SCHOOL HEADS URGE CHANGES IN LAWS

Olympia, Wash.—Several resolutions urging a number of legislative changes as regards existing school laws of the state and nation were adopted after discussion here by the 39 county school superintendents of the state, after being in session for three days. Among one of the changes urged was one resolution favoring the enactment of a federal law providing for a department of education with a secretary of education to be included in the president's cabinet.

Another resolution adopted would eliminate the present statute prohibiting graduates from the state normal schools from teaching grade school classes, and being restricted to service in high schools. It was pointed out that the graduates from similar schools in other states were unrestricted in being permitted to come to the Washington grade schools.

Among a score of resolutions of various kinds, the delegates adopted one recommending that senate bill No. 166 of the recent special session be enacted so as to provide for a countrywide uniform adoption of textbooks, and that a fund for this purpose be raised by state taxation.

BRIEF GENERAL NEWS

Wireless photography across the Atlantic was begun on a commercial basis Saturday and several pictures of news events were transmitted from London to New York.

Sixty-five investigations of industries, capitalized at billions of dollars, that are suspected of violation of the anti-trust laws, are being conducted by the department of justice.

The subcommittee of the senate judiciary committee will report out favorably all of the so called "dry," "administration" and "Andrews" bills and none of the so called "wet" bills.

Damage was estimated at, from \$500,000 to \$750,000 as a result of the lightning-set oil fire which destroyed one reservoir at the Standard Oil company's tank farm near Bakersfield, Cal.

Assistant States Attorney McSwigin, 26 years old, of Chicago, was killed when gangsters poured more than a hundred machine gun bullets into the automobile in which he and four other men were riding.

Idaho Blue Sky Statute Strengthened
Boise, Idaho.—The position of E. W. Porter, state commissioner of finance, in enforcing the Idaho blue sky law, was strengthened on a decision at a special sitting of three federal judges, upholding the law and denying an injunction asked by the investors' Syndicate of Minneapolis. The order entered, however, declared void a provision that domestic corporations should pay lower fees than foreign corporations.

Bill Limiting Sugar Output Passed
Havana.—The drastic bill to limit the production of Cuban sugar was passed by the senate. The senate approved the measure, 14 to 5. Planters in only two provinces of Cuba are actively opposing the bill. When President Machado signs the bill, Cuban planters hereafter will be limited to producing only 90 per cent of the estimated sugar crop for this year.

Card in Mail 14 Years
Ellensburg, Wash.—Mrs. Mollie R. Dixon, Kittitas county treasurer, received a card from a friend that was mailed in Seattle July 7, 1911. As usual in such cases the postoffice had no explanation to offer.

Prospectors May Start Drilling

Rumors are rife that boring for oil will begin here within a few days by the Pittsburg syndicate of oil promoters, who have recently taken leases on nearly 100,000 acres of land near Harrisburg. It is understood that at least half a dozen test wells are to be sunk at the same time—several of them 6 or 7 miles southeast of town and the balance 5 or 6 miles north of town.—Harrisburg Bulletin.
