Enterprise Changes Ownership Dec. 1

A deal has been consummated whereby Wm. H. Wheeler becomes owner of the plant, subscription list and good will of the Rural Enterprise again. The change in management will be made Dec. 1, and therefore this is my last issue.

Accounts due for subscriptions are payable to Mr. Wheeler after Dec. 1, and to those who have paid in advance he will send the paper until their subscriptions expire. All dues for advertising and job printing prior to Dec. 1 are payable to me.

During my seven months ownership I have been absolute owner and under the control of no individual nor clique because of obligation or otherwise.

I have enjoyed my sojourn in Halsey very much and have no complaint to make so far as patronage is concerned. In fact the Enterprise has enjoyed larger net earnings during the last seven months than for any like period of the paper's history, which dates back some 15 years.

I desire to express my thanks and appreciation for all courtesies and favors that have been extended, and especially do I thank the correspondents and reporters of neighborhood news who have rendered such faithful service and helped to keep the Enterprise filled with all the worth while news of Halsey and surrounding country. One and all, we thank you, and hope Mr. Wheeler shall enjoy many happy and pleasant years in the service to which he is so devoted.

Oregon Cranberries Equal to the Best

Clatsop county cranberries this year are of exceptional size and flavor, it is indicated by a box of the berries that have been received by the Enterprise from J. S. Dellinger of Astoria. The cranberry crop of the Clatsop marshes has come to be an important item in that district's resources, and the present year has been one of favorable weather conditions for the cranberry.

Albany May Have New Paper

A movement is on foot for the establishment of another newspaper at Albany, and the first issue is due to appear shortly after the new year. According to plans of the group of men sponsoring the proposition the new publication will be a weekly, devoted to the local and social news of the town of Albany and surrounding communities.

There are a few citizens of Albany, whose interests will be affected, who will swell up with the poison of local pride and proclaim that their town is too large for a weekly paper, but it seems that these views are not held by others who believe that as long as they are compelled to read one of the Portland daily papers to get all the state, national and foreign news that a weekly, fully covering the local field would be the ideal home paper for them. They further point out that Albany is nothing more than a country town of perhaps 5,000 or 6,000 people, populated by a working class, and supported by the farming country that surrounds it and probably will never be able to support a daily newspaper that will be large enough to give them all the news of the county, state, nation and world in one.

Railroad Taxes at New Peak

Exceeding 400 million dollars, the taxes paid by the railways this year will be the largest ever paid in the history of American transportation, according to T. O. Edwards, general auditor of Southern Pacific Company.

Not only are railroad taxes higher during 1926, but they are increasing more rapidly than in any previous year with the exception of 1917 and will exceed the dividends paid to stockholders in any one year with the possible exception of 1911.

"The taxes paid by railroads for 1926," Edwards said, "most of which are collected by state governments, probably will reach 420 million dollars. These forecasts are based upon actual experience of the class 1 roads during the first nine months of 1926, as divulged in a survey made by Railway Age."
