### The 'lowdown' on Shirts

You want your shirt to look well, always. True—the only part that most folks see is the little "V" above your vest. But that "V" speaks the style, the quality of your entire shirt.

You want inbuilt value, below the "V" and in the fashioning. Smart lines. Deft tailoring of shoulders, cuffs and sleeves.

See the style show of Neustadter shirts at Our Store. Neustadter Brothers, Established 1853, Portland San Francisco, New York.
