## Every Forward Looking Citizen Should Fight for Oregon and its Development

By BRUCE DENNIS  
Author of the Dennis Resolution

When the people of Oregon enacted a state income tax in 1923 they did so because they believed it was just and right. They believed it would reduce taxes. At that time they had plenty of theory and few facts to guide them.

They repealed that law in 1924 because it was a proved hard time breeder. It cost the people of Oregon the staggering total of \$40,000,000 to learn that economic conditions absolutely beyond their control are such in Oregon that a state income tax drives out industries, keeps others from coming in, reduces payrolls, makes it harder to obtain farm loans, and strikes at every home in the country, village, town or city.

But our state is again in turmoil because a determined effort is being made to force practically this same law upon the state this year. Our people are being asked to ignore plain fundamental economic facts. They are being asked to enact a law on a "guess" that it will bring good times now, when painstaking, honest investigation proved that the former tax did drive out industries, capital, jobs, and millions of taxable wealth from Oregon, and a new state income tax will do it again.

Oregon is full of meritorious projects that should be developed. Big public improvements are necessary to open up our state, to bring the farms closer to their markets and cities closer to their bases of supplies. Wealth untold lies idle in natural resources awaiting the magic touch of development capital to bring it to the tax rolls, to create new payrolls, new activities and better livelihood for our people.

Since the last income tax law was repealed millions of dollars have been loaned in Oregon by outside financial concerns, at low rates, on long time, and with repayment privileges never known to Oregon before. If a new income tax is enacted, and this discrimination aimed exactly at these investors, rates will go up, much of the unloaned funds will be withdrawn, and our people will again face the inescapable fact Oregon needs capital, but capital does not need Oregon.

This is no time for prattle. It is high time for plain speaking, straight thinking and recognition of the hard economic fact that Oregon's farms, her industries, and her citizens desperately need capital, and that the only place we can get it is from outside the state.

We can drive capital out, but we cannot force it to come in unless we make it advantageous for it to do so. Oregon, ninth state in area, is relatively insignificant economically. 119,000,000 of America's 120,000,000 people reside outside of Oregon. Let us remember the industrial city of Detroit has over 100,000 more people than the state of Oregon, with its 96,000 square miles. Let us remember that 782,206 people here didn't make enough to file income tax returns, and that only 311 people in the entire state had earnings in excess of \$10,000; that of Oregon's 5000 corporations only 1073 made enough profit to file taxable reports, that 478 made less than \$5,000 and only 183 over 20,000, including all public utilities, lumber mills, flour mills, factories, railroads and other industries.

We have 55,157 farms, one to every 15 persons, 2500 industries, one to each 830 persons. What would one industrial center like Detroit mean to our farms, our home owners, our workers, our state? Oregon wants them, Oregon wants capital and wants to go ahead. Oregon wants to avert economic disaster, and instead wants to offer capital, new people, new industry, opportunity to help us grow.

That is what the Dennis Resolution is for. It guarantees that no state income tax can be enacted to discriminate against development and progress before 1940.

It guarantees to every Oregon family that the state will not tax its accumulations when the bread winner dies. As a prosperity making measure it deserves the support of every forward looking citizen.

Vote 306 X YES--Dennis Resolution  
Vote 329 X NO --Offset Income Tax Bill  
Vote 335 X NO --Grange Income Tax Bill

## More School Buildings Proposed --- Bond Reduction Possible

As the taxpayers of our 18 grant land counties realize the great relief and how large is the sum coming to them through the enactment of the O. & C. bill, they are planning new school buildings and an increase and betterment in the teaching staff. EIGHT MILLIONS of dollars turned loose in Oregon this fall is almost unbelievable, but this is a fact, thanks to the efforts of Robert N. Stanfield. In addition to this immediate cash payment there is a tax reduction for all time of 25 per cent. One has only to ask any school director of these counties to realize to the full the wonderful relief from burdensome taxes the enactment of the O. & C. bill has permitted. This tax relief was only possible by the holding of the chairmanship of the public lands by Senator Stanfield. The further relief to be had through the forest reserve lands can only be obtained by re-electing Robert N. Stanfield as senator for Oregon.

Senator Stanfield proposes to apply this principle to the forest reserves, which will give every taxpayer in Oregon an additional reduction of from 25% to 40%, or, in other words, will give Oregon an increased revenue of from 11 to 15 MILLIONS of dollars yearly, and for all time to come. With this substantial reduction in our taxes and bonded indebtedness, we may look for the immediate coming of eastern capital and population and an increase in the value of our own property.

The additional revenue could eventually permit the repeal of all automobile, road and gasoline tax.

(Paid adv. by R. C. Taylor, Portland, Ore.)
