Waggeners Hold Family Reunion

The birthday anniversary o James E. Waggener was happily celebrated Sunday at his mountain home five miles northeast of Brownsville by a reunion of the Waggener clan, a well known pioneer family of this part of Linn county. Honors of the occasion were shared by Arthur Waggener, his nephew, who is extensively interested in berry culture in the vicinity southeast of Halsey.

James E. Waggener is a son of the late Mr. and Mrs. Byrd Waggener and spent his boyhood days on the home farm near Halsey, later going to Kalispell, Montana, where he engaged in the undertaking business. After his retire ment from business three years ago he decided to engage in fox farming and with his son Everett and family is now living on a tract of land above Brownsville which he has owned for years. This tract! is one of scenic beauty, and well equipped for the raising of foxes on a commercial scale. He started with three pair of foxes and now has fourteen. . In addition, he has other small fur bearing animals on the farm.

The celebration on Sunday was

Horses Not Yet Extinct

The horse is paid tribute by the United States Department of Agriculture in a new educational motion picture, "The Horse and Man." The film acknowledges the service which the horse has rendered the human race throughout the ages, recalls some of the important oles he has played in the drama of American history, and directs attention to his economic importance in modern industrial life.

In spite of the fact that gasoline has driven the horse-drawn rig from the city streets, and the belief which exists among most city dwellers that the horse is doomed to follow the dodo, there are still more than 15,000,000 horses providing power for American farms. The popularity of polo, the bridle path, the race track, and the chase s widespread and is increasing.
