Under the plan of the American Youth Award and the American Teacher Award, each state will select a boy and a girl and a woman teacher who best represent American ideals, and they will be given trips to Philadelphia and to Washington, where they will receive medals from President Coolidge.

**INCOME TAX RECEIPTS
FAR OVER ESTIMATES**

Washington, D. C.—Big collections of income taxes for this quarter reported to the treasury boosted the prospective surplus for the fiscal year, ending June 30, to more than \$300,000,000, far beyond the official estimate.

This is the largest surplus since 1924, when the year was closed with a margin of \$500,000,000, and comes on the heels of a heavy reduction in the income tax rate which was effective on both quarterly payments this year. Despite the recent slash in rates, income tax collections for the June 15 installment already amount to more than \$2,000,000 above last June with indications that the total will be well over the collection of \$377,000,000 received at this quarterly payment, a year ago.

In the face of the prosperous condition of the treasury, high administration officials refused to concede that another early tax reduction is in prospect.

23 PLEAD NOT GUILTY

Charge Against 31 Men Includes Use of Mails to Defraud.

Tacoma, Wash.—Twenty-three men secretly indicted by the last federal grand jury in connection with the Ruby Beach Mining company case pleaded not guilty when arraigned before Federal Judge Edward E. Cushman in federal court.

The indictments contain six counts on various charges against 31 men and charges that aside from using the mails to defraud, the company promised unusually extravagant returns from investments.

The company was incorporated in Aberdeen in 1923. Stock was to be sold in \$1 units, the first block to be \$250,000, and the grand total of all stock to be sold to total \$600,000. The company claimed a process by which gold, platinum and iridium were to be extracted from the "Ruby sands" on a stretch of the Pacific ocean beach at the mouth of the Hoh river in Jefferson county, the indictment charges.

The Dalles, Or.—Full investigation into the affairs of the defunct French & Co bank by an auditor was ordered by Circuit Judge Wilson, in whose court the receivership stands as the result of the resignation of three local business men from a committee of creditors and depositors.

Kelso, Wash.—A Ruric Todd, ex-mayor of Kelso, was convicted of malicious prosecution by a jury in Cowlitz superior court. **CONFISCATION BILL
FAILS IN GERMANY**

Vote on Proposal to Turn Property of ex-Rulers to Public Not Large Enough.

Berlin.—Germany's first national referendum under the republican constitution, held to decide the question of expropriating without compensation the entire properties and estates of the ex-rulers, with particular interest centering on the German ex-emperor and the Hohenzollern family, failed to poll an affirmative vote of half the eligible electors.

The returns from 35 federal districts were: Affirmative, 14,889,703, and negative, 542,211. Fully 60 per cent of the eligible voters stayed away from the polls, while 35 per cent endorsed unconditional confiscation. Defective ballots and negative votes constituted only a small percentage.

While admitting that the advocates of the expropriation made a respectable showing in the balloting, the government leaders, were visibly gratified when final returns definitely presaged the measure's defeat. Their satisfaction was prompted quite as much by internal political considerations as the feeling that the definite rejection of such a radical law will impress the outside world with the conservative character of the German electorate, regardless of the fact that the personal interests of the ex-princes were at stake.

An analysis of the vote shows that the confiscation proposal was chiefly supported by the big cities in the industrial sectors, as in the Ruhr and Saxony but in the flat country, national strongholds, such as Bavaria, the issue was rejected through restricted turnout of voters.

**FRANCE LIFTS
TARIFF ON WHEAT**

Washington, D. C.—Holding out the promise for a new market for surplus American wheat, the French chamber of deputies has passed unanimously a bill exempting foreign wheat from all import duties until July 31, according to cable advices to the department of commerce.

Record shipments to France are expected if the bill passes the senate, a committee of which has given it a favorable report. The present French tariff on foreign wheat from this country is more than 16 cents a bushel, heavy enough to restrict drastically exports to that country.

Lifting of the tariff was attributed to need for bread at lower prices, due to the drop in the franc's purchasing power. To meet this need, it was said.
