RUPTURE
Expert Here

F. H. Seeley, of Chicago and Philadelphia, the noted expert, will personally be at the Albany hotel, and will remain in Albany, Wednesday only, September 22nd. Mr. Seeley says:
 "The Spermatic Shield will not only retain any case of rupture perfectly but contracts the opening in ten days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) especially solicited.
 Caution—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the U. S. government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.
 N. B.—Every statement in this notice has been verified before the Federal and State courts.—F. H. Seeley. Home office, 117 N. Dearborn St., Chicago.—Adv.
