**U. S. Exports 537,772,092 Pounds of Meat, Worth \$109,872,185**

Exports of meat from the United States in the twelve months ending June 30, 1926, amounted to 537,772,092 pounds, valued at \$109,872,185, according to the Sears-Roebuck Agricultural Foundation in a survey of the 1926 meat situation. Great Britain was the biggest customer, taking 52 per cent of all the meat exports in the last fiscal year and more than six times as much as Cuba and the West Indies, the next largest buyers. Canada ranked third but took only 5 per cent, and Germany was fourth, taking slightly less than 3 per cent. Belgium and the Scandinavian countries are other nations to which the United States delivers yearly substantial quantities of meat. Germany, on the other hand, was a large customer, taking about 13 pounds of lard for each pound of our meats she purchased. Beef and veal exports make up only about 4 per cent of the total amount of United States meat exports.

**\$262,896,309 Grain Export—Wheat and Flour Top List**

The value of grains and grain products exported from the United States in the fiscal year, ending June 30, 1926, is placed at \$262,896,309 by the Sears-Roebuck Agricultural Foundation in a survey of the situation just issued. Wheat and flour topped the list, making up nearly two-thirds of the total. Other exports in the order of value were barley, corn, oats, rye and oatmeal and rolled oats. Investigation of the export figures makes Canada appear as the second largest receiver of American grain. This is due to the fact that much of the grain is shipped via the Great Lakes and the St. Lawrence river and is cleared to Canadian ports. The bulk of it, however, is destined for Europe. The leading buyer of American grain was Great Britain, with a record of 18 per cent of the total export. Next in order, following Canada, were the Netherlands, Cuba, Germany, Belgium, Mexico and Italy.
