What the Autos Cost the Country

New York.—America's automobile bill including cost of cars, insurance, upkeep, gasoline and numerous other items of expense, totals more than \$14,000,000,000 annually, the bureau of industrial technology estimates in a report made public here. Future orders obtained by the bureau showed that it costs the average automobile owner more than \$700 a year to own and operate his car.

The average retail value of cars, including accessories, was found to be \$1000. Of the present output, at the rate of 4,000,000 automobiles annually, approximately \$250,000,000 worth are exported.

Demonstrating where "the automobile dollar" goes, the bureau prepared a table showing that costs of cars and accessories now stand at approximately \$3,750,000,000 annually; depreciation was estimated at \$2,500,000,000; upkeep, repairs, \$2,000,000,000; drivers wages, \$1,500,000,000; gasoline, \$1,200,000,000; garages, \$900,000,000; taxes, \$625,000,000; interest on investment, \$500,000,000; tires, \$618,000,000; oil, \$300,000,000, and insurance, \$300,000,000.

Anyone interested in cream separators should call at the farm of A. W. Dykstra, route 1, and see his Impo. Belgian Melotte. Mr. Dykstra says that with the self-balancing bowl the Melotte will skim as efficiently after ten or fifteen years' use as when new. It is said to be quite a sight to witness his Melotte in operation.
