### Christmas Seals Aid Tuberculosis Fight

Knowledge and Practice of the Rules of Health Greatest Need.

In 1924, 593 Oregon people died with tuberculosis. Best estimates indicate that probably 5000 are afflicted with the disease. Careful studies show that between the ages of 15 and 40, which may be called the best years of life, more Oregonians die of tuberculosis than from any other cause of death and the same is true throughout the United States as a whole. All this is in spite of the fact tuberculosis is known to be preventable and curable.

"We know enough about tuberculosis to scotch it within a generation. It is not lack of knowledge, it is lack of application of knowledge that impedes our progress." These were the words of Dr. Allen K. Krause, leading American authority on tuberculosis, when he visited Oregon last summer. He also pointed out that the knowledge which makes physicians confidently assert that "tuberculosis is preventable and curable" is not knowledge regarding medicines or treatments that can be called "specific cures." It is knowledge regarding the fundamental rules of healthy living.

It is disregard of the rules of healthy living that permits tuberculosis to continue as so great a menace to humane life. It is knowledge of these rules, and care in their application which will eventually overcome tuberculosis. It is the tremendous progress in this direction which has made possible the 50% reduction in the tuberculosis death rate in the United States within the last 15 years, and the 28% reduction in Oregon's rate within the last ten years.

Christmas Seals finance the campaign of the Oregon Tuberculosis Association which is specifically designed to meet the need of teaching health. Public Health nurses are put into the field in Oregon. Health teaching is taken into the Oregon schools. Literature is distributed, exhibits are prepared, and every known channel of teaching health is employed.

The objective of the health teaching is to overcome tuberculosis by striking at its vulnerable spot.

### Our Congressmen Favor Seal Sale

"The anti-tuberculosis movement has always had my unqualified support. I believe that conducting the Sale of Christmas Seals to raise funds for combating this disease (tuberculosis) is a most valuable public service and should by all means be encouraged. Rest assured that I shall be more than glad to do anything I can to further the valuable work."  
**HON. M. E. CRUMPACKER,**  
U. S. Representative from Oregon.

"I am glad to most heartily join in wishing the utmost success in the work of those engaged in the anti-tuberculosis campaign."  
**HON. ROBT. N. STANFIELD,**  
U. S. Senator from Oregon.

"In a time when we are thinking of making a season especially joyful to those of our immediate family and friends, the contributions to the anti-tuberculosis campaign is an instance of kindly good will toward a number of our fellow citizens who have cause for uneasy apprehension, and the fact that people are mindful of them will help them as much, I believe, as the money will help them. I cordially commend the sale of Christmas Seals."  
**HON. WILLIS C. HAWLEY,**  
U. S. Representative from Oregon.

"I wish to cordially endorse the ongoing anti-tuberculosis campaign in Oregon, through the sale of Christmas Seals. I note with pleasure the report of the great decrease in the death rate from tuberculosis in our home state, during the past fourteen years, and believe that this is due in a large measure to the money derived from the sale of Christmas Seals.  
"The Christmas Seal campaign is a most worthy one and I consider it a distinct privilege to be able to add my testimony to the great number who hold a like opinion."  
**HON. N. J. SINNOTT,**  
U. S. Representative from Oregon.
