majority of the state legislature fully aroused to the credit crisis caused by the default of Washington cities on their local improvement district obligations, corrective legislation already seems assured at this session. This is one of the very few highly important matters covered in the governor's message that admits of no controversy as to purpose, though there will be some conflict of opinion as to the means of correction.

So far the discussion revolves around the point of whether it will be possible in any way to compel the defaulting communities to clean up their outstanding improvement district debts. No one doubts the feasibility and practical necessity of making it impossible for improvement district securities to be issued in the future without guaranty of payment through a general tax levy. But in all apparent good faith, many legislators are doubtful if any law can now be enacted that would force an unwilling city or town to raise money for the redemption of the large amount of district improvement bonds that have been permitted, under cover of existing law and the supreme court's decision, to become worthless.
